Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 84b5125b

Artist Marilyn Dingle’s intricate, coiled baskets are _____ sweetgrass and palmetto palm. Following a Gullah technique that originated in West Africa, Dingle skillfully winds a thin palm frond around a bunch of sweetgrass with the help of a “sewing bone” to create the basket’s signature look that no factory can reproduce.

Which choice completes the text with the most logical and precise word or phrase?

- A. indicated by
- B. handmade from
- C. represented by
- D. collected with

ID: 84b5125b Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of Marilyn Dingle’s baskets. In this context, to say that Dingle’s baskets are “handmade from” particular plants means that Dingle creates baskets herself using those plants but without using machines. The text says that Dingle “skillfully winds” parts of palmetto palm plants around sweetgrass plants to make baskets with an appearance that “no factory can reproduce.” This context suggests that Dingle’s baskets are handmade from sweetgrass and palmetto palm.

Choice A is incorrect because the text describes how Dingle uses sweetgrass and palmetto palm to create her baskets, not how her baskets are “indicated by,” or signified by, sweetgrass and palmetto palm. Choice C is incorrect. Although Dingle’s baskets are described as being made using sweetgrass and palm, there’s nothing in the text to suggest that the baskets are “represented by,” or exemplified or portrayed by, sweetgrass and palmetto palm. Instead, the focus of the text is on Dingle’s use of sweetgrass and palmetto palm and the impossibility of replicating the appearance of her baskets using machines. Choice D is incorrect because there’s nothing in the text to suggest that Dingle’s baskets are “collected with,” or brought together in a group with, sweetgrass and palmetto palm. Instead, the text describes how Dingle uses those plants to make her baskets.

Question Difficulty:
Easy

Question ID fa014d2d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: fa014d2d

The invention in 1958 of the integrated circuit (or microchip) radically altered the semiconductor industry. In fact, some historians argue that it fundamentally _____ the industry by enabling it to take advantage of mass production methods for the first time.

Which choice completes the text with the most logical and precise word or phrase?

- A. overwhelmed
- B. bypassed
- C. obstructed
- D. transformed

ID: fa014d2d Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of the invention of the integrated circuit. As used in this context, "transformed" means substantially changed in some way. The text states that the invention radically altered the semiconductor industry, with some historians claiming that it had a fundamental effect on the industry by allowing for mass production for the first time. This context conveys that the invention of the integrated circuit transformed the semiconductor industry.

Choice A is incorrect. Although the text indicates that the invention of the integrated circuit significantly affected ("radically altered") the semiconductor industry, it doesn’t indicate that the invention "overwhelmed" the industry, which in this context would mean that it overcame the industry such that the industry struggled or was defeated. Instead, the text conveys that the invention’s effect was positive, since it allowed the semiconductor industry to begin making use of mass production methods. Choice B is incorrect because it wouldn’t make sense in context to say that the invention of the integrated circuit "bypassed" the semiconductor industry, which would mean it intentionally avoided the industry. The text indicates that the invention directly affected the semiconductor industry, since it made it possible for the industry to begin engaging in mass production methods. Choice C is incorrect because the text doesn’t indicate that the invention of the integrated circuit "obstructed" the semiconductor industry, which would mean that it blocked or hindered the industry in some way. Instead, the text indicates that the invention’s effect was positive, since it made it possible for the semiconductor industry to begin engaging in mass production methods.

Question ID 5fe53347

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 5fe53347

Botanist Al Kovalski has pointed out that maple trees already thrive in a wide variety of climates and thus may _____ changes in climate better than some other tree species do. The alterations maples may undergo in response to a changing climate are likely to be relatively small and easily achieved.

Which choice completes the text with the most logical and precise word or phrase?

- A. relocate from
- B. refer to
- C. originate from
- D. adapt to

ID: 5fe53347 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of how maple trees may respond to changes in climate. As used in this context, "adapt to" means to adjust to new conditions. The text first notes that maple trees already thrive in a wide variety of climates and then goes on to say that alterations maples may undergo are likely to be relatively small and easily achieved. This context supports the idea that maple trees will more easily adjust or adapt to a changing climate.

Choice A is incorrect. Although the text discusses how maple trees adjust to change, the trees do not "relocate from," or physically move from one place to another. Choice B is incorrect because "refer to" means to mention or allude to something, and the trees are not doing either of these actions. Choice C is incorrect because the text is discussing how maple trees may respond to changes in climate, not where they "originate from," or came from originally.

Question Difficulty:
Easy

Question ID 359902ae

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 359902ae

The following text is adapted from Nathaniel Hawthorne’s 1837 story “Dr. Heidegger’s Experiment.” The main character, a physician, is experimenting with rehydrating a dried flower.

At first [the rose] lay lightly on the surface of the fluid, appearing to imbibe none of its moisture. Soon, however, a singular change began to be visible. The crushed and dried petals stirred and assumed a deepening tinge of crimson, as if the flower were reviving from a deathlike slumber.

As used in the text, what does the phrase “a singular” most nearly mean?

- A. A lonely
- B. A disagreeable
- C. An acceptable
- D. An extraordinary

ID: 359902ae Answer

Correct Answer:
D

Rationale

Choice D is the best answer because as used in the text, “singular” most nearly means extraordinary. The text portrays an experiment in which a character rehydrates a dried rose by infusing it with moisture. After prolonged contact with the liquid, the rose begins to absorb it, undergoing an exceptional transformation: its color deepens, its previously “crushed and dried” petals shift, and the entire flower revives “from a deathlike slumber.” In other words, an extraordinary change is visible in the flower.

Choice A is incorrect. Although in some contexts “singular” can mean of or relating to an individual or to a single instance of something, this usage doesn’t imply loneliness or an otherwise unsatisfactory condition of isolation. Moreover, the text doesn’t attribute such a condition to the rose. Choice B is incorrect. Although “singular” has several related meanings, none of them relate to being disagreeable or unpleasant. Moreover, the text doesn’t portray the change undergone by the rose as necessarily disagreeable. Choice C is incorrect because “singular” means extraordinary, not acceptable. The change is portrayed as striking, not barely satisfactory.

Question ID 22a41819

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 22a41819

Rejecting the premise that the literary magazine *Ebony and Topaz* (1927) should present a unified vision of Black American identity, editor Charles S. Johnson fostered his contributors’ diverse perspectives by promoting their authorial autonomy. Johnson’s self-effacement diverged from the editorial stances of W.E.B. Du Bois and Alain Locke, whose decisions for their publications were more _____.

Which choice completes the text with the most logical and precise word or phrase?

- A. proficient
- B. dogmatic
- C. ambiguous
- D. unpretentious

ID: 22a41819 Answer

Correct Answer:
B

Rationale

Choice B is the best answer. A person who is "dogmatic" believes strongly that their principles and opinions are true. Because Du Bois and Locke are implied to have one "unified vision" of Black American identity that they prioritize over the "diverse perspectives" of different writers, they can be described as dogmatic.

Choice A is incorrect. "Proficient" means "skilled." Du Bois and Locke are contrasted with Johnson, but nothing in the text suggests that Johnson was not skilled at making editorial decisions. Based on the text, the three editors just have different styles; they’re not necessarily more or less skilled. Choice C is incorrect. "Ambiguous" means "unclear" or "open to multiple interpretations." However, it’s actually Johnson who encouraged multiple interpretations ("diverse perspectives"). Since Du Bois and Locke are said to "diverge" from Johnson, we can assume that the views they published were not ambiguous, but instead clear and firm (a "unified vision"). Choice D is incorrect. "Unpretentious" means "not trying to impress others with greater skill or importance than is actually possessed." Du Bois and Locke are contrasted with Johnson, but nothing in the text suggests that Johnson is pretentious (trying to impress others).

Question Difficulty:
Hard

Question ID ca50de52

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: ca50de52

“How lifelike are they?” Many computer animators prioritize this question as they strive to create ever more realistic environments and lighting. Generally, while characters in computer-animated films appear highly exaggerated, environments and lighting are carefully engineered to mimic reality. But some animators, such as Pixar’s Sanjay Patel, are focused on a different question. Rather than asking first whether the environments and lighting they’re creating are convincingly lifelike, Patel and others are asking whether these elements reflect their films’ unique stories.

Which choice best describes the function of the underlined question in the text as a whole?

- A. It reflects a primary goal that many computer animators have for certain components of the animations they produce.
- B. It represents a concern of computer animators who are more interested in creating unique backgrounds and lighting effects than realistic ones.
- C. It conveys the uncertainty among many computer animators about how to create realistic animations using current technology.
- D. It illustrates a reaction that audiences typically have to the appearance of characters created by computer animators.

ID: ca50de52 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most accurately describes the function of the underlined question in the text as a whole. The text begins with the underlined question, “How lifelike are they?” The text then explains that many computer animators pose this question about the environments and lighting that they create for animated films, striving for realistic animation of those components even if the characters themselves aren’t portrayed in realistic terms. The focus of the text then shifts to describe how some animators strive to create environments and lighting that reflect the film’s unique stories rather than making them appear realistic. Therefore, the function of the underlined question is to reflect a primary goal that many computer animators have for certain components of the animations they produce.

Choice B is incorrect because, as the text makes clear, the underlined question is one posed by computer animators who wish to create realistic backgrounds and lighting effects, not by those who, instead, wish to create effects that reflect films’ unique stories and aren’t necessarily realistic; this latter group of animators is discussed later in the text. Choice C is incorrect. As the text explains, many computer animators strive for realistic environments and lighting, while others do not; this difference of approach relates to whether these components should be realistic, not to how realism can be achieved using current technology, and the text never suggests that animators are uncertain how to achieve it. Choice D is incorrect because the underlined question pertains to the perspective of computer animators, not the audience, and the text never considers audience’s reactions to characters in animated films.

Question Difficulty:
Hard

Question ID 82cb7dda

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 82cb7dda

The field of study called affective neuroscience seeks instinctive, physiological causes for feelings such as pleasure or displeasure. Because these sensations are linked to a chemical component (for example, the release of the neurotransmitter dopamine in the brain when one receives or expects a reward), they can be said to have a partly physiological basis. These processes have been described in mammals, but Jingnan Huang and his colleagues have recently observed that some behaviors of honeybees (such as foraging) are also motivated by a dopamine-based signaling process.

- What choice best describes the main purpose of the text?
- A. It describes an experimental method of measuring the strength of physiological responses in humans.
 - B. It illustrates processes by which certain insects can express how they are feeling.
 - C. It summarizes a finding suggesting that some mechanisms in the brains of certain insects resemble mechanisms in mammalian brains.
 - D. It presents research showing that certain insects and mammals behave similarly when there is a possibility of a reward for their actions.

ID: 82cb7dda Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most accurately describes the main purpose of the text, which is to summarize a finding suggesting that some mechanisms in the brains of certain insects resemble mechanisms in mammalian brains. The text begins by explaining that feelings such as pleasure and displeasure are linked to chemical processes in the brain, such as the release of dopamine when one receives a reward. The text then indicates that such processes have been seen in mammals but that researchers have recently observed similar processes involving dopamine in honeybees. Taken together, this information serves to sum up the discovery that some mechanisms in the brains of certain insects may resemble mechanisms linked to feelings such as pleasure and displeasure in mammals.

Choice A is incorrect because the text doesn't describe any experiments or experimental methods. Instead, the text describes a phenomenon that has been observed in mammals and then presents the recent observations of Huang and colleagues that this phenomenon is also seen in honeybees. Choice B is incorrect because there's nothing in the text to suggest that certain insects can express how they're feeling through particular processes. The text does indicate that certain honeybee behaviors such as foraging are linked to dopamine, but it doesn't suggest that these behaviors enable honeybees to communicate feelings or sensations. Choice D is incorrect because the text presents research showing that certain honeybee behaviors such as foraging are linked to dopamine and therefore may be motivated by similar mechanisms to those in mammalian brains, not that honeybees and mammals behave similarly when there is the possibility of reward for their actions.

Question Difficulty:
Hard

Question ID f0be91b2

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: f0be91b2

Drivers who strongly believe that the toll they must pay to use the Lewis and Clark Bridge, which spans the Ohio River to connect Indiana and Kentucky, is currently too high are unlikely to be _____ a proposal to increase the toll. Advocates for a higher toll are likely to have more success if they instead direct their arguments toward a more persuadable segment of the population.

Which choice completes the text with the most logical and precise word or phrase?

- A. receptive to
- B. apprised of
- C. incensed by
- D. cited in

ID: f0be91b2 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most logically completes the text’s discussion of driver attitudes toward a toll increase. In this context, "receptive to" would mean open to or willing to consider something. The text focuses on drivers who think the current toll for the Lewis and Clark Bridge is too high, suggesting that advocates for increasing that toll would have better success presenting their arguments to "a more persuadable segment of the population" rather than to those drivers. This context suggests that the drivers who strongly believe the toll is already too high are not persuadable—that is, that they are unlikely to be willing to consider the toll-increase proposal.

Choice B is incorrect because "apprised of" means informed about or made aware of something, and nothing in the text suggests that the drivers who think a toll is already too high wouldn’t be informed of a proposal for an even higher toll; in fact, the text implies that advocates of the proposal would "direct their arguments" in favor of the increase to those drivers, even though they would likely be more successful focusing on people who are more open to hearing their arguments. Choice C is incorrect. In this context, "incensed by" would mean angered or outraged by something. The text focuses on drivers who feel that a current toll is too high, and it wouldn’t make sense to suggest that those drivers would be *unlikely* to be angered by a proposal for the toll to be increased; indeed, drivers who think the toll is already too high likely would be angered by a move to raise it even higher. Choice D is incorrect. In this context, "cited in" would mean referred to or mentioned in something. Although it’s reasonable to suggest that a proposal to raise a toll might not make any mention of drivers who think the toll is already too high, the text focuses on how those drivers and other people are likely to react to arguments in favor of the proposal, not on whether those drivers would be cited in the proposal itself.

Question Difficulty:
Medium

Question ID c977cfcf

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: c977cfcf

According to a team of neuroeconomists from the University of Zurich, ease of decision making may be linked to communication between two brain regions, the prefrontal cortex and the parietal cortex. Individuals tend to be more decisive if the information flow between the regions is intensified, whereas they make choices more slowly when information flow is _____.

Which choice completes the text with the most logical and precise word or phrase?

- A. reduced
- B. evaluated
- C. determined
- D. acquired

ID: c977cfcf Answer

Correct Answer:

A

Rationale

Choice A is the best answer because it most logically completes the text’s discussion of how the flow of information between two regions of the brain may affect the ease of people’s decision making. In this context, "reduced" means decreased. The text presents the finding from a team of neuroeconomists that decision making may be connected to communication between the prefrontal cortex and the parietal cortex. In presenting this finding, the text suggests a contrast between people who tend to be more decisive and people who make decisions more slowly. According to the text, people tend to be more decisive when the flow of information between the two brain regions is intensified, or strengthened. On the other hand, this context suggests that people make choices more slowly when the flow of information between the two brain regions is decreased.

Choice B is incorrect because "evaluated" means assessed, which wouldn’t make sense in context. According to the text, people tend to be more decisive when the flow of information between two brain regions is intensified, or strengthened. This suggests that people’s ease of decision making varies based on the rate of information traveling between the regions, not based on an effort to assess the information. Choice C is incorrect because "determined" means judged or influenced, neither of which would make sense in context. According to the text, people tend to be more decisive when the flow of information between two brain regions is intensified, or strengthened. This suggests that people’s ease of decision making varies based on the rate of information traveling between the regions, not based on an effort to judge or influence the information. Choice D is incorrect because "acquired" means developed or attained, neither of which would make sense in context. According to the text, people tend to be more decisive when the flow of information between two brain regions is intensified, or strengthened. This suggests that people’s ease of decision making varies based on the rate of information traveling between the regions, not based on the development or attainment of the information.

Question Difficulty:

Question ID e35d481c

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: e35d481c

Some economic historians _____ that late nineteenth- and early twentieth-century households in the United States experienced an economy of scale when it came to food purchases—they assumed that large households spent less on food per person than did small households. Economist Trevon Logan showed, however, that a close look at the available data disproves this supposition.

Which choice completes the text with the most logical and precise word or phrase?

- A. surmised
- B. contrived
- C. questioned
- D. regretted

ID: e35d481c Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most logically completes the text’s discussion of late nineteenth- and early twentieth-century household food purchases. In this context, “surmised” means formed an idea or assumption with little evidence. The text explains that certain economic historians “assumed” that large and small households spent different amounts on food per person, but that another economist found this supposition to be false based on evidence from available data. This context suggests that the economic historians made an incorrect assumption without enough consideration of evidence.

Choice B is incorrect. In this context, “contrived” would mean brought about or created through trickery. Nothing in the text suggests that the economic historians were deliberately trying to trick people with a claim about food purchasing behaviors in late nineteenth- and early twentieth-century households; the text simply suggests that they made an assumption about those behaviors that another historian believes isn’t supported by the available data. Choice C is incorrect because the text indicates that it’s Logan and not the economic historians who “questioned,” or doubted, the assumption that large and small households in the late nineteenth and early twentieth centuries spent different amounts on food per person; the economic historians are the ones who made that assumption to begin with. Choice D is incorrect because nothing in the text suggests that some economic historians “regretted,” or felt sad or remorseful about, the food purchasing behaviors of late nineteenth- and early twentieth-century households. The text focuses on the idea that the economic historians made an assumption about those behaviors that may not be supported by available data, not on the historians’ emotional response to what households did in the past.

Question Difficulty:
Hard

Question ID 45a109a3

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 45a109a3

The following text is from Bram Stoker’s 1897 novel *Dracula*. The narrator is being driven in a carriage through a remote region at night.

The baying of the wolves sounded nearer and nearer, as though they were closing round on us from every side. I grew dreadfully afraid, and the horses shared my fear. The driver, however, was not in the least disturbed; he kept turning his head to left and right, but I could not see anything through the darkness.

As used in the text, what does the word “disturbed” most nearly mean?

- A. Disorganized
- B. Alarmed
- C. Offended
- D. Interrupted

ID: 45a109a3 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because as used in the text, “disturbed” most nearly means alarmed. The text portrays the narrator traveling in a carriage as wolves howl in the surrounding darkness. The text contrasts the reaction of both the narrator and the horses pulling the carriage with that of the driver of the carriage: the narrator and horses are “dreadfully afraid,” but the driver is “not in the least disturbed.” In other words, the driver is not alarmed by the wolves nearby.

Choice A is incorrect. Although in some contexts, “disturbed” can mean disorganized, the text doesn’t portray a character acting in a disorganized manner; instead, the driver continues to drive the carriage, even though the horses pulling it are alarmed. Choice C is incorrect. Although in some contexts, “disturbed” can mean offended, the text doesn’t portray one character feeling offended, or upset, by another’s actions; instead, it contrasts the fear felt by the narrator with another character’s lack of fear. Choice D is incorrect. Although in some contexts, “disturbed” can mean interrupted, the text doesn’t portray an action being interrupted; indeed, the travel depicted in the scene continues despite the threat of the wolves outside the carriage.

Question Difficulty:
Easy

Question ID 5e57efec

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 5e57efec

Economist Marco Castillo and colleagues showed that nuisance costs—the time and effort people must spend to make donations—reduce charitable giving. Charities can mitigate this effect by compensating donors for nuisance costs, but those costs, though variable, are largely _____ donation size, so charities that compensate donors will likely favor attracting a few large donors over many small donors.

Which choice completes the text with the most logical and precise word or phrase?

- A. supplemental to
- B. predictive of
- C. independent of
- D. subsumed in

ID: 5e57efec Answer

Correct Answer:
C

Rationale

Choice C is the best answer. We’re told that charities that pay donors back for nuisance costs will attract a few large donors instead of many small donors. This suggests that nuisance costs are not linked to donation size.

Choice A is incorrect. This doesn’t fit the logic of the text. If nuisance costs are supplemental to (meaning in addition to) donation size, that wouldn’t result in charities that compensate donors for those costs attracting a few large donors over many small donors. Choice B is incorrect. This doesn’t fit the logic of the text. If nuisance costs can predict donation size, that wouldn’t necessarily result in charities that compensate donors for those costs attracting a few large donors over many small donors. Choice D is incorrect. This doesn’t fit the logic of the text. If nuisance costs are subsumed in (meaning included in) donation size, that wouldn’t result in charities that compensate donors for those costs attracting a few large donors over many small donors.

Question Difficulty:
Hard

Question ID 1c7fe9be

SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 1c7fe9be

At the turn of the twentieth century, Black residents of Richmond, Virginia, had few formal options for banking and other financial services. To _____ this situation, Maggie Lena Walker chartered the St. Luke Penny Savings Bank in 1903. The bank went on to provide home loans and savings opportunities to thousands of Black families over the following decades.

Which choice completes the text with the most logical and precise word or phrase?

- A. prolong
- B. rectify
- C. retain
- D. highlight

ID: 1c7fe9be Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of how Maggie Lena Walker addressed the lack of financial services available to Black residents in Richmond, Virginia, at the turn of the twentieth century. In this context, "rectify" means to correct or remedy something undesirable. The text indicates that by chartering the St. Luke Penny Savings Bank in 1903, Walker took action to provide local Black residents with greater access to financial services like home loans and savings opportunities. This context supports the idea that she aimed to rectify the undesirable situation affecting these residents.

Choice A is incorrect because in this context, "prolong" would mean to lengthen something in time. The text indicates that at the turn of the twentieth century, Black residents in Richmond, Virginia, were faced with a lack of formal banking options. The text then states that Walker founded a new bank that provided these residents with financial services. Therefore, instead of prolonging the situation, she took steps to rectify, or correct, it. Choice C is incorrect because in this context, "retain" would mean to continue to have or to keep something. According to the text, at the turn of the twentieth century, Black residents in Richmond, Virginia, had few formal banking options, and Walker chartered a new institution to provide these residents with expanded financial services; therefore, she took steps to rectify, not retain, the situation. Choice D is incorrect because in this context, "highlight" would mean to emphasize or call attention to something, but the text indicates that Walker took concrete steps beyond merely drawing attention to the situation Black residents were facing in Richmond, Virginia, at the turn of the twentieth century. According to the text, Walker worked to rectify, or correct, the lack of formal banking options that were available to these residents by establishing a bank that provided them with home loans and savings opportunities.

Question Difficulty:
Medium

Question ID c966ad55

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: c966ad55

The following text is from Srimati Svarna Kumari Devi’s 1894 novel *The Fatal Garland* (translated by A. Christina Albers in 1910). Shakti is walking near a riverbank that she visited frequently during her childhood.

She crossed the woods she knew so well. The trees seemed to extend their branches like welcoming arms. They greeted her as an old friend. Soon she reached the river-side.

Which choice best describes the function of the underlined portion in the text as a whole?

- A. It suggests that Shakti feels uncomfortable near the river.
- B. It indicates that Shakti has lost her sense of direction in the woods.
- C. It emphasizes Shakti’s sense of belonging in the landscape.
- D. It conveys Shakti’s appreciation for her long-term friendships.

ID: c966ad55 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most accurately describes how the underlined sentence functions in the text as a whole. The first sentence of the text states that Shakti knows the woods she is walking in well. The next sentence, which is underlined, emphasizes Shakti’s familiarity with, and sense of security within, the woods by describing how the tree branches are friendly and “welcoming,” as they are depicted as extending open arms to her. The remainder of the text also shows that Shakti is comfortable and content in the woods by describing her as “an old friend” of the trees. Thus, the function of the underlined portion is to emphasize Shakti’s sense of belonging in the wooded landscape that she visits.

Choice A is incorrect because the text and underlined portion suggest that Shakti is comfortable, not uncomfortable, in her surroundings: the trees around her are described as welcoming and reassuring. Moreover, the underlined portion discusses Shakti’s feelings in the forest, not the river, since she hasn’t reached the river yet. Choice B is incorrect because the text and underlined portion emphasize Shakti’s familiarity with the woods. The trees are inviting, and she feels like “an old friend” to the woods, so she isn’t lost or confused there. Choice D is incorrect because the third sentence uses the phrase “as an old friend” figuratively in reference to Shakti’s sense of familiarity with the landscape, not in reference to her long-standing friendships with other people, and the text and underlined portion never discuss her feelings about such friendships.

Question Difficulty:
Easy

Question ID 757077f9

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 757077f9

During a 2014 archaeological dig in Spain, Vicente Lull and his team uncovered the skeleton of a woman from El Algar, an Early Bronze Age society, buried with valuable objects signaling a high position of power. This finding may persuade researchers who have argued that Bronze Age societies were ruled by men to _____ that women may have also held leadership roles.

Which choice completes the text with the most logical and precise word or phrase?

- A. waive
- B. concede
- C. refute
- D. require

ID: 757077f9 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of the significance of the 2014 archaeological finding at El Algar. In this context, “concede” means to admit something is true after first resisting that admission. The text indicates that some researchers believe “Bronze Age societies were ruled by men.” But the Bronze Age burial of a woman at El Algar included “valuable objects signaling a high position of power,” which would raise the possibility that “women may have also held leadership roles.” Thus, the text is calling into question the notion that only men were leaders in these societies and speculating that people holding this view may reconsider their opinion.

Choice A is incorrect because “waive” means to refrain from insisting that something, such as a right or a requirement, be observed; the word isn’t used, however, in contexts where someone acknowledges that an opinion they hold may be invalid, as is the case in the text. Choice C is incorrect. According to the text, the finding from the El Algar burial site undermines the view that Bronze Age societies were exclusively ruled by men. However, “refute” means to demonstrate that something is false and would not make sense in context. Lull and team’s finding supports the view that women may have also held leadership roles, not that they did not participate in such roles. Choice D is incorrect because in this context, “require” means to demand or specify as mandatory. However, it would not make sense for contemporary researchers to demand that Bronze Age “women may have also held leadership roles.”

ID: eb89dcc8

Text 1

Imagine you and your friend are trying to decide where to eat lunch. When people try to make joint decisions like this, they often don't reveal their true preferences. Instead, they say they would be happy with all options because they think this response will help them appear more easygoing and likable to the other person.

Text 2

Research shows that people who don't state their preferences when making a decision with others aren't more likable in the eyes of others. In fact, stating that you have no preference actually makes the decision more difficult for other people. It can also cause them to feel less happy with their ultimate decision and with you.

Based on the texts, what response would the author of Text 2 most likely suggest for someone in the situation described in the underlined sentence in Text 1?

- A. Cancel the plan to have lunch together.
- B. Ask where the friend typically likes to eat.
- C. State a preference about where to eat.
- D. Change the subject to talk about something else.

ID: eb89dcc8 Answer

Correct Answer:

C

Rationale

Choice C is the best answer because it directly applies the research findings described in Text 2 to the situation underlined in Text 1. The underlined sentence in Text 1 describes a common scenario in which two friends are deciding on a lunch location. Text 1 goes on to explain that people often don't reveal their true preferences in such situations, instead claiming they're fine with any option so that they can appear more easygoing and likable. Text 2 presents research that advises against this approach, stating that people who don't express their preferences aren't viewed as more likable and that this behavior actually makes decisions more difficult for others. Since Text 2 specifically argues against the strategy of concealing preferences and indicates negative outcomes from doing so, the author of Text 2 would most likely recommend stating a preference about where to eat.

Choice A is incorrect because nothing in Text 2 suggests that canceling plans is a good solution. The author of Text 2 is addressing how to make joint decisions effectively (through stating your own preference), not advocating for avoiding such decisions entirely. Choice B is incorrect because asking where the friend typically likes to eat still avoids stating one's own preference. While this approach might seem considerate, it continues the pattern of not revealing true preferences that Text 2 identifies as problematic. Choice D is incorrect because changing the subject would avoid making any decision altogether, which contradicts the implied advice in Text 2. The author of Text 2 presents research suggesting that directly engaging with the decision by stating preferences helps others make decisions and makes you appear more likable.

Question Difficulty:

Question ID 2af2016f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 2af2016f

A study by Dr. Paul Hanel and colleagues concluded that people are more likely to behave politely when listening to ideas they disagree with if they think about values before they engage in a discussion. Study participants were assigned to one of two groups. The experimental group spent a few minutes writing about one of their personal values before they had a group discussion on a controversial topic. And the control group spent a few minutes writing about a drink (tea, milk, etc.) before their group discussion on that topic. Hanel and colleagues found that the experimental group’s discussion was more civil than the control group’s discussion was.

- Which choice best describes the main purpose of the text?
- A. To describe a widely held belief and how a study’s results support that belief
 - B. To argue that researchers were surprised by the results of a certain study
 - C. To suggest ways to improve a certain study’s experimental design
 - D. To explain a study’s conclusion and how a research team arrived at that conclusion

ID: 2af2016f Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most accurately describes the main purpose of the text, which is to explain a study’s conclusion and how researchers involved in the study arrived at that conclusion. The text begins by summarizing the main conclusion of the study conducted by Paul Hanel and colleagues: when confronted with ideas they disagree with in discussions about controversial topics, people are more likely to respond politely if they think about their personal values before engaging in such discussions. The text then goes on to describe the design of Hanel and colleagues’ experiment. By comparing interactions between members of an experimental group (who had been prompted to write about their personal values beforehand) to those between members of a control group (who had been prompted to write about a beverage), the team found that people in the experimental group behaved more civilly, or politely, than people in the control group did during discussions about a controversial topic. This finding led to the conclusion described at the beginning of the text.

Choice A is incorrect. Although the text discusses the results of a study, it doesn’t provide any indication that the conclusion the study supported—that when facing disagreement, people behave more politely when they have thought about their values—is a belief that is widely held. Choice B is incorrect because the text doesn’t indicate that the researchers found the results of their study to be surprising, or contrary to what they expected. In fact, there’s no indication provided in the text about how the researchers felt about the study’s results or that the results should be considered surprising. Choice C is incorrect. Although the text discusses the experimental design of a study, it doesn’t suggest any improvements to that design; instead, it focuses on how the design enabled the researchers to draw a particular conclusion.

Question Difficulty:
Medium

Question ID b13378c8

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: b13378c8

Early in the Great Migration of 1910–1970, which involved the mass migration of Black people from the southern to the northern United States, political activist and *Chicago Defender* writer Fannie Barrier Williams was instrumental in helping other Black women establish themselves in the North. Many women hoped for better employment opportunities in the North because, in the South, they faced much competition for domestic employment and men tended to get agricultural work. To aid with this transition, Barrier Williams helped secure job placement in the North for many women before they even began their journey.

Which choice best states the main purpose of the text?

- A. To introduce and illustrate Barrier Williams’s integral role in supporting other Black women as their circumstances changed during part of the Great Migration
- B. To establish that Barrier Williams used her professional connections to arrange employment for other Black women, including jobs with the *Chicago Defender*
- C. To demonstrate that the factors that motivated the start of the Great Migration were different for Black women than they were for Black men
- D. To provide an overview of the employment challenges faced by Black women in the agricultural and domestic spheres in the southern United States

ID: b13378c8 Answer

Correct Answer:

A

Rationale

Choice A is the best answer because it most accurately describes the text’s purpose, which is to discuss the important role Barrier Williams played in supporting many other Black women as they relocated to the northern United States during the early years of the Great Migration. After introducing Barrier Williams, the text describes how she helped find jobs for other Black women, who in many cases relocated in search of better employment prospects than the South could offer at the time. The text indicates that by doing so, she eased these women’s transition as their circumstances changed.

Choice B is incorrect. Although the text mentions Barrier Williams’s work as a political activist and writer for the *Chicago Defender*, it doesn’t discuss any professional connections she made in these roles or indicate that she used any such connections in her work to secure employment for other Black women. Choice C is incorrect. Although the text discusses a factor that caused many women to relocate during the Great Migration, their difficulty finding employment in the South, the text doesn’t indicate that this factor motivated the start of the Great Migration. Moreover, the text doesn’t discuss the factors that motivated Black men to migrate. Choice D is incorrect. Although the text mentions the difficult employment prospects for Black women in the domestic and agricultural sectors in the South during the Great Migration, the text’s main purpose isn’t to provide an overview of the employment challenges Black women faced in these sectors. Rather, it provides this information to show that Barrier Williams played a crucial role in supporting many Black women who relocated to the North by helping them achieve one of their main goals, securing a job.

Question Difficulty:

Question ID 97e5bf55

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: 97e5bf55

Text 1

In 1916, H. Dugdale Sykes disputed claims that *The Two Noble Kinsmen* was coauthored by William Shakespeare and John Fletcher. Sykes felt Fletcher’s contributions to the play were obvious—Fletcher had a distinct style in his other plays, so much so that lines with that style were considered sufficient evidence of Fletcher’s authorship. But for the lines not deemed to be by Fletcher, Sykes felt that their depiction of women indicated that their author was not Shakespeare but Philip Massinger.

Text 2

Scholars have accepted *The Two Noble Kinsmen* as coauthored by Shakespeare since the 1970s: it appears in all major one-volume editions of Shakespeare’s complete works. Though scholars disagree about who wrote what exactly, it is generally held that on the basis of style, Shakespeare wrote all of the first act and most of the last, while John Fletcher authored most of the three middle acts.

Based on the texts, both Sykes in Text 1 and the scholars in Text 2 would most likely agree with which statement?

- A. John Fletcher’s writing has a unique, readily identifiable style.
- B. The women characters in John Fletcher’s plays are similar to the women characters in Philip Massinger’s plays.
- C. *The Two Noble Kinsmen* belongs in one-volume compilations of Shakespeare’s complete plays.
- D. Philip Massinger’s style in the first and last acts of *The Two Noble Kinsmen* is an homage to Shakespeare’s style.

ID: 97e5bf55 Answer

Correct Answer:

A

Rationale

Choice A is the best answer. Text 1 states that Sykes felt Fletcher’s contributions to the play were obvious because he had a distinct style in his other plays. Text 2 states that scholars generally agree “on the basis of style” that Fletcher wrote most of the three middle acts. Both texts imply that Fletcher’s writing has a unique, readily identifiable style that can be used to distinguish his work from others.

Choice B is incorrect. While Text 1 refers to the women in Massinger plays, neither text compares the women of Fletcher’s plays to the women of Massinger’s plays. Text 2 doesn’t mention Massinger at all. Choice C is incorrect. Text 1 states that Sykes disputed that Shakespeare coauthored the play, and implied that it was coauthored by Fletcher and Massinger instead. Sykes, therefore, would disagree that *The Two Noble Kinsmen* belongs in a Shakespeare compilation. Choice D is incorrect. Text 1 doesn’t suggest that Massinger was inspired by Shakespeare, and Text 2 doesn’t mention Massinger at all.

ID: d4a8f7cb

Dance choreographer Jawole Willa Jo Zollar aims to give people the opportunity to be _____ her creative process. For example, live performances of her dance *HairStories*, which debuted in 2001, featured videos of people across the United States talking about their hair and audience members sharing pictures of their interesting hairstyles.

Which choice completes the text with the most logical and precise word or phrase?

- A. nervous about
- B. completed by
- C. delayed by
- D. involved in

ID: d4a8f7cb Answer

Correct Answer:
D

Rationale

Choice D is the best answer. “Involved in” means “playing an active role in.” This fits the context clues describing how Zollar includes the audience in her shows by incorporating their stories and pictures.

Choice A is incorrect. “Nervous” means “worried or anxious about.” Nothing in the text suggests that people would be nervous about Zollar’s creative process. Choice B is incorrect. “Completed by” means “made whole by.” It doesn’t make sense to say that Zollar’s shows would make her audience complete. Choice C is incorrect. “Delayed by” means “made late by.” Nothing in the text suggests that people would be delayed by Zollar’s creative process.

Question Difficulty:
Easy

Question ID 84ece3f6

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 84ece3f6

The following text is adapted from Nathaniel Hawthorne’s 1844 short story “Drowne’s Wooden Image.” Drowne, a young man, is carving a wooden figure to decorate the front of a ship.

Day by day, the work assumed greater precision, and settled its irregular and misty outline into distincter grace and beauty. The general design was now obvious to the common eye.

As used in the text, what does the word “assumed” most nearly mean?

- A. Acquired
- B. Acknowledged
- C. Imitated
- D. Speculated

ID: 84ece3f6 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because as used in the text, “assumed” most nearly means acquired, or came to possess. The text portrays a character named Drowne carving a figure out of wood. At first “irregular and misty,” or haphazard and indistinct, the figure’s outline gradually showed “distincter grace and beauty” until the general design of the carved object “was now obvious to the common eye,” or plainly recognizable to anyone. In other words, as Drowne continued to carve, the wooden object came to possess, or acquired, greater precision, changing from an indistinct outline or shape into a graceful, beautiful, and clearly recognizable form.

Choice B is incorrect. Although in some contexts “assumed” can mean acknowledged, or recognized, it doesn’t have that meaning in this context because an inanimate object like the wooden figure can’t acknowledge its own precision. Choice C is incorrect because there’s nothing in the text to suggest that the wooden figure merely imitated, or mimicked, precision. Rather, the text suggests that as Drowne carved his wooden figure, it gradually became more precise. Choice D is incorrect. Although in some contexts “assumed” can mean speculated, or supposed based on incomplete information, it doesn’t have that meaning in this context because an inanimate object like the wooden figure can’t speculate about its own precision.

Question Difficulty:
Medium

Question ID 95f037ad

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 95f037ad

The works of Chicana artist Ester Hernandez are now _____ in museums both in the United States and abroad, but the murals she contributed to as a member of Las Mujeres Muralistas early in her artistic career were displayed in outdoor public spaces across San Francisco.

Which choice completes the text with the most logical and precise word or phrase?

- A. invented
- B. adjusted
- C. featured
- D. recommended

ID: 95f037ad Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of Ester Hernandez’s art. In this context, "featured" means shown prominently. The text focuses on where Hernandez’s works have been and continue to be displayed, explaining that her early works, which consisted of murals, could be viewed in outdoor spaces in San Francisco. The central contrast developed in the text is between where her early works could be viewed and where her works can be viewed now, which is in museums across the United States and around the world. The context therefore supports the idea that Hernandez’s works are now shown, or featured, in museums globally.

Choice A is incorrect because in this context "invented" would mean created something for the first time, which isn’t supported since the text doesn’t discuss where Hernandez creates her works or whether they’re original or innovative. Choice B is incorrect because "adjusted" in this context would mean adapted. Although the text mentions that many of Hernandez’s early works were outdoor murals and thus it may be reasonable to infer that Hernandez altered her approach to creating art so that her works could be displayed in indoor venues instead, the text makes no mention of how Hernandez’s works might have been adapted for such venues. The text focuses on where Hernandez’s works have been and continue to be displayed, not on how she or anyone else may have adapted, or adjusted, her works. Choice D is incorrect because "recommended" in this context would mean endorsed or put forth as a suggestion for something that is worth seeing. Although it may be reasonable to say that in choosing to display certain works, museum curators believe such works are worth seeing, the text doesn’t discuss the reasons why museums display Hernandez’s works. Instead, the text mainly develops a contrast between where Hernandez’s early works could once be viewed and where her work can be viewed now.

Question Difficulty:
Easy

Question ID d4732483

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: d4732483

Studying late nineteenth- and early twentieth-century artifacts from an agricultural and domestic site in Texas, archaeologist Ayana O. Flewellen found that Black women employed as farm workers utilized hook-and-eye closures to fasten their clothes at the waist, giving themselves a silhouette similar to the one that was popular in contemporary fashion and typically achieved through more restrictive garments such as corsets. Flewellen argues that this sartorial practice shows that these women balanced hegemonic ideals of femininity with the requirements of their physically demanding occupation.

Which choice best states the main purpose of the text?

- A. To describe an unexpected discovery that altered a researcher’s view of how rapidly fashions among Black female farmworkers in late nineteenth- and early twentieth-century Texas changed during the period
- B. To discuss research that investigated the ways in which Black female farmworkers in late nineteenth- and early twentieth-century Texas used fashion practices to resist traditional gender ideals
- C. To evaluate a scholarly work that offers explanations for the impact of urban fashion ideals on Black female farmworkers in late nineteenth- and early twentieth-century Texas
- D. To summarize the findings of a study that explored factors influencing a fashion practice among Black female farmworkers in late nineteenth- and early twentieth-century Texas

ID: d4732483 Answer

Correct Answer:

D

Rationale

Choice D is the best answer. The text provides an overview of a scholarly work discussing the fashion practices of Black female farmworkers in late 19th- and early 20th-century Texas, and how these practices were influenced by both the fashion ideals of the time and the demands of farmwork.

Choice A is incorrect. The text never discusses the rate of fashion change among Black female farmworkers. The text also never categorizes Flewellen’s findings as "unexpected." Choice B is incorrect. The text actually explains that Black female farmworkers were trying to achieve traditional feminine ideals, not resist them. Choice C is incorrect. The text doesn’t evaluate a scholarly work but rather simply describes it. Furthermore, the text is focused on "agricultural and domestic" fashion, not urban fashion as this choice suggests.

Question Difficulty:

Hard

Question ID d9915c15

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: d9915c15

In 2020, rap artist and professor A.D. Carson published the first peer-reviewed rap album about his experiences with Black masculinity called “i used to love to dream.” Typically in peer review, experts evaluate scholarly articles prior to publication. For Carson’s album, dubbed a “mixtap/e/ssay,” peer review involved both scholars and rap artists. In combining elements of a mixtape album with scholarly essays that connect Carson’s lyrics to historical and contemporary contexts for listeners both inside and outside academia, Carson’s album helped redefine how scholarship is created and shared.

- Which choice best states the main purpose of the text?
- A. To compare the relative public impact of scholarly articles and albums
 - B. To capture one scholar’s opinion of a new rap album
 - C. To explain why a certain rap album is particularly innovative
 - D. To describe how each step of the peer review process unfolds

ID: d9915c15 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it best describes the main purpose of the text, which is to explain why a certain rap album is particularly innovative. The text mentions rap artist and professor A.D. Carson, who published "the first peer-reviewed rap album." The text also describes the unusual process of having the work evaluated by both scholars and rap artists before its release, and details how the album combines elements of a mixtape album with elements of scholarly essays. All of these characteristics of the album and the way in which it was developed help to demonstrate the album’s novelty.

Choice A is incorrect because though the text mentions an album that combines elements of scholarly essays and mixtapes, it does not compare the relative public impact of scholarly articles and albums. Choice B is incorrect because the text does not present the opinion of a scholar regarding the rap album. Choice D is incorrect because though the text mentions that the album was peer reviewed, it does not detail the steps of the review.

Question Difficulty:
Hard

Question ID e386a11d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: e386a11d

Cat and Plum Blossoms is an important work of *Nihonga*, or classical Japanese painting. Unlike Kuroda Seiki, who adopted traditional European methods such as painting with oil on canvas, Hishida Shunsō _____ traditional Japanese approaches. For instance, Hishida produced *Cat and Plum Blossoms* by applying color pigments to a silk scroll.

Which choice completes the text with the most logical and precise word or phrase?

- A. distrusted
- B. embraced
- C. released
- D. overlooked

ID: e386a11d Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of Hishida Shunsō’s painting *Cat and Plum Blossoms*. In this context, "embraced" means accepted or adopted readily. The text begins by identifying *Cat and Plum Blossoms* as an example of *Nihonga*, or classical (that is, traditional) Japanese painting. The text continues by drawing a contrast between Hishida’s work and Kuroda Seiki’s work, which differs from that of Hishida in its use of the traditional European method of using oil paints on canvas rather than using traditional Japanese approaches. The text then concludes with an example of one such traditional Japanese painting technique exemplified by Hishida’s *Cat and Plum Blossoms*—applications of color pigments to a silk scroll—to further develop the contrast between the two artists’ approaches. This context supports the idea that Hishida adopted, or embraced, traditional Japanese approaches.

Choice A is incorrect because in this context "distrusted" would mean that Hishida was skeptical of or lacked confidence in traditional Japanese approaches to painting. The text begins by stating that Hishida’s painting *Cat and Plum Blossoms* is an example of *Nihonga*, or traditional Japanese painting, and then cites Hishida’s application of color pigments to a silk scroll as an instance of a traditional Japanese painting technique. It therefore wouldn’t make sense to say that Hishida’s use of traditional Japanese painting techniques indicates his distrust, or skepticism, of them. Rather, it suggests that he embraced those techniques. Choice C is incorrect because saying that Hishida "released" traditional Japanese approaches to painting in this context would mean that he freed them from any restrictions. In using Hishida’s application of color pigments to a silk scroll in *Cat and Plum Blossoms* as an example of a traditional Japanese approach to painting found in *Nihonga*, the text strongly implies that Hishida followed these approaches, not that he removed them from any restrictions. Choice D is incorrect because in this context "overlooked" would mean ignored or failed to notice. The text establishes that Hishida’s painting *Cat and Plum Blossoms* is a notable work of *Nihonga*, or classical Japanese painting, that features the traditional technique of applying color pigments to a silk scroll. It wouldn’t make sense to say that Hishida’s use of a traditional Japanese approach to painting indicates that Hishida failed to notice those approaches.

Question Difficulty:
Easy

Question ID e818241b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: e818241b

Astronomers are confident that the star Betelgeuse will eventually consume all the helium in its core and explode in a supernova. They are much less confident, however, about when this will happen, since that depends on internal characteristics of Betelgeuse that are largely unknown. Astrophysicist Sarafina El-Badry Nance and colleagues recently investigated whether acoustic waves in the star could be used to determine internal stellar states but concluded that this method could not sufficiently reveal Betelgeuse’s internal characteristics to allow its evolutionary state to be firmly fixed.

Which choice best describes the function of the second sentence in the overall structure of the text?

- A. It describes a serious limitation of the method used by Nance and colleagues.
- B. It presents the central finding reported by Nance and colleagues.
- C. It identifies the problem that Nance and colleagues attempted to solve but did not.
- D. It explains how the work of Nance and colleagues was received by others in the field.

ID: e818241b Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it best describes how the second sentence functions in the text as a whole. The first sentence establishes something astronomers believe with some certainty: that Betelgeuse will explode in a supernova. The second sentence then introduces a problem: astronomers aren’t certain *when* Betelgeuse will explode because they don’t have enough information about the star’s internal characteristics. Finally, the third sentence indicates that researcher Sarafina El-Badry Nance and colleagues investigated a possible method of obtaining the necessary information about Betelgeuse’s internal characteristics, though they found that the method wouldn’t be sufficient. Thus, the function of the second sentence is to identify the problem that Nance and colleagues attempted to solve but didn’t.

Choice A is incorrect because the second sentence introduces the general problem Nance and colleagues hoped to solve, not a serious limitation of how Nance and colleagues tried to solve it. It is the third sentence that introduces Nance and colleagues, but no serious limitation of their approach to studying a method of determining internal stellar states is described. Choice B is incorrect because the second sentence introduces the general problem Nance and colleagues hoped to solve, not the central finding they ultimately reported. It is the third sentence that presents Nance and colleagues’ conclusion that a potential method for determining internal stellar states would be insufficient. Choice D is incorrect because the second sentence doesn’t indicate how other astronomers or astrophysicists responded to the work done by Nance and colleagues; the text doesn’t address this information at all.

Question Difficulty:
Hard

Question ID a1139ff8

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: a1139ff8

In the 1990s, conservationists began planting more than 500,000 native trees in the habitat of the Azores bullfinch to boost the bird’s numbers. This approach was apparently ____: the Azores bullfinch’s population size increased from as few as 100 birds at the end of the 1980s to around 1,300 in 2023.

Which choice completes the text with the most logical and precise word or phrase?

- A. amusing
- B. costly
- C. successful
- D. disastrous

ID: a1139ff8 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of the conservationists’ efforts to increase Azores bullfinch’s numbers. In this context, "successful" means accomplishing a goal or purpose. According to the text, conservationists planted more than 500,000 native trees in an Azores bullfinch habitat in order to boost the bird’s population size. The text then indicates that the population size did indeed grow as a result of the planted trees. Thus, in this context, the conservationists’ approach of planting native trees was successful because it achieved the goal of increasing the bird’s population size.

Choice A is incorrect because the text gives no indication that the conservationists’ approach of planting native trees to increase Azores bullfinch’s numbers was "amusing," or comical or entertaining. Instead, the approach was seriously undertaken and ultimately accomplished. Choice B is incorrect because the text doesn’t address how much it cost to achieve the goal of planting native trees to increase Azores bullfinch’s numbers. The text indicates that the approach was beneficial and successful rather than "costly," or expensive or harmful. Choice D is incorrect. According to the text, the conservationists’ approach of planting native trees to increase Azores bullfinch’s numbers was beneficial and successful rather than "disastrous," or damaging or unsuccessful.

Question Difficulty:
Easy

Question ID d5ad34f0

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: d5ad34f0

The results of randomized clinical trials testing the efficacy of common medical interventions sometimes fail to _____ conclusions that practitioners reach based on their real-world observations of patients. While there are several possible reasons for this, one is that practitioners may overlook confounding variables that account for the results they attribute to the interventions in question.

Which choice completes the text with the most logical and precise word or phrase?

- A. circumvent
- B. corroborate
- C. disseminate
- D. implement

ID: d5ad34f0 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of a relationship between the results of randomized clinical tests of how effective common medical interventions are and the conclusions practitioners reach about such interventions in real-world settings. In this context, "corroborate" means confirm or support with evidence. The text indicates that one possible explanation for the relationship being discussed is that practitioners may overlook confounding variables—that is, additional factors other than the medical interventions being investigated that affect the observed outcomes. This means that practitioners may assume that an outcome is the direct result of a medical intervention when it is actually the result of a combination of factors. Clinical trials take steps to rule out factors other than the one being studied, so if those extra factors are actually having an effect on real-world outcomes, the trials are likely to produce conclusions different from those practitioners reach in their real-world observations. In other words, clinical trials may fail to corroborate practitioners’ conclusions.

Choice A is incorrect because it wouldn’t make sense to say that the results of clinical trials could "circumvent," or find a way around or bypass, conclusions practitioners reach in real-world scenarios with patients; it’s possible that researchers conducting the trials might avoid engaging with practitioners’ conclusions, but findings from a study can’t choose to get around something. Choice C is incorrect because it wouldn’t make sense to say that the results of clinical trials could "disseminate," or spread widely, conclusions practitioners reach in real-world scenarios with patients; the researchers conducting the trials might choose to draw attention to practitioners’ conclusions, but findings from a study can’t spread anything. Choice D is incorrect because it wouldn’t make sense to say that the results of clinical trials could "implement," or put into effect, conclusions practitioners reach in real-world scenarios with patients; the researchers conducting the trials might consider practitioners’ conclusions, but findings from a study can’t put anything into effect.

Question Difficulty:
Hard

Question ID 6c086e70

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 6c086e70

Businesses typically try to promote themselves, but research by Michael Luca, Abhishek Nagaraj, and Gauri Subramani suggests that some do not _____ their marketing. The researchers studied restaurants in Texas and found that those listed on a popular review website (which can be done at no cost) had revenue increases of 5 percent on average, but 33 percent of restaurants studied never listed on the site.

Which choice completes the text with the most logical and precise word or phrase?

- A. adorn
- B. optimize
- C. endorse
- D. counteract

ID: 6c086e70 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of business marketing practices. In this context, "optimize" means make the most effective possible use of available opportunities. The text indicates that though businesses typically try to promote themselves, they don’t always make use of effective tools for doing so, pointing to research showing that 33 percent of restaurants failed to use a free listing service that increased revenue by 5 percent on average for restaurants that did use the service. The text therefore suggests that by foregoing a free and effective marketing tool, some businesses aren’t making the best use of, or optimizing, marketing opportunities.

Choice A is incorrect because in this context, "adorn" would mean decorate or enhance the appearance of, and there’s nothing in the text to suggest that by failing to use a free and effective promotional tool, some businesses aren’t enhancing the appearance of their own marketing. The example in the text illustrates that some businesses aren’t utilizing an effective marketing opportunity, not that they aren’t improving the appearance of their marketing. Choice C is incorrect because in this context, "endorse" would mean openly approve or recommend, and the text’s discussion of the fact that some businesses have overlooked an effective marketing tool doesn’t support the idea that those businesses therefore don’t approve of their own marketing. Choice D is incorrect because in this context, saying that businesses don’t "counteract" their marketing would suggest that they don’t actively undermine it or make it ineffective. The text begins by stating that businesses typically try to promote themselves but then continues to imply that some businesses fail to take advantage of good opportunities to do so, citing the example of businesses that failed to use a free and effective marketing tool. Though it’s possible that those businesses that did use the site therefore didn’t unintentionally counteract their own marketing, the first sentence conveys that the text’s focus is on things that some businesses do and that some businesses don’t do when trying to promote themselves, and it wouldn’t make sense to say that any businesses would actively try to undermine their own marketing in pursuit of that goal.

Question Difficulty:
Hard

SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 236fee8e

Archeological excavation of Market Street Chinatown, a nineteenth-century Chinese American community in San Jose, California, provided the first evidence that Asian food products were imported to the United States in the 1800s: bones from a freshwater fish species native to Southeast Asia. Jinshanzhuang—Hong Kong—based import/export firms—likely coordinated the fish’s transport from Chinese-operated fisheries in Vietnam and Malaysia to North American markets. This route reveals the (often overlooked) multinational dimensions of the trade networks linking Chinese diaspora communities.

Which choice best describes the function of the underlined sentence in the text as a whole?

- A. It explains why efforts to determine the country of origin of the items mentioned in the previous sentence remain inconclusive.
- B. It provides information that helps support a claim about a discovery’s significance that is presented in the following sentence.
- C. It traces the steps that were taken to locate and recover the objects that are described in the previous sentence.
- D. It outlines a hypothesis that additional evidence discussed in the following sentence casts some doubt on.

ID: 236fee8e Answer

Correct Answer:
B

Rationale

Choice B is the best answer. The underlined sentence provides information about import/export firms, showing how Chinese communities across the world were connected by trade routes.

Choice A is incorrect. The underlined sentence never suggests that the countries of origin of the fish are in question—in fact, it tells us exactly where they came from. Choice C is incorrect. The passage never describes the steps taken to discover the fish bones described in the previous sentence. Choice D is incorrect. The underlined sentence doesn’t outline a hypothesis but instead provides evidence. And the following sentence agrees with the underlined sentence, so we could eliminate this choice just for saying that the following sentence "casts some doubt on" the underlined one—partly wrong is all wrong.

Question Difficulty:
Medium

Question ID 97ab5669

SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 97ab5669

Former astronaut Ellen Ochoa says that although she doesn’t have a definite idea of when it might happen, she _____ that humans will someday need to be able to live in other environments than those found on Earth. This conjecture informs her interest in future research missions to the moon.

Which choice completes the text with the most logical and precise word or phrase?

- A. demands
- B. speculates
- C. doubts
- D. establishes

ID: 97ab5669 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of Ochoa’s prediction that humans will one day need to live in places other than Earth. As used in this context, “speculates” would mean puts forward an idea without firm evidence. The text states that Ochoa “doesn’t have a definite idea” about when humans might need to live in other environments and characterizes Ochoa’s prediction as a “conjecture,” or a conclusion presented without convincing evidence. This context indicates that Ochoa speculates when she makes this prediction.

Choice A is incorrect because saying that Ochoa “demands,” or insists or requires, that humans will one day need to live in other environments than Earth’s would not make sense in context. The text indicates that she’s unsure about the timing but hypothesizes that it will someday happen. Choice C is incorrect because saying that Ochoa “doubts,” or questions or disbelieves, that humans will one day need to live in other environments than Earth’s would not make sense in context. The text indicates that although Ochoa is unsure about the timing, she hypothesizes that humans will need to live in places other than Earth and encourages research into future travel to the moon. Choice D is incorrect because saying that Ochoa “establishes,” or proves, that humans will one day need to live in other environments than Earth’s would not make sense in context. Rather than stating that Ochoa discusses her idea with certainty and supports it with evidence, the text indicates that Ochoa is unsure about when humans might need to live in other environments.

Question ID be612a26

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: be612a26

Recent measurements of the mass of the *W* boson (a subatomic particle) were notable not only for the mere fact that the particle’s mass differed from expectations but for the _____ of that difference: the measured mass of the *W* boson was seven standard deviations higher than predicted by the standard model of particle physics.

Which choice completes the text with the most logical and precise word or phrase?

- A. cause
- B. existence
- C. implication
- D. scale

ID: be612a26 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of the *W* boson. In this context, "scale" means size or extent. The text indicates that recent measurements of the *W* boson were remarkable because they revealed the subatomic particle’s mass to be much greater ("seven standard deviations higher") than had been expected based on a standard model. This context conveys not only that the measurements differed from predictions but also that the extent of the difference was very large.

Choice A is incorrect. Although the text indicates that there was a very large difference between the predicted mass and the actual measured mass of the subatomic particle, it doesn’t explain the cause of, or reason behind, that difference. Choice B is incorrect because it wouldn’t make sense to say that the measurements of the subatomic particle were notable because they differed from expectations and also because a difference existed between the measurements and what had been predicted; the text would be repeating the idea that there was a difference instead of adding to that idea. Choice C is incorrect because the text doesn’t convey any implications of, or consequences of or conclusions drawn from, the fact that the mass of the subatomic particle differed from expectations; the context indicates only that the actual measured mass was much higher than the predicted mass.

The following text is from Anita Desai’s 2011 novella *Translator Translated*. While working on her translation of a novel written in Odia (a language of India) into English, the narrator looks out her window at night to clear her mind.

I tried to distract myself with these sights of the ordinary world, but in my mind it was the lines I had been translating and the lines that I had been writing that remained in the forefront. I longed for sleep to obliterate them but it eluded me. Perhaps everything would be normal again once I had sent off the manuscript, I thought, and looked forward to completing the work.

©2011 by Anita Desai

As used in the text, what does the word “completing” most nearly mean?

- A. Destroying
- B. Finishing
- C. Advertising
- D. Rejecting

ID: a0777403 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because as used in the text, "completing" most nearly means finishing. In the text, the narrator conveys that the task of translating a novel has been an all-consuming one and that she hopes things will "be normal again" once she has "sent off the manuscript." In other words, the narrator is looking forward to finishing her work on the manuscript and returning to other things.

Choice A is incorrect because in this context, "completing" doesn't mean destroying, or ruining. The narrator addresses her desire to send off the manuscript she's focused on and her hope that things will be "normal again" once she does, conveying that she is looking forward to finishing the work, not to ruining it. Choice C is incorrect because in this context, "completing" doesn't mean advertising, or publicly promoting. The narrator addresses her complete focus on the translation and her hope that things will be "normal again" once she has "sent off the manuscript," conveying that she is looking forward to finishing the task, not to promoting the resulting manuscript. Choice D is incorrect because in this context, "completing" doesn't mean rejecting, or refusing or repelling. The narrator makes it clear that she is absorbed in working on the translation and plans to send off the manuscript, suggesting that instead of refusing to do the work, she is continuing to do it (even if she looks forward to things being "normal again" when she's done).

Question Difficulty:
Easy

Question ID 02fd3da7

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: 02fd3da7

Text 1

Public policy researcher Anthony Fowler studied the history of elections in Australia, a country that requires citizens to vote. Fowler argues that requiring citizens to vote leads to a significant increase in voters who would otherwise not have the time or motivation to vote. Thus, election results in countries that require citizens to vote better reflect the preferences of the country as a whole.

Text 2

Governments in democratic countries function better when more people vote. However, forcing people to vote may have negative consequences. Shane P. Singh and Jason Roy studied what happens when a country requires its citizens to vote. They found that when people feel forced to vote, they tend to spend less time looking for information about their choices when voting. As a result, votes from these voters may not reflect their actual preferences.

Based on the texts, how would Singh and Roy (Text 2) most likely respond to the research discussed in Text 1?

- A. Only countries of a certain population size should implement mandatory voting.
- B. People who are forced to vote are likely to become politically engaged in other ways, such as volunteering or running for office.
- C. Requiring people to vote does not necessarily lead to election outcomes that better represent the preferences of the country as a whole.
- D. Countries that require voting must also make the process of voting easier for their citizens.

ID: 02fd3da7 Answer

Correct Answer:

C

Rationale

Choice C is the best answer. Text 1 claims that mandatory voting results in elections that "better reflect the preferences of the country." Singh and Roy disagree. They claim that more voters doesn't equal more quality votes—instead, they argue that forced voting may lead to less-informed votes that "may not reflect [voters'] actual preferences."

Choice A is incorrect. Neither text mentions the population size of countries that require voting, or how that might affect election outcomes. Choice B is incorrect. Neither text discusses the effects of mandatory voting on other forms of political engagement. Choice D is incorrect. Neither text discusses the ease or difficulty of the voting process in countries that require voting.

SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 6c9f1727

One popular theory of the origin of the Moon, the “big whack,” posits that a protoplanet called Theia collided with Earth, flinging debris into orbit that eventually coalesced into the Moon. Until recently, Theia was _____, but researcher Qian Yuan and colleagues now claim to have identified pieces of the protoplanet in the lowermost section of Earth’s mantle.

Which choice completes the text with the most logical and precise word or phrase?

- A. desultory
- B. spurious
- C. veritable
- D. notional

ID: 6c9f1727 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of Theia and the origin of the Moon. In this context, "notional" means theoretical or only an idea. The text indicates that although something was once true of Theia, the protoplanet one theory holds collided with Earth and created debris that became the Moon, researchers now claim to have identified pieces of it deep in Earth’s mantle. In other words, having direct evidence of Theia is a new development. This context suggests that before evidence was found, Theia was only theoretical—that is, that it was notional.

Choice A is incorrect because the text doesn’t suggest that Theia, a protoplanet, was "desultory," which in this context would mean moving away from the matter at hand; indeed, the text focuses on the "big whack" theory of the origin of the Moon and indicates that Theia is a central part of that theory. Choice B is incorrect because the text makes the point that something was true of Theia until recently and suggests that this has changed now that researchers believe they have found pieces of the protoplanet deep in Earth’s mantle. It wouldn’t make sense to say that Theia was actually "spurious," or false, until researchers found direct evidence of the protoplanet. (Although Theia’s existence might not have been certain, it would not have been false simply because there was no evidence of it.) Choice C is incorrect because the text makes the point that something was true of Theia until recently and suggests that this has changed now that researchers believe they have found pieces of the protoplanet deep in Earth’s mantle. It wouldn’t make sense to say that Theia was "veritable," or real, before researchers found direct evidence of its existence: the evidence would instead confirm that Theia was real.

A musician and member of the Quechua of Peru, Renata Flores Rivera was eager to promote the Quechua language in her music, but she was _____ speaking it. She met this challenge by asking her grandmother, a native speaker of Quechua, to help her pronounce words in her song lyrics and also by taking classes in the language.

Which choice completes the text with the most logical and precise word or phrase?

- A. prepared for
- B. inexperienced with
- C. skilled in
- D. excited about

ID: 06b96bfc Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of Renata Flores Rivera’s use of Quechua in her music. In this context, “inexperienced with” means not accustomed to. The text indicates that Flores Rivera wanted to promote the Quechua language in her music and overcame a challenge by seeking help with pronunciation from her grandmother and by taking language classes. This context conveys the idea that Flores Rivera was not sufficiently familiar with Quechua to use it in her music without help. Thus, she was inexperienced with speaking the language, which she addressed by seeking help.

Choice A is incorrect because describing Flores Rivera as “prepared for”—or ready for—speaking Quechua wouldn’t make sense in context. The text indicates that speaking Quechua presented a challenge, but if she were ready to speak the language, then there would be no challenge. Choice C is incorrect because describing Flores Rivera as “skilled in”—meaning good at or capable of—speaking Quechua wouldn’t make sense in context. The text indicates that speaking Quechua presented a challenge, but if she were capable of speaking the language, then there would be no challenge. Choice D is incorrect. Flores Rivera was likely “excited about”—or thrilled or delighted with—speaking Quechua, but this wouldn’t make sense in context. The text indicates that speaking Quechua presented a challenge, but if she were delighted with speaking the language, then there would be no challenge.

Easy

Question ID 3f37eb3b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 3f37eb3b

People sometimes dismiss a claim if it comes from a source they regard as self-interested, but from a strictly logical perspective, the source of a claim is _____. it has no direct bearing on whether the claim is true.

Which choice completes the text with the most logical and precise word or phrase?

- A. indistinct
- B. irrelevant
- C. indisputable
- D. implicit

ID: 3f37eb3b Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion about people’s tendency to dismiss claims from sources perceived as self-interested, or acting for their own advantage. In this context, "irrelevant" means not applicable to the matter at hand. The text explains that as a matter of logical reasoning, the source of a claim has nothing to do with the claim’s truthfulness—a claim is either true or false in actuality, regardless of where it originates. This context suggests that even though people may distrust a claim based on its source, the source of the claim is actually irrelevant.

Choice A is incorrect because in this context, "indistinct" would mean uncertain or not clearly recognizable. Instead of suggesting that the source of a claim can’t be determined with certainty, the text suggests that recognizing a source and having an opinion of it simply doesn’t matter because as a matter of logic, a claim is true or false in actuality, regardless of where it originates. Choice C is incorrect because in this context, "indisputable" would mean impossible to question or deny. Although the text suggests that it isn’t logical to assume a claim is false just because its source appears to be self-interested, it doesn’t go so far as to suggest that the source of a claim can’t be questioned—the text instead makes the point that from a logical standpoint, the source of a claim doesn’t matter because the claim is either true or false in and of itself. Choice D is incorrect because in this context, "implicit" would mean suggested or understood without being directly expressed. Nothing in the text suggests that logically, the source of a claim is only suggested; instead of addressing whether sources can be directly identified, the text focuses on the idea that sources don’t matter because a claim is true or false in actuality, regardless of where it originates.

Question Difficulty:
Medium

Question ID 93665100

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 93665100

Seminole/Muscogee director Sterlin Harjo _____ television’s tendency to situate Native characters in the distant past: this rejection is evident in his series *Reservation Dogs*, which revolves around teenagers who dress in contemporary styles and whose dialogue is laced with current slang.

Which choice completes the text with the most logical and precise word or phrase?

- A. repudiates
- B. proclaims
- C. foretells
- D. recants

ID: 93665100 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most logically completes the text’s discussion of Sterlin Harjo’s approach to representing Native characters on television. As used in this context, “repudiates” means rejects or refuses to have anything to do with. The text indicates that television shows tend to depict Native characters as living long ago, but that Harjo’s series *Reservation Dogs* focuses on Native teenagers in the present day, representing a “rejection” of the typical approach to depicting Native characters. This context thus indicates that Harjo repudiates television’s general tendency regarding Native characters.

Choice B is incorrect because the text describes Harjo’s “rejection” of the typical approach to representing Native characters on television, so it wouldn’t make sense to say that Harjo “proclaims,” or declares or affirms, television’s general tendency regarding Native characters. Harjo is described as refusing to follow the pattern of depicting Native characters in the distant past, not as proclaiming that pattern. Choice C is incorrect because the text describes television’s tendency to represent Native characters in the distant past as something that is already occurring, not as something that Harjo “foretells,” or predicts will happen in the future. The text is focused on Harjo’s “rejection” of this pattern, not on any predictions he may have about it. Choice D is incorrect because saying that Harjo “recants” something would mean that he withdraws a previously held belief, and it wouldn’t make sense to say that Harjo recants television’s tendency to represent Native characters as living in the past. No beliefs previously held by Harjo are mentioned. Additionally, a tendency isn’t a belief and thus isn’t something that can be recanted.

Question Difficulty:
Hard

Question ID 0f040c50

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 0f040c50

The following text is from Yann Martel’s 2001 novel *Life of Pi*. The narrator’s family owned a zoo when he was a child.

It was a huge zoo, spread over numberless acres, big enough to require a train to explore it, though it seemed to get smaller as I grew older, train included.

©2001 by Yann Martel

As used in the text, what does the word “spread” most nearly mean?

- A. Hidden
- B. Discussed
- C. Extended
- D. Coated

ID: 0f040c50 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because as used in the text, “spread” most nearly means extended. The text states that the zoo is “huge,” that it covers “numberless acres,” and that it is large enough that a train is needed to explore it. Thus, the text’s emphasis on the zoo’s size suggests that the zoo extended, or stretched, over a large area of land.

Choice A is incorrect because if the zoo covers “numberless acres,” then it could not reasonably be described as hidden, or concealed from view. Choice B is incorrect because there is nothing in the text to suggest that the zoo was discussed, or talked about. Rather, the text focuses on the zoo’s large size. Choice D is incorrect. Although in some contexts “spread” can mean coated, it doesn’t have that meaning in this context because to coat something means to apply a thin layer of a liquid substance, such as oil or paint, to a surface. Therefore, it would not be accurate to say that the zoo coated the acres on which it sits.

Question Difficulty:
Easy

Question ID e1d5d5df

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: e1d5d5df

According to botanists, a viburnum plant experiencing insect damage may develop erineum—a discolored, felty growth—on its leaf blades. A _____ viburnum plant, on the other hand, will have leaves with smooth surfaces and uniformly green coloration.

Which choice completes the text with the most logical and precise word or phrase?

- A. struggling
- B. beneficial
- C. simple
- D. healthy

ID: e1d5d5df Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of damage to viburnum plants. In this context, “healthy” would mean not distressed or diseased. The text states that insect damage may cause viburnum plants to be discolored and have abnormal growths. In the next sentence, the phrase “on the other hand” indicates a contrast with the description of plants suffering from damage. Thus, the context contrasts the appearance of healthy, undamaged plants with the appearance of damaged plants.

Choice A is incorrect because in this context, “struggling” would mean working against difficulties. The text first describes viburnum plants experiencing damage by insects, and the phrase “on the other hand” then establishes a contrast with that description. It wouldn’t make sense to contrast struggling viburnum plants with those being damaged by insects, because in both cases the plants would be experiencing difficulties. Choice B is incorrect because in this context, “beneficial” would mean producing good or helpful effects. The text doesn’t discuss how viburnum plants affect other things or suggest that the plants are helpful in some way; rather, it focuses on how viburnum plants are affected by certain conditions. Choice C is incorrect because in this context “simple” would mean plain or uncomplicated. The text doesn’t discuss whether certain viburnum plants are complicated or uncomplicated; rather, it focuses on how viburnum plants are affected by certain conditions.

Question Difficulty:
Easy

Question ID cef79fb9

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: cef79fb9

The Bayeux Tapestry, from eleventh-century France, depicts 75 scenes over 250 feet of fabric. It was likely produced by workers embroidering in sections and then joining the resulting panels together. It’s plausible that the workshop that produced the tapestry had never produced one so large, and some researchers claim that a close examination of the joins—the places where the panels are stitched together—suggests that the workers developed and refined their joining process over the course of production. For example, the first join the workers completed exhibits a clear misalignment of the borders of the two panels, whereas the later joins are virtually invisible.

Which choice best describes the function of the underlined sentence in the text as a whole?

- A. It identifies the people and events depicted in the Bayeux Tapestry.
- B. It supports an argument about the workers who produced the Bayeux Tapestry.
- C. It compares the Bayeux Tapestry with other tapestries from eleventh-century France.
- D. It describes how researchers determined where the Bayeux Tapestry was produced.

ID: cef79fb9 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most accurately describes the function of the underlined sentence in the text as a whole. The text discusses the Bayeux Tapestry, making the point that the workers who produced the huge tapestry in the eleventh century might not have ever produced a tapestry so large before. The text goes on to suggest that because of this lack of previous experience, the workers developed and refined the process of joining the tapestry’s panels over time as they worked. The last sentence of the text then provides an example of an observation that suggests the workers’ process changed: clear misalignment of the borders of the two panels the workers joined first and virtually invisible joins completed later. Thus, the underlined sentence serves to support an argument about the workers who produced the tapestry.

Choice A is incorrect because the example given in the last sentence of the text has to do with how the panels of the Bayeux Tapestry were joined by the workers, not with what is depicted in those panels; the text never identifies any people or places depicted in the tapestry. Choice C is incorrect because the last sentence compares how early panels in the Bayeux Tapestry were joined with how later panels in the same tapestry were joined; it doesn’t make any comparison between the Bayeux Tapestry and other tapestries from the same time in France. Choice D is incorrect because the last sentence doesn’t address the location where the Bayeux Tapestry was created; the first sentence of the text presents it as a given that the tapestry was created in France, but nothing in the text indicates how that origin was determined.

Question Difficulty:
Medium

Question ID 9e501aaf

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 9e501aaf

Research conducted by planetary scientist Katarina Miljkovic suggests that the Moon’s surface may not accurately _____ early impact events. When the Moon was still forming, its surface was softer, and asteroid or meteoroid impacts would have left less of an impression; thus, evidence of early impacts may no longer be present.

Which choice completes the text with the most logical and precise word or phrase?

- A. reflect
- B. receive
- C. evaluate
- D. mimic

ID: 9e501aaf Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most logically completes the text’s discussion of the Moon’s surface. In this context, “reflect” means show or make apparent. The text states that because the surface of the Moon was softer when the Moon was still forming than it is now, early asteroid and meteoroid impacts “would have left less of an impression” and, as a result, evidence of them may no longer exist. This context supports the idea that the surface of the Moon may not accurately show signs of early impact events.

Choice B is incorrect because it wouldn’t make sense to say that the surface of the Moon may not accurately “receive,” or acquire or experience, early impacts from asteroids or meteoroids. The text indicates that the impacts have already occurred, and it isn’t clear how the Moon’s surface could be accurate or inaccurate in experiencing them. Choice C is incorrect because it wouldn’t make sense to say that the surface of the Moon may not accurately “evaluate,” or determine the significance or condition of, early impacts from asteroids or meteoroids, since that would suggest that it’s possible for the Moon’s surface to make a decision of any kind. Choice D is incorrect. In this context, “mimic” would mean to deliberately simulate or closely imitate something. It wouldn’t make sense to say that the surface of the Moon may not accurately mimic early asteroid and meteoroid impacts, since that would suggest that it’s possible for the Moon to deliberately imitate something.

Question Difficulty:

Question ID 9cdcd902

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 9cdcd902

Charles “Teenie” Harris was a photographer for the *Pittsburgh Courier* from 1936 to 1975. During his career he took over 70,000 photographs documenting everyday life in Pittsburgh’s Black communities. The Carnegie Museum of Art maintains thousands of his photographs, carefully _____ them so that audiences can continue to view them well into the future.

Which choice completes the text with the most logical and precise word or phrase?

- A. replacing
- B. inventing
- C. preserving
- D. counting

ID: 9cdcd902 Answer

Correct Answer:
C

Rationale

Choice C is the best answer. "Preserving" means "maintaining" or "keeping in good condition," so preserving the photographs means that audiences should be able to view them for a long time.

Choice A is incorrect. "Replacing" means "putting something new in place of" the photographs. Replacing the photos will make it so that audiences can’t view them at all. Choice B is incorrect. "Inventing" means "creating a new idea, process, or thing." The museum can’t invent photographs that already exist. Choice D is incorrect. Counting the photographs will not help audiences view them well into the future.

Question Difficulty:
Easy

Question ID e459076b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: e459076b

The following text is adapted from George Eliot’s 1871–72 novel *Middlemarch*.

[Mr. Brooke] had travelled in his younger years, and was held in this part of the country to have contracted a too rambling habit of mind. Mr. Brooke’s conclusions were as difficult to predict as the weather.

As used in the text, what does the word “contracted” most nearly mean?

- A. Restricted
- B. Described
- C. Developed
- D. Settled

ID: e459076b Answer

Correct Answer:
C

Rationale

Choice C is the best answer because as used in the text, “contracted” most nearly means developed. The text explains that Mr. Brooke has a “too rambling habit of mind,” which the text likens to a disease, saying he is thought to have contracted it. To contract a disease means to acquire or develop a disease. In other words, the text indicates that Mr. Brooke is believed to have acquired, or developed, the habit of mind described in the text.

Choice A is incorrect. Although “contracted” can mean limited or restricted in some contexts, here Mr. Brooke is said to draw unpredictable conclusions, suggesting that he exhibits this “too rambling habit of mind,” not that it has been somehow limited or restricted. Choice B is incorrect. Although the text describes Mr. Brooke’s habit of mind, nothing suggests that those are his descriptions or, indeed, that he described his habit of mind at all. Choice D is incorrect because settled means calmed or mitigated, but here Mr. Brooke is said to draw unpredictable conclusions, suggesting that he exhibits this “too rambling habit of mind,” not that it has been somehow calmed or mitigated.

Question Difficulty:
Hard

Question ID 0462dac3

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 0462dac3

Barring major archaeological discoveries, we are unlikely to ever have _____ account of ancient Egypt under the female pharaoh Hatshepsut, as much of the evidence of her reign was deliberately destroyed by her successors.

Which choice completes the text with the most logical and precise word or phrase?

- A. an imaginative
- B. a superficial
- C. an exhaustive
- D. a questionable

ID: 0462dac3 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of historical evidence about ancient Egypt under the reign of the pharaoh Hatshepsut. In this context, "an exhaustive" account would be a thorough one. The text states that much of the evidence from her reign was purposely destroyed—in other words, there is a lack of surviving records. This context conveys that unless there are major new archaeological discoveries, an exhaustive account of Hatshepsut’s reign is unlikely.

Choice A is incorrect because in this context, "an imaginative" account would be an account based on imagination, or ideas and speculation, rather than facts. The text indicates that much of the evidence of Hatshepsut’s reign was deliberately destroyed, and a lack of evidence actually makes it more likely that accounts will be imaginative to some degree and not strictly factual. Choice B is incorrect because in this context, "a superficial" account would be one that is lacking in depth or concerned only with what is obvious. The text indicates that most evidence of Hatshepsut’s reign was purposely destroyed, which suggests that accounts of that time are likely already somewhat superficial, since there is little information available to support deeper knowledge. Further, it would be illogical to suggest that discovering major new evidence would make it more likely that accounts would be superficial. Choice D is incorrect because "a questionable" account would be one likely to be challenged or doubted, and since the text suggests that little evidence of Hatshepsut’s reign has survived, accounts of that time probably involve some speculation and thus may already be open to doubt. Further, it would be illogical to suggest that discovering major new evidence would make it more likely that accounts would be questionable.

Question Difficulty:
Hard

Question ID eaea6f8f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: eaea6f8f

Ordinary soap bubbles usually exist for a minute or less before popping due to either a rupture forced by gravity-induced drainage or the evaporation of the liquid from which the bubble is composed. But physicist Aymeric Roux and colleagues discovered ways to mitigate these factors, resulting in bubbles that can last for a year or more. For example, glycerol tends to adhere to water molecules, so a bubble with a shell that contains both water and glycerol is able to draw additional water molecules from the surrounding air and thereby compensate for evaporation.

Which choice best states the purpose of the underlined portion in the text as a whole?

- A. It describes the effects of a process devised by researchers that increases the longevity of an object discussed in the text.
- B. It details the circumstances that prompted the research discussed in the text.
- C. It presents a reason why the phenomenon discussed in the text that the researchers wanted to avoid will inevitably occur.
- D. It mentions a method discussed in the text that researchers intend to test in future experiments.

ID: eaea6f8f Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it describes how the underlined portion of the sentence functions in the text as a whole. The text begins by discussing ordinary soap bubbles, objects that usually exist for less than a minute before popping due to either evaporation or gravity-induced drainage. The text then goes on to mention work by researchers Aymeric Roux and colleagues, who have discovered how to increase the longevity of bubbles by altering their chemical composition. Finally, the underlined portion of the text describes how this process works: since the bubble contains both water and glycerol, it can draw water molecules from the surrounding air to replace those lost to evaporation. Therefore, the underlined portion of the sentence describes the effects of a process devised by researchers that increases the longevity of an object described in the text.

Choice B is incorrect because the circumstance that prompted the research is discussed in the first sentence of the text, not the underlined portion. Choice C is incorrect because the underlined portion of the text does not address why soap bubbles must eventually rupture. Rather, it explains how the longevity of soap bubbles can be extended. Choice D is incorrect because the underlined portion of the text does not mention any future experiments.

Question Difficulty:
Easy

Question ID 4974b053

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 4974b053

Although science fiction was dominated mostly by white male authors when Octavia Butler, a Black woman, began writing, she did not view the genre as _____. Butler broke into the field with the publication of several short stories and her 1976 novel *Patternmaster*, and she later became the first science fiction writer to win a prestigious MacArthur Fellowship.

Which choice completes the text with the most logical and precise word or phrase?

- A. legitimate
- B. impenetrable
- C. compelling
- D. indecipherable

ID: 4974b053 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the discussion of Octavia Butler’s career. In this context, “impenetrable” means impossible to enter. The text indicates that the field of science fiction was dominated by white males when Butler, a Black woman, started writing, but she published several science fiction short stories and a novel and later won a prestigious award; that is, Butler pursued science fiction writing and had success. This context suggests that Butler didn’t view the genre as impossible to enter.

Choice A is incorrect. In this context, “legitimate” would mean genuinely good or valid. Nothing in the text suggests that Butler didn’t think the science fiction genre was good or valid; in fact, it indicates that she pursued and made a successful career of publishing work in that field. Choice C is incorrect. In this context, “compelling” would mean attracting or demanding attention. The text indicates that Butler chose to write science fiction, so it wouldn’t make sense to say that she didn’t see the field as drawing her attention. Choice D is incorrect. To say that Butler didn’t consider science fiction “indecipherable,” or impossible to understand, would suggest that Butler did understand it. However, the text doesn’t address Butler’s ability to interpret works in the genre; rather, it focuses on Butler’s successful pursuit of writing science fiction.

Question Difficulty:
Medium

Question ID 3ec184af

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 3ec184af

Many ancient sculptures of people’s heads are missing their noses. This is because the nose is the most _____ part of a sculpture of a person’s head. It is delicate and sticks out from the rest of the sculpture, making it especially easy to break.

Which choice completes the text with the most logical and precise word or phrase?

- A. recognizable
- B. fragile
- C. common
- D. sophisticated

ID: 3ec184af Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of noses on ancient sculptures. In this context, "fragile" means weak or delicate. This matches the text’s description of noses on ancient sculptures, which are often missing from sculptures’ heads because they are "especially easy to break." Therefore, this context indicates that noses on ancient sculptures are the most fragile part of the sculptures’ heads.

Choice A is incorrect. In this context, "recognizable" would mean identifiable, and since the text indicates that noses are often missing from ancient statues, they therefore cannot be the most recognizable part of the statue. Choice C is incorrect because the text indicates that many ancient statues are missing noses, so noses wouldn’t be "common," or frequent, aspects of ancient statues; they would conversely be uncommon. Choice D is incorrect because the text only indicates that noses on ancient statues often stick out and end up missing from the heads, which doesn’t relate to the noses being "sophisticated," or knowledgeable or refined.

Question Difficulty:
Easy

Question ID 105ea6de

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: 105ea6de

Text 1

Growth in the use of novel nanohybrids—materials created from the conjugation of multiple distinct nanomaterials, such as iron oxide and gold nanomaterials conjugated for use in magnetic imaging—has outpaced studies of nanohybrids’ environmental risks. Unfortunately, risk evaluations based on nanohybrids’ constituents are not reliable: conjugation may alter constituents’ physiochemical properties such that innocuous nanomaterials form a nanohybrid that is anything but.

Text 2

The potential for enhanced toxicity of nanohybrids relative to the toxicity of constituent nanomaterials has drawn deserved attention, but the effects of nanomaterial conjugation vary by case. For instance, it was recently shown that a nanohybrid of silicon dioxide and zinc oxide preserved the desired optical transparency of zinc oxide nanoparticles while mitigating the nanoparticles’ potential to damage DNA.

- Based on the texts, how would the author of Text 2 most likely respond to the assertion in the underlined portion of Text 1?
- A. By concurring that the risk described in Text 1 should be evaluated but emphasizing that the risk is more than offset by the potential benefits of nanomaterial conjugation
 - B. By arguing that the situation described in Text 1 may not be representative but conceding that the effects of nanomaterial conjugation are harder to predict than researchers had expected
 - C. By denying that the circumstance described in Text 1 is likely to occur but acknowledging that many aspects of nanomaterial conjugation are still poorly understood
 - D. By agreeing that the possibility described in Text 1 is a cause for concern but pointing out that nanomaterial conjugation does not inevitably produce that result

ID: 105ea6de Answer

Correct Answer:
D

Rationale

Choice D is the best answer. The author of Text 2 acknowledges that nanohybrids may be more toxic than their constituent parts, but also provides an example of a nanohybrid that has reduced toxicity compared to its components: silicon dioxide and zinc oxide together have all the benefits of zinc oxide nanoparticles without any of the DNA harm zinc oxide has on its own.

Choice A is incorrect. While the author of Text 2 gives an example of a nanohybrid that isn’t as toxic as its constituent parts, they don’t argue that the benefit outweighs the risk. They merely argue that “the effects of nanomaterial conjugation vary by case.”

Choice B is incorrect. The author of Text 2 states that the effects of nanomaterial conjugation “vary by case,” and that the attention that their potential toxicity has drawn is warranted. If the situation in Text 1 weren’t representative, then there would be less attention to the potential danger of these materials. Furthermore, neither passage suggests that researchers had expected that they could predict the effects of nanomaterial conjugation. Choice C is incorrect. The author of Text 2 agrees that the potential toxicity of nanohybrids “has drawn deserved attention,” so they aren’t denying the problem.

Question Difficulty:

Question ID 5f56fdec

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 5f56fdec

The following text is from George Marion McClellan’s 1895 poem “Eternity.”

My spirit swoons, and all my senses cry
For Ocean’s breast and covering of the sky.
Rock me to sleep, ye waves, and outward bound,
Just let me drift far out from toil and care,
Where lapping of the waves shall be the sound,
Which mingled with the winds that gently bear
Me on between a peaceful sea and sky,
To make my soothing slumberous lullaby.

Which choice best states the main purpose of the text?

- A. To illustrate the increasing intensity of the speaker’s desire to escape ongoing hardship by gliding on the ocean
- B. To contrast the demands of the speaker’s everyday life with the serenity of being rocked to sleep by the ocean
- C. To convey the speaker’s longing for the ocean to impart a sense of inner tranquility
- D. To justify the speaker’s qualms about being transported by the ocean to a quiet destination

ID: 5f56fdec Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most accurately states the main purpose of the text, which is to convey the speaker’s longing for the ocean to impart a sense of inner tranquility, or peace. The text begins by expressing the speaker’s strong desire to be on the ocean, appealing directly to the waves to rock the speaker to sleep. The poem then describes the "slumberous lullaby" formed by the sound of the waves and the winds on which the speaker wishes to be carried "gently...between a peaceful sea and sky." All these details serve to emphasize the speaker’s desire for the ocean to give them a sense of inner tranquility.

Choice A is incorrect. Given the poem’s expression of a longing to achieve tranquility by drifting on the ocean, it can be inferred that the speaker desires to escape something unpleasant in daily life. However, the poem doesn’t refer directly to any such hardship—ongoing or otherwise. And since the poem doesn’t establish that the speaker is experiencing a desire to escape ongoing hardship, it can’t be said that such a desire increases in intensity. Choice B is incorrect. The speaker does express a desire for the serenity of being rocked to sleep by the ocean, and it can be inferred that this desire is a response to demands that make the speaker’s daily life stressful. However, the poem doesn’t refer directly to such demands or contrast them with the tranquility of drifting on the ocean. Choice D is incorrect because the text doesn’t suggest the speaker has any qualms, or reservations, about being transported by the ocean. On the contrary, the speaker actively desires to "drift far out" and be carried by the waves and wind. Moreover, the poem doesn’t suggest that this drifting would have any particular destination.

Question Difficulty:

Question ID 7d8224f9

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 7d8224f9

In 1154, Muhammad al-Idrisi completed a collection of maps of the lands known to medieval Arabic and European scholars. This collection was titled *Al-Kitāb al-Rujārī* (*The Book of Roger*), after the Norman king Roger II who hired him to create it. To create the collection, al-Idrisi consulted Arabic and Greek maps and interviewed travelers about the lands they visited. He included these travelers’ stories alongside the map illustrations.

- Which choice best states the main purpose of the text?
- A. To discuss the benefits of studying mapmaking
 - B. To explain how travelers created maps
 - C. To describe a collection of medieval maps and how it was created
 - D. To compare medieval Arabic and Greek mapmaking techniques

ID: 7d8224f9 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most accurately states the main purpose of the text, which is to describe a collection of medieval maps and how it was created. The text begins by mentioning Muhammad al-Idrisi’s collection of maps of lands known to medieval Arabic and European scholars. It then states that the Norman king Roger II hired al-Idrisi to create the collection and details al-Idrisi’s methods of creation: consulting Arabic and Greek maps and interviewing travelers. In short, the text presents a collection of medieval maps and then goes on to describe how that collection came to be.

Choice A is incorrect because the text describes a collection of maps and the process of creating that collection but does not discuss the benefits of studying mapmaking in general. Choice B is incorrect because though the text mentions that al-Idrisi interviewed travelers, the text does not describe how those travelers created maps. Choice D is incorrect because though the text mentions that al-Idrisi consulted Arabic and Greek maps, the text does not offer a comparison of Arabic and Greek mapmaking techniques.

Question Difficulty:
Medium

Question ID 2903a041

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 2903a041

Using NASA’s powerful James Webb Space Telescope (JWST), Mercedes López-Morales and colleagues measured the wavelengths of light traveling through the atmosphere of WASP-39b, an exoplanet, or planet outside our solar system. Different molecules absorb different wavelengths of light, and the wavelength measurements showed the presence of carbon dioxide (CO₂) in WASP-39b’s atmosphere. This finding not only offers the first decisive evidence of CO₂ in the atmosphere of an exoplanet but also illustrates the potential for future scientific breakthroughs held by the JWST.

- Which choice best describes the overall structure of the text?
- A. It discusses a method used by some researchers, then states why an alternative method is superior to it.
 - B. It describes how researchers made a scientific discovery, then explains the importance of that discovery.
 - C. It outlines the steps taken in a scientific study, then presents a hypothesis based on that study.
 - D. It examines how a group of scientists reached a conclusion, then shows how other scientists have challenged that conclusion.

ID: 2903a041 Answer

Correct Answer:
B

Rationale

Choice B is the best answer. The text begins by describing how the researchers used the JWST to detect CO₂ in WASP-39b’s atmosphere. Then the text discusses the significance of this finding, both as the first evidence of CO₂ in an exoplanet’s atmosphere and as an illustration of the JWST’s potential for making new discoveries in general.

Choice A is incorrect. The text doesn’t compare two different methods, but rather focuses on one study that used the JWST. Choice C is incorrect. The text doesn’t present a hypothesis, but rather reports on the findings of a study. Choice D is incorrect. The text doesn’t mention any scientists challenging the conclusion reached by López-Morales and colleagues.

Question Difficulty:
Medium

Question ID 066a3295

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 066a3295

Researchers have found a nearly 164,000-year-old molar from a member of the archaic human species known as Denisovans in a cave in Laos, suggesting that Denisovans lived in a wider range of environments than indicated by earlier evidence. Before the discovery, Denisovans were thought to have lived only at high altitudes in relatively cold climates in what are now Russia and China, but the discovery of the tooth in Laos suggests that they may have lived at low altitudes in relatively warm climates in Southeast Asia as well.

Which choice best states the function of the underlined portion in the text as a whole?

- A. It dismisses as untrue the research presented in the previous sentence.
- B. It defines a term used in the description that follows in the rest of the sentence.
- C. It emphasizes the main goal of the research introduced in the previous sentence.
- D. It provides context that clarifies the significance of the information that follows in the rest of the sentence.

ID: 066a3295 Answer

Correct Answer:
D

Rationale

Choice D is the best answer. The text describes how a new discovery expands our understanding of Denisovans. The underlined portion describes what we used to believe about Denisovans, which helps the reader understand the significance of the discovery of the molar: it suggests that they lived in more places than we’d previously thought.

Choice A is incorrect. The underlined portion doesn’t do this. Instead, it explains what we used to believe about Denisovans before the discovery—it doesn’t dismiss the new discovery as false. Choice B is incorrect. The underlined portion doesn’t do this. No term is defined here. Choice C is incorrect. The underlined portion doesn’t do this. The text never tells us what the “goal” of the research was, just what its discovery was.

Question Difficulty:
Easy

Question ID ac9a3a26

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: ac9a3a26

According to historian Vicki L. Ruiz, Mexican American women made crucial contributions to the labor movement during World War II. At the time, food processing companies entered into contracts to supply United States armed forces with canned goods. Increased production quotas conferred greater bargaining power on the companies’ employees, many of whom were Mexican American women: employees insisted on more favorable benefits, and employers, who were anxious to fulfill the contracts, complied. Thus, labor activism became a platform for Mexican American women to assert their agency.

- Which choice best describes the function of the underlined portion in the text as a whole?
- A. It elaborates on a claim about labor relations in a particular industry made earlier in the text.
 - B. It offers an example of a trend in the World War II–era economy discussed earlier in the text.
 - C. It notes a possible exception to the historical narrative of labor activism sketched earlier in the text.
 - D. It provides further details about the identities of the workers discussed earlier in the text.

ID: ac9a3a26 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it best describes how the underlined portion functions in the text as a whole. The text says that the increased production quotas of food processing companies during World War II enabled employees to make better bargains in exchange for their labor. The underlined portion presents an example of this increased bargaining power: employees requested more favorable benefits, and employers complied because they were under pressure to fulfill the demanding terms of their contracts. Thus, the underlined portion of the text elaborates on a claim about labor relations in a particular industry (food processing) made earlier in the text.

Choice B is incorrect because there is no indication in the text that the economic factors that influenced food processing also influenced other parts of the economy; thus, the bargaining described in the underlined portion of the text cannot be called an example of a trend. Choice C is incorrect because the underlined portion supports the historical narrative of labor activism in food processing that is sketched in the text, instead of noting an exception to that narrative. Choice D is incorrect because while the underlined portion does discuss the demands that workers made in exchange for their labor, it does not discuss the identities of the workers.

Question Difficulty:
Hard

Question ID 03c9f327

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 03c9f327

The following text is from Charlotte Brontë’s 1847 novel *Jane Eyre*. Jane, the narrator, works as a governess at Thornfield Hall.

I went on with my day’s business tranquilly; but ever and anon vague suggestions kept wandering across my brain of reasons why I should quit Thornfield; and I kept involuntarily framing advertisements and pondering conjectures about new situations: these thoughts I did not think to check; they might germinate and bear fruit if they could.

- Which choice best states the main purpose of the text?
- A. To convey a contrast between Jane’s outward calmness and internal restlessness
 - B. To emphasize Jane’s loyalty to the people she works for at Thornfield Hall
 - C. To demonstrate that Jane finds her situation both challenging and deeply fulfilling
 - D. To describe Jane’s determination to secure employment outside of Thornfield Hall

ID: 03c9f327 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most accurately describes the main purpose of the text, which is to show that while Jane calmly goes about her daily tasks, she is experiencing internal agitation about possibly seeking a new job. At the start of the text, Jane says, “I went on with my day’s business tranquilly,” indicating that she is outwardly calm. This outward calmness is then contrasted with her intense internal restlessness, as Jane says that thoughts of leaving her job keep running through her mind, that she is “involuntarily framing advertisements” (meaning that she can’t stop herself from thinking up potential listings for jobs), and that she often wonders what new “situations” (or jobs) would be like.

Choice B is incorrect because the text gives no indication of Jane’s feelings, either positive or negative, about the people she works for at Thornfield Hall. And rather than emphasizing that Jane feels particularly loyal to her employers, the text focuses on her constant consideration of leaving her job. Choice C is incorrect because the text gives no indication that Jane finds her current situation fulfilling, or satisfying. Given that much of the text is focused on Jane’s thoughts about possibly leaving her job for a new one, it might be the case that she finds her situation challenging, but there is no evidence in the text that Jane also finds that situation satisfying—she says nothing positive about her current job at all, in fact. Choice D is incorrect because the text describes Jane as wondering about getting a new job, not as determined to definitely do so. Jane keeps thinking about reasons why she “should” quit her current job (indicating that she hasn’t yet decided to) and imagining possible new situations she could find, but she says at the end of the text that these thoughts “might germinate and bear fruit if they could,” meaning that the thoughts haven’t yet led to a decision—that Jane isn’t yet determined to get a new job somewhere else.

Question Difficulty:
Hard

Question ID e3f05561

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: e3f05561

In the 1970s, video cameras became increasingly affordable for ordinary consumers and gave Ulysses Jenkins and other artists capabilities that were previously unavailable except to television broadcasters. Jenkins recognized and took full advantage of this _____ access to powerful technology to create groundbreaking works of video art, such as *Mass of Images* (1978).

Which choice completes the text with the most logical and precise word or phrase?

- A. newfound
- B. delicate
- C. inevitable
- D. habitual

ID: e3f05561 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most logically completes the text’s discussion of Ulysses Jenkins’s video art. As used in this context, “newfound” means recently discovered or established. The text indicates that in the 1970s, video cameras became cheaper and therefore more widely available than they had been in the past. The text goes on to say that this development provided Jenkins and other artists with capabilities that they previously didn’t have. As a result, Jenkins began producing groundbreaking works of video art. This context supports the idea that Jenkins took advantage of newfound access to video cameras.

Choice B is incorrect because “delicate” means fine in texture or structure or easily broken, neither of which would make sense in this context. The text doesn’t focus on describing what video art looks like or whether it’s breakable. Choice C is incorrect because “inevitable” means impossible to avoid, which wouldn’t make sense in this context. The text doesn’t discuss the likelihood of artists, or anyone else, gaining access to video cameras. Choice D is incorrect because “habitual” means doing something regularly or repeatedly. Although the text does suggest that Jenkins created multiple pieces of video art, its focus is on the fact that video cameras had only just become widely available to artists in the 1970s. Jenkins’s ability to take advantage of video cameras to make art was therefore newfound, not habitual, at the time.

Question Difficulty:
Easy

Question ID 662ebff2

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 662ebff2

In response to concerns that some recent financial crises were exacerbated by consumers misunderstanding risks associated with credit cards, loans, and other financial products, policymakers in many countries have instituted risk-disclosure requirements on sellers of those products. Enrique Seira et al. investigated a variety of risk-disclosure messages sent to thousands of credit card customers and found that the messages had only small and short-lived effects on behavior. Seira et al. asserted that such effects may nevertheless be worth pursuing, given the negligible cost of messaging.

Which choice best describes the function of the underlined portion in the text as a whole?

- A. It notes a factor that led Seira et al. to not dismiss risk-disclosure messaging altogether despite their evidence of its limited utility.
- B. It acknowledges a type of risk-disclosure messaging that Seira et al. may not have fully accounted for in their study.
- C. It describes a consideration that explains why Seira et al. recommended risk-disclosure messaging even though its effects may be small relative to its costs.
- D. It points out a circumstance that Seira et al. conceded may make risk-disclosure messaging more effective than their study suggests.

ID: 662ebff2 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most accurately describes the function of the underlined portion in the text as a whole. The text establishes that many countries have adopted risk-disclosure requirements for financial products due to concerns that consumers don't understand the risks associated with the products. According to the text, Seira et al. found that the effects of such messaging on consumer behavior were small and temporary. The text then adds that the researchers assert that because the cost of the messaging is negligible, the approach may be worth doing even if the effects are limited. Thus, the underlined portion notes a factor—very low cost—that led the researchers to not completely dismiss risk-disclosure messaging despite their evidence of its limited utility.

Choice B is incorrect because the underlined portion doesn't refer to a particular type of risk-disclosure messaging, whether Seira et al. considered it or not; the underlined portion simply indicates that the cost of the messaging (broadly) is very low, which makes the approach worth pursuing even if its effects are limited. Choice C is incorrect. Although the underlined portion does describe a consideration that led the researchers to recommend risk-disclosure messaging despite the messaging's small effects on consumer behavior, it directly states that the cost of such messaging is negligible, or very low—meaning that both the effects and the costs are small, not that the effects are small only relative to the costs. Choice D is incorrect because there's no indication that Seira et al. suggest that risk-disclosure messaging could be more effective if it had lower costs; rather, the underlined portion indicates that Seira et al. believe the already negligible cost of messaging makes the approach worth pursuing even if its effects are limited.

Question Difficulty:

Question ID c4737d6a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: c4737d6a

Text 1

Africa’s Sahara region—once a lush ecosystem—began to dry out about 8,000 years ago. A change in Earth’s orbit that affected climate has been posited as a cause of desertification, but archaeologist David Wright also attributes the shift to Neolithic peoples. He cites their adoption of pastoralism as a factor in the region drying out: the pastoralists’ livestock depleted vegetation, prompting the events that created the Sahara Desert.

Text 2

Research by Chris Brierley et al. challenges the idea that Neolithic peoples contributed to the Sahara’s desertification. Using a climate-vegetation model, the team concluded that the end of the region’s humid period occurred 500 years earlier than previously assumed. The timing suggests that Neolithic peoples didn’t exacerbate aridity in the region but, in fact, may have helped delay environmental changes with practices (e.g., selective grazing) that preserved vegetation.

Based on the texts, how would Chris Brierley (Text 2) most likely respond to the discussion in Text 1?

- A.

By pointing out that given the revised timeline for the end of the Sahara’s humid period, the Neolithic peoples’ mode of subsistence likely didn’t cause the region’s desertification
- B.

By claiming that pastoralism was only one of many behaviors the Neolithic peoples took part in that may have contributed to the Sahara’s changing climate
- C.

By insisting that pastoralism can have both beneficial and deleterious effects on a region’s vegetation and climate
- D.

By asserting that more research needs to be conducted into factors that likely contributed to the desertification of the Sahara region

ID: c4737d6a Answer

Correct Answer:

A

Rationale

Choice A is the best answer. Brierley et al.’s research directly challenges Wright’s claim that pastoralism turned the Sahara into a desert, suggesting that, in a Sahara that turned arid 500 years earlier than previously thought, pastoral practices may have actually “preserved vegetation” rather than depleting it.

Choice B is incorrect. Brierley et al.’s research actually disputes the idea that any Neolithic peoples’ behaviors, including pastoralism, could have contributed to the Sahara’s changing climate. In fact, their research implies that the Neolithic peoples’ practices did not “exacerbate aridity” (i.e., make things worse), but may have slowed environmental changes. Choice C is incorrect. Brierley et al.’s research does not acknowledge that pastoralism can have deleterious (i.e., negative) effects on a region’s vegetation and climate. It only describes one possible beneficial effect: preserving vegetation through practices like selective grazing. Choice D is incorrect. Brierley et al.’s research does not call for more research into factors that likely contributed to the desertification of the Sahara region.

Question Difficulty:

Hard

Question ID 47598085

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 47598085

Yawn contagion occurs when one individual yawns in response to another’s yawn. Studies of this behavior in primates have focused on populations in captivity, but biologist Elisabetta Palagi and her colleagues have shown that it can occur in wild primate populations as well. In their study, which focused on a wild population of gelada monkeys (*Theropithecus gelada*) in Ethiopia, the researchers further reported that yawn contagion most commonly occurred in males and across different social groups instead of within a single social group.

Which choice best describes the function of the first sentence in the text as a whole?

- A. It defines a phenomenon that is discussed in the text.
- B. It introduces a problem that is examined in the text.
- C. It makes a claim that is challenged in the text.
- D. It presents a hypothesis that is evaluated in the text.

ID: 47598085 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most accurately describes how the first sentence functions in the text as a whole. The first sentence introduces what yawn contagion is, explaining that it occurs when an individual yawns in response to the yawn of another individual. The text goes on to describe Elisabetta Palagi and her colleagues’ study of this phenomenon in a wild population of gelada monkeys. According to the text, the study showed that wild primate populations experience yawn contagion and that the behavior occurs most commonly in male monkeys and across social groups. Thus, the function of the first sentence is to define the phenomenon of yawn contagion that is discussed in the text.

Choice B is incorrect. Although the first sentence introduces the text’s discussion of yawn contagion, it doesn’t present this behavior, or anything else, as a problem. Choice C is incorrect because the first sentence doesn’t present a claim but instead explains what yawn contagion is. Moreover, the text doesn’t challenge anything; it’s an informative text that describes the findings of a research study about yawning in wild primate populations. Choice D is incorrect. Although the text describes a scientific study, and most scientific studies are guided by a hypothesis, the text doesn’t say what Palagi and her colleagues’ hypothesis was; the text discusses their findings instead.

ID: 710799ae

Cuttlefish appear to be surprisingly _____ at exercising self-control: in a 2021 study conducted by behavioral ecologist Alexandra Schnell, these cephalopods routinely demonstrated restraint by delaying gratification, waiting for a favorite treat instead of instantly devouring a readily available meal.

Which choice completes the text with the most logical and precise word or phrase?

- A. awkward
- B. imaginative
- C. manageable
- D. competent

ID: 710799ae Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of self-control in cuttlefish. In this context, "competent" means capable. The text describes a study in which cuttlefish demonstrated an ability to exercise restraint by waiting for a favorite treat instead of eating a meal that was already available to them. That is, by delaying gratification, the cuttlefish in the study demonstrated that they were capable of, or competent at, exercising self-control.

Choice A is incorrect because nothing in the text suggests that in demonstrating self-control, cuttlefish are "awkward," or lacking skill or grace. If anything, the text indicates that cuttlefish appear to be surprisingly skilled at exercising self-control. Choice B is incorrect because in this context, "imaginative" would mean creative, and there’s nothing in the text to suggest that cuttlefish demonstrate creativity. Instead, the text focuses on the fact that cuttlefish seem to be capable of exercising restraint and self-control. Choice C is incorrect because in this context, "manageable" would mean capable of being controlled. Although the text indicates that the cuttlefish in the study demonstrated restraint by waiting for a favorite treat instead of devouring a readily available meal (which suggests their ability to control themselves), it doesn’t suggest that cuttlefish are thus also able to be managed or controlled by others.

Question Difficulty:

Question ID 5a97d9cd

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 5a97d9cd

In a study of residential mobility in Washington, DC, LaTanya Brown-Robertson et al. found that increases in household spending power (via tax credits) had mixed effects on mobility decisions, possibly because residential location choices are not fully reducible to economic factors but are also _____ noneconomic factors such as access to strong local social networks.

Which choice completes the text with the most logical and precise word or phrase?

- A. transposed with
- B. mediated by
- C. decoupled from
- D. antecedent to

ID: 5a97d9cd Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of residential mobility decisions. In this context, "mediated by" means influenced or affected by something. The text establishes that increasing household spending power (an economic factor) produced "mixed effects" on mobility decisions. The text then explains that residential choices are "not fully reducible to economic factors," which means that these decisions don’t simply rely on how much money is available to spend on a residential move but on other factors as well. According to the text, noneconomic considerations, such as access to social networks, also play a significant role. Thus, "mediated by" accurately captures this relationship where noneconomic factors influence what might otherwise be purely economic decisions.

Choice A is incorrect because "transposed with" would suggest that economic and noneconomic factors are being switched or interchanged when making residential mobility decisions, which wouldn’t make logical sense in this context. The text indicates that these factors coexist and jointly influence such decisions. Choice C is incorrect. The phrase "decoupled from" means separated or disconnected from, which would suggest that economic factors are completely separate from noneconomic factors. This would contradict the text’s main point that residential mobility decisions involve multiple factors being considered simultaneously rather than in isolation. Choice D is incorrect because "antecedent to," which means something prior or earlier, would indicate that noneconomic factors come before economic ones in time or sequence. The text doesn’t establish this chronological relationship. Instead, the text indicates that economic factors (household spending power) and noneconomic factors (access to social networks) simultaneously influence residential mobility decisions.

SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: a87c3925

Text 1

Soy sauce, made from fermented soybeans, is noted for its umami flavor. Umami—one of the five basic tastes along with sweet, bitter, salty, and sour—was formally classified when its taste receptors were discovered in the 2000s. In 2007, to define the pure umami flavor scientists Rie Ishii and Michael O’Mahony used broths made from shiitake mushrooms and kombu seaweed, and two panels of Japanese and US judges closely agreed on a description of the taste.

Text 2

A 2022 experiment by Manon Jünger et al. led to a greater understanding of soy sauce’s flavor profile. The team initially presented a mixture of compounds with low molecular weights to taste testers who found it was not as salty or bitter as real soy sauce. Further analysis of soy sauce identified proteins, including dipeptides, that enhanced umami flavor and also contributed to saltiness. The team then made a mix of 50 chemical compounds that re-created soy sauce’s flavor.

Based on the texts, if Ishii and O’Mahony (Text 1) and Jünger et al. (Text 2) were aware of the findings of both experiments, they would most likely agree with which statement?

- A. On average, the diets of people in the United States tend to have fewer foods that contain certain dipeptides than the diets of people in Japan have.
- B. Chemical compounds that activate both the umami and salty taste receptors tend to have a higher molecular weight than those that only activate umami taste receptors.
- C. Fermentation introduces proteins responsible for the increase of umami flavor in soy sauce, and those proteins also increase the perception of saltiness.
- D. The broths in the 2007 experiment most likely did not have a substantial amount of the dipeptides that played a key part in the 2022 experiment.

ID: a87c3925 Answer

Correct Answer:
D

Rationale

Choice D is the best answer. Ishii and O’Mahony were trying to isolate the pure umami flavor, while Jünger was trying to recreate soy sauce, which has a mix of flavors that includes umami. Accordingly, the broths from Text 1 are not described as having any soy sauce in them—just “shiitake mushrooms and kombu seaweed.” So they probably don’t have as much of the dipeptides described in Text 2, which were found to be a key part of soy sauce’s umami-ness and its saltiness.

Choice A is incorrect. Neither text supports this. Neither text gets into the diets of people in the United States, nor the diets of people in Japan. Choice B is incorrect. Neither text supports this. Text 2 does talk about the molecular weights of chemical compounds, but there isn’t enough information provided about molecular weights in Text 1 to make an inference about what the scientists in Text 1 would say. Choice C is incorrect. Neither text supports this. Text 1 briefly mentions that soy sauce is “made

from fermented soybeans,” but it never claims that fermentation is responsible for its flavor in any way. And Text 2 never mentions fermentation at all.

Hard

Question ID 4a2b2535

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 4a2b2535

A brief book review cannot fully convey the _____ of Olga Tokarczuk’s novel *The Books of Jacob*, with its enormous cast of characters, its complicated, wandering plot, and its page numbers that count backward (beginning at 965 and ending at 1).

Which choice completes the text with the most logical and precise word or phrase?

- A. accuracy
- B. inactivity
- C. complexity
- D. restraint

ID: 4a2b2535 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of Olga Tokarczuk’s novel *The Books of Jacob*. As used in this context, “complexity” means having many complicated parts that when taken as a whole are difficult to follow or explain. The text indicates that *The Books of Jacob* has a large cast of characters, a complicated and wandering plot (that is, a plot that is difficult to follow), and reverse page numbering. Together, these features make up a novel that’s challenging to read and summarize. This context supports the idea that a brief book review can’t do justice to the novel’s complexity.

Choice A is incorrect. Although the word “accuracy,” or being free from error or falsehood, can sometimes be used to describe a novel, the text doesn’t discuss whether Tokarczuk’s novel has this quality. Instead, the text describes the novel as having a large cast of characters, a difficult-to-follow plot, and reverse page numbering. These features suggest complexity, not accuracy. Choice B is incorrect because “inactivity” means being in a state of idleness or doing nothing, neither of which would make sense in this context. The text describes Tokarczuk’s novel, and although it’s possible the novel could portray its characters as inactive, it wouldn’t make sense to describe the novel itself as such. Choice D is incorrect because in this context “restraint” would mean holding back or showing self-control, and the text doesn’t indicate that Tokarczuk’s novel has either of these qualities. In fact, the features of the novel that the text describes, such as a large cast of characters, a complicated and wandering plot, and reverse page numbering, suggest excess and complexity, not restraint.

Question Difficulty:
Easy

Question ID b0f7541b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: b0f7541b

The following text is adapted from Herman Melville’s 1857 novel *The Confidence-Man*. Humphry Davy was a prominent British chemist and inventor.

Years ago, a grave American savant, being in London, observed at an evening party there, a certain coxcombical fellow, as he thought, an absurd ribbon in his lapel, and full of smart [banter], whisking about to the admiration of as many as were disposed to admire. Great was the savant’s disdain; but, chancing ere long to find himself in a corner with the jackanapes, got into conversation with him, when he was somewhat ill-prepared for the good sense of the jackanapes, but was altogether thrown aback, upon subsequently being [informed that he was] no less a personage than Sir Humphry Davy.

- Which choice best states the main purpose of the text?
- A. It portrays the thoughts of a character who is embarrassed about his own behavior.
 - B. It presents an account of a misunderstanding.
 - C. It offers a short history of how a person came to be famous.
 - D. It explains why one character dislikes another.

ID: b0f7541b Answer

Correct Answer:
B

Rationale

Choice B is the best answer. The text tells a story of a first impression that turned out to be wrong: a serious American savant was dismissive of a goofy-looking, wisecracking guest at a British party, and then was shocked to learn that the guest was actually a prominent British chemist and inventor.

Choice A is incorrect. This is too strong and too narrow. Only at the very end is the savant "thrown aback" by the fact that the man was Sir Humphry Davy—he’s not "embarrassed about his own behavior." Choice C is incorrect. This isn’t the main purpose. The text never provides the history of how Sir Humphry Davy came to be famous. Nor does it provide any history for the American savant. Choice D is incorrect. This is too narrow. It doesn’t include the second half of the text, where the savant gets into a conversation with the man and then finds out that the man is Sir Humphry Davy.

Question Difficulty:
Hard

Question ID 8d802289

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: 8d802289

Text 1

Dance choreographer Alvin Ailey’s deep admiration for jazz music can most clearly be felt in the rhythms and beats his works were set to. Ailey collaborated with some of the greatest jazz legends, like Charles Mingus, Charlie Parker, and perhaps his favorite, Duke Ellington. With his choice of music, Ailey helped bring jazz to life for his audiences.

Text 2

Jazz is present throughout Ailey’s work, but it’s most visible in Ailey’s approach to choreography. Ailey often incorporated improvisation, a signature characteristic of jazz music, in his work. When managing his dance company, Ailey rarely forced his dancers to an exact set of specific moves. Instead, he encouraged his dancers to let their own skills and experiences shape their performances, as jazz musicians do.

Based on the texts, both authors would most likely agree with which statement?

- A. Dancers who worked with Ailey greatly appreciated his supportive approach as a choreographer.
- B. Ailey’s work was strongly influenced by jazz.
- C. Audiences were mostly unfamiliar with the jazz music in Ailey’s works.
- D. Ailey blended multiple genres of music together when choreographing dance pieces.

ID: 8d802289 Answer

Correct Answer:
B

Rationale

Choice B is the best answer. Author 1 states that Ailey had a “deep admiration for jazz music” and that he “helped bring jazz to life for his audiences.” Author 2 states that “Jazz is present throughout Ailey’s work.” While the authors name different aspects of Ailey’s work as the most influenced by jazz, they agree that jazz was a strong influence.

Choice A is incorrect. This isn’t something that either text claims. Neither text mentions how Ailey’s dancers felt about his approach as a choreographer, so we have no evidence that either author would agree with this. Choice C is incorrect. This isn’t something that either text claims. Neither text mentions how familiar audiences were with any aspect of Ailey’s works, so we have no evidence that either author would agree with this. Choice D is incorrect. This isn’t something that either text claims. Neither text mentions any genre of music other than jazz, so we have no evidence that either author would agree with this.

Question Difficulty:
Easy

Question ID 7bf79a90

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: 7bf79a90

Text 1

Microbes are tiny organisms in the soil, water, and air all around us. They thrive even in very harsh conditions. That’s why Noah Fierer and colleagues were surprised when soil samples they collected from an extremely cold, dry area in Antarctica didn’t seem to contain any life. The finding doesn’t prove that there are no microbes in that area, but the team says it does suggest that the environment severely restricts microbes’ survival.

Text 2

Microbes are found in virtually every environment on Earth. So it’s unlikely they would be completely absent from Fierer’s team’s study site, no matter how extreme the environment is. There were probably so few organisms in the samples that current technology couldn’t detect them. But since a spoonful of typical soil elsewhere might contain billions of microbes, the presence of so few in the Antarctic soil samples would show how challenging the conditions are.

Based on the texts, Fierer’s team and the author of Text 2 would most likely agree with which statement about microbes?

- A. Most microbes are better able to survive in environments with extremely dry conditions than in environments with harsh temperatures.
- B. A much higher number of microbes would probably be found if another sample of soil were taken from the Antarctic study site.
- C. Microbes are likely difficult to detect in the soil at the Antarctic study site because they tend to be smaller than microbes found in typical soil elsewhere.
- D. Most microbes are probably unable to withstand the soil conditions at the Antarctic study site.

ID: 7bf79a90 Answer

Correct Answer:

D

Rationale

Choice D is the best answer because it presents a statement about microbes with which Fierer’s team (Text 1) and the author of Text 2 would most likely agree. Text 1 states that microbes usually thrive in very harsh conditions, and so Fierer’s team was surprised when samples collected from an extremely cold and dry area of Antarctica didn’t appear to contain any life. Fierer’s team says that though this doesn’t conclusively prove there are no microbes in the area, it suggests that microbes would have a notably difficult time surviving in the environment. The author of Text 2 says it’s unlikely that there would be no microbes at all in the Antarctic study site from which Fierer’s team retrieved soil samples and that there may have been hard-to-detect microbes in the samples. However, the presence of only a few microbes in the Antarctic samples rather than the billions found in a typical soil sample (which would presumably be much easier to detect) would illustrate conditions in the Antarctic soil that make it difficult for microbes to thrive. Since Fierer’s team says that the seeming absence of microbes in the Antarctic samples suggests an unusually harsh environment and the author of Text 2 says that even if there are a few undetectable microbes in the samples, the relatively tiny number of microbes would also suggest an unusually harsh environment, then Fierer’s team and the author of Text 2 would most likely agree that most microbes are unable to withstand the soil conditions at the Antarctic study site.

Choice A is incorrect. The samples taken by Fierer’s team were from an area of Antarctica that is described in part as extremely dry, and these samples didn’t appear to have any life. Therefore, even though these samples also came from an extremely cold area, Fierer’s team wouldn’t argue based on the evidence available that microbes were better able to survive in dry conditions than in areas with harsh temperatures. Moreover, the author of Text 2 says that microbes are found in virtually every environment on Earth but doesn’t compare dry environments and harsh environments. Choice B is incorrect. Nothing in Text 1 indicates that another collection of samples from the Antarctic study site might yield different results from the samples already taken by Fierer’s team. The author of Text 2 does state that microbes are found in virtually every environment on Earth and suggests that new technology may be better able to detect so few microbes in a soil sample, but the author of Text 2 concludes that the unusual absence of microbes in the Antarctic samples is evidence of the harsh Antarctic environment. Therefore, there is no reason to believe that the author of Text 2 thinks that another sample drawn from that same harsh environment would yield a much higher number of microbes. Choice C is incorrect. The author of Text 2 does speculate that there may have been so few microbes in the Antarctic samples that current technology couldn’t detect them, but the author doesn’t speculate that this is due to the size of the microbes. Moreover, nothing that Fierer’s team says suggests that they are speculating that their samples might have microbes that are smaller than microbes in typical soil samples.

Question Difficulty:
Medium

Question ID 9ccf463e

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 9ccf463e

The following text is from Nella Larsen’s 1928 novel *Quicksand*.

The trees in their spring beauty sent through her restive mind a sharp thrill of pleasure. Seductive, charming, and beckoning as cities were, they had not this easy unhuman loveliness.

As used in the text, what does the word “beckoning” most nearly mean?

- A. Demanding
- B. Signaling
- C. Inviting
- D. Shifting

ID: 9ccf463e Answer

Correct Answer:
C

Rationale

Choice C is the best answer because as used in the text, “beckoning” most nearly means “inviting,” or attractive. The text portrays a woman who is looking at “trees in their spring beauty.” She compares them to cities, which have their own pleasures even if they do not have the “easy unhuman loveliness” of trees: she thinks of cities as “seductive” and “charming,” both adjectives that signify something that is enticing, or attractive. Therefore, cities that are seductive and charming would also be described as inviting people closer to them.

Choice A is incorrect because there is no indication in this context that cities are “demanding,” or requiring effort. Choice B is incorrect. Though “signaling,” or communicating something, might be considered a key feature of the act of “beckoning,” in the context here, “beckoning” suggests that cities have attractive qualities that naturally draw people to them. Such attractive qualities are not described by the word “signaling” alone. Therefore, “signaling” is an incorrect answer because it is insufficiently precise. Choice D is incorrect because there is no reason to think in this context that the cities are “shifting,” or changing shape.

Question Difficulty:
Easy

Question ID 835d1ae6

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: 835d1ae6

Text 1

Historians studying pre-Inca Peru have looked to ceramic vessels to understand daily life among the Moche people. These mold-made sculptures present plants, animals, and human faces in precise ways—vessels representing human faces are so detailed that scholars have interpreted facial markings to represent scars and other skin irregularities. Some historians have even used these objects to identify potential skin diseases that may have afflicted people at the time.

Text 2

Art historian and archaeologist Lisa Trever has argued that the interpretation of Moche “portrait” vessels as hyper-realistic portrayals of identifiable people may inadvertently disregard the creativity of the objects’ creators. Moche ceramic vessels, Trever argues, are artworks in which sculptors could free their imagination, using realistic objects and people around them as inspiration to explore more abstract concepts.

Based on the texts, what would Lisa Trever (Text 2) most likely say about the interpretation presented in the underlined portion of Text 1?

- A. Depictions of human faces are significantly more realistic than depictions of plants and other animals are.
- B. It is likely that some depictions of human faces with extensive markings are intended to portray the same historical individual.
- C. Some vessels may have been damaged during their excavation and thus provide little insight into Moche culture.
- D. Markings on depictions of human faces are not necessarily intended to portray particular details about the physical appearance of individuals.

ID: 835d1ae6 Answer

Correct Answer:

D

Rationale

Choice D is the best answer. Trever thinks that the “hyper-realistic portrayal of identifiable people” interpretation ignores the sculptors’ imagination and creativity. We can infer that Trevor thinks the facial markings on the sculptures may not have represented real skin blemishes on real people.

Choice A is incorrect. The text gives us no reason to think that Trever would respond to the underlined interpretation in this way. Neither text compares the depictions of human faces to the depictions of plants or animals, so we have no basis to draw this conclusion. Choice B is incorrect. The text gives us no reason to think that Trever would respond to the underlined interpretation in this way. There’s nothing in either text about multiple depictions representing the same person, so we have no basis to draw this conclusion. Choice C is incorrect. The text gives us no reason to think that Trever would respond to the underlined interpretation in this way. Neither text mentions the state of the vessels (damaged or intact), so we have no basis to draw this conclusion.

Easy

Question ID af4300b0

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: af4300b0

The creation of Lotte Reiniger’s 1926 animated film *The Adventures of Prince Achmed* was _____ process. Over the course of three years, Reiniger and her collaborators painstakingly made more than 250,000 individual images of hand-cut paper silhouettes and repeatedly had to invent entirely new methods and tools to create the special effects Reiniger envisioned.

Which choice completes the text with the most logical and precise word or phrase?

- A. a haphazard
- B. a contentious
- C. an ineffectual
- D. an arduous

ID: af4300b0 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of the creation of *The Adventures of Prince Achmed*. In this context, "arduous" means that the process is marked by great labor or effort. According to the text, the creation of the 1926 animated film *The Adventures of Prince Achmed* took three years and was a painstaking process. Since the process was so long and required great efforts by Lotte Reiniger and her team, the creation of the film was therefore an arduous process.

Choice A is incorrect because the text doesn’t indicate that the creation of Reiniger’s film was "a haphazard," or disorganized, process. In fact, the text suggests that the creation process was quite meticulous and the team worked hard together to produce the envisioned effects. Choice B is incorrect. While the text does suggest that the creation of Reiniger’s film was a long and difficult process, it doesn’t suggest that the process was "a contentious" one, or one causing controversy or argument. The text suggests that the team worked together to produce the envisioned effects. Choice C is incorrect because rather than describing the process of creating the film as "ineffectual," or not having the effect it was intended to have, the text describes the process as ultimately successful despite the difficulty it involved.

Question Difficulty:
Hard

Question ID ca47273b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: ca47273b

Biologist Jane Edgeloe and colleagues have located what is believed to be the largest individual plant in the world in the Shark Bay area of Australia. The plant is a type of seagrass called *Posidonia australis*, and it _____ approximately 200 square kilometers.

Which choice completes the text with the most logical and precise word or phrase?

- A. acknowledges
- B. produces
- C. spans
- D. advances

ID: ca47273b Answer

Correct Answer:
C

Rationale

Choice C is the best answer. “Spans” means “extends over a distance of” or “encompasses.” Since we’re talking about the world’s largest plant, it makes sense to say that it “spans” about 200 square kilometers.

Choice A is incorrect. “Acknowledges” means “recognizes” or “admits the truth of.” Either way, it doesn’t make sense here: a plant can’t “acknowledge” a distance. Choice B is incorrect. “Produces” can mean “makes,” “causes,” or “presents.” But none of those definitions make sense here: a plant can’t make, cause, or present a distance. Choice D is incorrect. This doesn’t fit the logic of the text. “Advances” means “moves forward” or “progresses.” But the plant isn’t necessarily moving forward. Rather, the text suggests that it already covers a distance of 200 square kilometers.

Question Difficulty:
Easy

Question ID 4c4db685

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 4c4db685

On painter William H. Johnson’s return to the United States in 1938 after a decade in Europe, his style underwent an abrupt transformation. Turning away from landscapes painted in an expressionist style—a style that often involves using fluid, distorted shapes and thick, textured brushstrokes to express the artist’s subjective experience of reality—Johnson began painting portraits of Black Americans in a bold new way. Evocative of African sculpture and American and Scandinavian folk art, these portraits feature flat, deliberately oversimplified figures in a vibrant but limited color palette.

- Which choice best describes the function of the underlined sentence in the text as a whole?
- A. It elaborates on the previous sentence’s statement about a transitional moment in Johnson’s artistic career.
 - B. It provides information about Johnson’s travels in support of a claim about his artistic influences, which is advanced in the following sentence.
 - C. It recounts a moment in Johnson’s personal life that enabled the success of his subsequent career, which is summarized in the following sentence.
 - D. It presents evidence that calls into question the previous sentence’s characterization of Johnson’s artistic development.

ID: 4c4db685 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most accurately describes the function of the underlined sentence in the text as a whole. The first sentence of the text indicates that Johnson returned to the US in 1938 at which time his painting style suddenly changed. The second sentence is underlined and gives more detail about this stylistic change, noting that his earlier work consisted largely of landscapes in an expressionist style and his new works were highly stylized portraits of Black Americans. In other words, the function of the underlined sentence is to elaborate on a transitional moment in Johnson’s painting career.

Choice B is incorrect. Although the text does mention that Johnson spent a decade in Europe, it does not discuss what other travel Johnson might have done. Furthermore, although the text mentions African, American, and Scandinavian artistic elements in Johnson’s work, it does not indicate that he traveled to different locations to learn about these practices. Choice C is incorrect because the text does not focus on Johnson’s personal life nor does it address how successful his career was in general. Choice D is incorrect because, rather than call it into question, the underlined sentence continues the discussion of Johnson’s career by adding further relevant detail of Johnson’s artistic transformation.

Question Difficulty:
Medium

Question ID cf46f239

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: cf46f239

The following text is adapted from Herman Melville’s 1855 novel *Israel Potter*. Israel is a young man wandering through New England during the late eighteenth century.

He hired himself out for three months; at the end of that time to receive for his wages two hundred acres of land lying in New Hampshire. [...] His employer proving false to the contract in the matter of the land, and there being no law in the country to force him to fulfil it, Israel—who, however brave-hearted, and even much of a dare-devil upon a pinch, seems nevertheless to have evinced, throughout many parts of his career, a singular patience and mildness—was obliged to look round for other means of livelihood than clearing out a farm for himself in the wilderness.

Which choice best describes the function of the underlined portion in the text as a whole?

- A. It implies that Israel treasures a particular characteristic of his personality when that characteristic should usually be regarded as a flaw.
- B. It suggests that if not for a certain aspect of his character, Israel might not have been as easily thwarted in his ambition to establish a farm.
- C. It shows why Israel would not have been able to undertake the enormous amount of labor necessary to run a farm even if he had owned the necessary property.
- D. It explains why, when the situation requires it, Israel is able to undertake courageous acts that others would generally avoid.

ID: cf46f239 Answer

Correct Answer:

B

Rationale

Choice B is the best answer because it best describes the function of the underlined portion in the text as a whole. The text describes the failed attempt of Israel Potter to establish a farm in New England during the late eighteenth century: according to his contract, he was to receive two hundred acres in exchange for three months’ work, but his employer then refused to fulfill the bargain and Israel had no recourse to law to obtain the land he was owed. Israel was therefore forced to find another means of supporting himself. To explain why Israel was particularly susceptible to his employer’s dishonesty, the underlined portion states that though Israel was "brave-hearted, and even much of a dare-devil upon a pinch," he also possessed "a singular patience and mildness." In other words, Israel could be courageous in certain circumstances, but he was usually meek and disinclined to argument, from which it is reasonable to infer that Israel was often taken advantage of. Thus, the underlined portion suggests that if not for a certain aspect of his character, Israel might not have been as easily thwarted in his ambition to establish a farm.

Choice A is incorrect because although the underlined portion describes aspects of Israel’s personality, it does not address how he feels about his own personality. Choice C is incorrect because the underlined portion addresses Israel’s occasional courage and frequent meekness but does not address whether he would have the skills and resolve necessary to operate a farm if he owned sufficient property. Choice D is incorrect. Though the underlined portion does indicate that Israel could be courageous in certain circumstances, it does not say that he undertook acts of courage that others avoided, but rather that he was habitually meek. Even if the underlined portion did say that Israel was more courageous than most, this would not explain why he found himself under

the circumstances described in the text—that is, as a consequence of his meek nature, cheated of the property to which he had a right.

Question ID 69a6d050

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 69a6d050

In the early 1800s, the Cherokee scholar Sequoyah created the first script, or writing system, for an Indigenous language in the United States. Because it represented the sounds of spoken Cherokee so accurately, his script was easy to learn and thus quickly achieved _____ use: by 1830, over 90 percent of the Cherokee people could read and write it.

Which choice completes the text with the most logical and precise word or phrase?

- A. widespread
- B. careful
- C. unintended
- D. infrequent

ID: 69a6d050 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most logically completes the text’s discussion of the writing system created by Sequoyah. In this context, “widespread” means widely accepted or practiced. The text indicates that because Sequoyah’s script accurately represented the spoken sounds of the Cherokee language and was easy to learn, nearly all Cherokee people were able to read and write it soon after it was created. This context demonstrates that the script was widely used by the Cherokee people.

Choice B is incorrect. In this context, “careful” would mean exercised with care and attentive concern. Although the work of creating a writing system likely involved great care, the text indicates that the system was “easy to learn,” which conflicts with the idea that using this system requires a noteworthy amount of care. Choice C is incorrect because in this context “unintended” means not deliberate. The idea that using Sequoyah’s script was unintentional conflicts directly with the claim that it was easy to learn and used by “over 90% of the Cherokee people” by 1830. In fact, because one had to learn this system, it’s not clear how one could use it unintentionally. Choice D is incorrect because in this context “infrequent” means rare or not occurring often, which conflicts directly with the claim that “over 90% of the Cherokee people” were using Sequoyah’s script by 1830.

Question Difficulty:
Easy

Question ID 805e361d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 805e361d

Companies are providing consumers with more opportunities to purchase customized products than ever before. Whether buying customized sneakers, jewelry, or clothing, consumers can participate in the design of products to meet their specific needs and tastes. In turn, companies profit too: studies have shown that consumers are willing to pay more and wait longer for a customized product. Still, it can be difficult for companies to offer customization while keeping costs low, as the standard methods of mass production may not be able to accommodate making a unique product each time.

Which choice best describes the overall structure of the text?

- A. It discusses several recent innovations in product manufacturing and then suggests some potential applications of those innovations.
- B. It describes a company’s recent success with new products and then explains multiple factors that may have contributed to that success.
- C. It introduces a trend in consumer products and then explains how the trend both benefits and poses a challenge to companies.
- D. It presents two contrasting product-marketing techniques and then provides examples of one of those techniques.

ID: 805e361d Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it presents the best description of the overall structure of the text. The text begins by stating that companies are increasingly giving consumers opportunities to customize products, allowing them to make design choices when buying certain sneakers, jewelry, and clothing. The text then indicates that although this trend benefits companies because they can successfully charge buyers more for customized products and don’t have to rush production, it also poses a challenge because producing unique items may require different and more expensive methods than the ones typically used for mass production, raising the companies’ costs. Thus, the text first introduces a trend in consumer products and then explains how the trend both benefits and poses a challenge to companies.

Choice A is incorrect because the text doesn’t present the customization of various products as a recent innovation—the fact that there are "more opportunities" now indicates that there were opportunities before—and no other innovations, in product manufacturing or otherwise, are discussed. Choice B is incorrect because the text doesn’t discuss any particular company or example and instead speaks broadly about the trend of companies providing customizable products. Choice D is incorrect. Although the text discusses companies offering something that consumers like and are willing to pay more for—the ability to customize products—it doesn’t characterize this as a product-marketing technique and doesn’t compare it to any other kind of offering or technique.

Question Difficulty:
Easy

Question ID 81da17d3

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: 81da17d3

Text 1

Italian painters in the 1500s rarely depicted themselves in their work. Even more rare were self-portrait paintings that portrayed the artist as a painter. At the time, painting was not yet respected as a profession, so painters mostly chose to emphasize other qualities in their self-portraits, like their intellect or social status. In the city of Bologna, the first artist to depict himself painting was a man named Annibale Carracci. A painting of his from around 1585 shows Carracci in front of an easel holding a palette.

Text 2

In their self-portraits, Bolognese artists typically avoided referring to the act of painting until the mid-1600s. However, Lavinia Fontana’s 1577 painting, *Self-Portrait at the Keyboard*, stands out as the earliest example of such a work by an artist from Bologna. Although the artist is depicted playing music, in the background, one can spot a painting easel by a window.

Based on the texts, how would the author of Text 2 most likely respond to the underlined claim in Text 1?

- A. Carracci and Fontana were among the most well-respected painters in Bologna at the time.
- B. The depiction of Fontana in *Self-Portrait at the Keyboard* was intended to underscore the artist’s creativity.
- C. Fontana likely inspired the reference to an easel and palette in Carracci’s painting.
- D. *Self-Portrait at the Keyboard* was painted earlier than Carracci’s painting and also refers to the artist’s craft.

ID: 81da17d3 Answer

Correct Answer:

D

Rationale

Choice D is the best answer. The author of Text 2 states that Fontana’s painting, which depicts a painting easel in the background, was made in 1577, eight years before Carracci’s painting. Therefore, they might argue that Carracci was not “the first artist” to depict himself as a painter.

Choice A is incorrect. The texts don’t support this choice. Neither text mentions the reputation or status of either Carracci or Fontana. Choice B is incorrect. The author of Text 2 does not comment on the intention or meaning of Fontana’s self-depiction in *Self-Portrait at the Keyboard*. This choice also holds little connection to the underlined claim. Choice C is incorrect. The texts don’t support this choice. The author of Text 2 does not suggest any inspirational relationship between Fontana and Carracci. The author of Text 2 is concerned with showing that Fontana’s painting is the earliest example of an artist referring to painting in their self-portrait, but makes no mention of her influence on others.

Question Difficulty:

Easy

Question ID 617a8a10

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 617a8a10

Very little is known about the role nocturnal insects, such as moths, play in flower pollination because it is difficult to monitor insects at night. To address this problem, a team of scientists used time-lapse cameras to record pollinator visits to red clover all day and night. The recordings showed that while most pollinator visits were by bumblebees, one-third of visits were by moths. Additionally, flowers that were visited by both moths and bees produced more seeds than flowers that were only visited by bees.

Which choice best states the function of the underlined sentence?

- A. To describe an approach a team of scientists used to study pollinators
- B. To question a claim scientists make about pollinators
- C. To explain why moths prefer red clover to other flowers
- D. To announce an unexpected research finding about red clover

ID: 617a8a10 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most accurately describes the function of the underlined sentence. The sentence indicates that scientists used time-lapse photography during both day and night to detect pollinators visiting red clover. Therefore, the underlined sentence has the function of describing an approach scientists used in the pollinator study discussed in the text.

Choice B is incorrect because the underlined sentence discusses equipment the scientists used to conduct their study, and the text provides nothing to suggest these elements of their experimental design could, by themselves, question claims resulting from the study. Choice C is incorrect because nothing in either the underlined sentence or the rest of the text addresses whether moths have a preference for red clover or any other flowers. Choice D is incorrect. Although the sentences that follow the underlined sentence discuss research findings, nothing in the text suggests that these findings were unexpected. Moreover, the underlined sentence describes part of the scientists’ experimental design (day and night time-lapse photography), not a finding of the scientists’ study.

Question Difficulty:
Medium

Question ID e41dfaab

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: e41dfaab

In 1929 the *Atlantic Monthly* published several articles based on newly discovered letters allegedly exchanged between President Abraham Lincoln and a woman named Ann Rutledge. Historians were unable to _____ the authenticity of the letters, however, and quickly dismissed them as a hoax.

Which choice completes the text with the most logical and precise word or phrase?

- A. validate
- B. interpret
- C. relate
- D. accommodate

ID: e41dfaab Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most logically completes the text’s discussion of letters allegedly exchanged between President Lincoln and Rutledge. In this context, “validate” means to confirm that something is real or correct. According to the text, it was alleged, or claimed, that the newly discovered letters had been written by Lincoln and Rutledge. The text also indicates that historians ultimately decided the letters were a hoax, or fraudulent. This context suggests that the historians couldn’t confirm that the letters were authentic.

Choice B is incorrect. The text focuses on the authenticity of the letters, which were claimed to have been written by Lincoln and Rutledge and were then quickly dismissed as fraudulent by historians. Rather than conveying that the historians simply weren’t able to “interpret,” or explain in an understandable way, the letters’ authenticity, the text suggests that the historians decided the letters lacked authenticity altogether. Choice C is incorrect. The text states that the historians quickly dismissed the letters claimed to have been written by Lincoln and Rutledge as fraudulent; this suggests that rather than being unable to “relate,” or tell others about, the letters’ authenticity, the historians were able to share what they’d decided about the letters. Choice D is incorrect because it wouldn’t make sense to suggest that the historians couldn’t “accommodate,” or give consideration to, the authenticity of the letters claimed to have been written by Lincoln and Rutledge; the text states that the historians decided that the letters were fraudulent, which indicates that they *did* consider whether the letters were authentic.

Question Difficulty:

Question ID e13171c4

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: e13171c4

Historians Tiya Miles and Roy E. Finkenbine have both documented the assistance Indigenous peoples gave to Black freedom seekers leaving the South before the US Civil War. Much of the historical evidence of this help comes from Indigenous oral traditions and from autobiographies written by the freedom seekers. One such narrative is Jermain Loguen’s autobiography, which tells about how Neshnabé (Potawatomi) villagers offered him food, lodging, and directions during his 1835 journey from Tennessee to Canada.

Which choice best describes the function of the underlined sentence?

- A. It provides an example of an autobiography that describes help given by an Indigenous people to a Black freedom seeker.
- B. It shows why Loguen decided to write in great detail about his experiences traveling from Tennessee to Canada in his autobiography.
- C. It argues that autobiographies are particularly important sources of information about geography in the United States before the Civil War.
- D. It suggests that most historians believe that Neshnabé villagers were more successful in assisting freedom seekers than other people were.

ID: e13171c4 Answer

Correct Answer:
A

Rationale

Choice A is the best answer. The previous sentence broadly mentions "autobiographies written by the freedom seekers." This sentence identifies Loguen’s autobiography as a specific example.

Choice B is incorrect. The sentence never explains why Loguen chose to write about his experiences. Choice C is incorrect. The previous sentence identifies autobiographies as useful sources of historical information about a specific topic, but not for "information about geography." The underlined sentence provides details of one autobiography as an example of a source of information about that specific topic (interactions between Indigenous people and Black freedom seekers). Choice D is incorrect. The text never discusses other specific people who helped freedom seekers, and therefore can’t make a comparison between the Neshnabé and anyone else.

Question Difficulty:
Easy

Question ID 190857f0

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 190857f0

Why do sand cats purr but lions roar? Researchers hypothesize that this difference between the two feline species may be partly due to a U-shaped bone in their throats called the hyoid. Sand cats, which are much smaller than lions, have a rigid hyoid that rumbles when the cat’s larynx vibrates, resulting in a purr. By contrast, lions have a somewhat flexible hyoid, and the bone is attached to the skull with a stretchy ligament that sand cats lack. These traits allow lions and most other species of big cats to produce powerful roars. The same traits may also prevent most big cats from purring.

Which choice best describes the overall structure of the text?

- A. The text presents a theory about two species, then discusses facts that weaken it.
- B. The text compares the habitats of two species, then explains how those habitats are changing.
- C. The text describes a behavior shared by two species, then discusses other behaviors shared by them.
- D. The text poses a question about two species, then presents a possible answer.

ID: 190857f0 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it best describes the overall structure of the text. The text begins by posing a question about two different cat species: "Why do sand cats purr but lions roar?" The remainder of the text then presents a possible answer to this question by explaining a hypothesis about differences in these cats’ hyoid bone structure. The text details how sand cats have rigid hyoids that produce purring sounds when their larynx vibrates, while lions have more flexible hyoids attached to the skull with a stretchy ligament that enables roaring but may prevent purring.

Choice A is incorrect because the text doesn’t present facts that weaken the theory about two cat species; rather, it asks a question about two species and then discusses a potential answer. Choice B is incorrect because the text doesn’t discuss the habitats of sand cats and lions at all, nor does it mention any changes to their habitats. Choice C is incorrect because the text doesn’t describe a behavior shared by the two cat species mentioned. On the contrary, it specifically focuses on the different vocalization behaviors of each species (purring versus roaring) and why those differences may exist.

Question Difficulty:
Medium

Question ID 4d1a9c0d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context

Following the principles of community-based participatory research, tribal nations and research institutions are equal partners in health studies conducted on reservations. A collaboration between the Crow Tribe and Montana State University _____ this model: tribal citizens worked alongside scientists to design the methodology and continue to assist in data collection.

Which choice completes the text with the most logical and precise word or phrase?

- A. circumvents
- B. eclipses
- C. fabricates
- D. exemplifies

ID: 4d1a9c0d Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of the collaboration between the Crow Tribe and Montana State University. As used in this context, “exemplifies” means demonstrates. The text conveys how the Crow Tribe–Montana State University collaboration serves to illustrate the model of community-based participatory research introduced earlier in the text and expanded on later in the text.

Choice A is incorrect because referring to “circumvents,” or avoids, wouldn’t make sense in context. The text suggests that the Crow Tribe–Montana State University collaboration serves as an example of the principles of community-based participatory research, not that the collaboration evades this model. Choice B is incorrect because referring to “eclipses,” or overshadows, wouldn’t make sense in context. The text describes the Crow Tribe–Montana State University collaboration as an equal partnership, which indicates that it’s an example of the community-based participatory research model, not that it overshadows the model. Choice C is incorrect because saying that the collaboration “fabricates,” or creates, the model wouldn’t make sense in context. The text indicates that the Crow Tribe–Montana State University collaboration serves as an example of the model, not that it created the model.

Question Difficulty:
Easy

Question ID b5898291

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: b5898291

The equipment from the Apollo Moon landings (1969–1972), such as radiation detectors and temperature probes, remains there to this day, but the data from these missions were mostly inaccessible until a recent data-transfer project made them _____. This project has allowed researcher Seichi Nagihara to make use of the information in investigating temperature changes on the Moon.

Which choice completes the text with the most logical and precise word or phrase?

- A. predictable
- B. complicated
- C. representative
- D. available

ID: b5898291 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of how a data-transfer project affected data from equipment from the Apollo Moon landings. In this context, "available" means accessible or able to be used. The text explains that the Apollo equipment is still on the Moon, but the data it collected "were mostly inaccessible" until a data-transfer project was undertaken. The text then states that this project allowed a researcher to use the information that has been collected. This context makes it clear that the project made previously inaccessible data available, or accessible.

Choice A is incorrect because saying that a project made data from the Apollo equipment on the Moon "predictable" would mean that the data could be known or declared in advance, and it’s not clear how that would be achieved, particularly with data that had been "mostly inaccessible" before the project. Rather than suggesting that the data-transfer project made the data predictable, the text conveys that it made the data available to be used as sources of information. Choice B is incorrect because the sentence indicates that data from the Apollo equipment on the Moon were "mostly inaccessible" until a recent data-transfer project did something to them, after which a researcher was able to make use of the data. This context conveys that the project made the data accessible and usable, not that it made them "complicated," or complex or difficult to understand. Choice C is incorrect. In this context, "representative" would mean either standing as a symbol of something or serving as a typical example from a group, and the text gives no indication that data retrieved from the Apollo equipment on the Moon was merely an example or symbolic. Rather, the text focuses on the availability and usefulness of the data, indicating that a data-transfer project enabled a researcher to use data that had previously been "mostly inaccessible."

Question Difficulty:
Easy

Question ID 5effa190

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 5effa190

The process of mechanically recycling plastics is often considered _____ because of the environmental impact and the loss of material quality that often occurs. But chemist Takunda Chazovachii has helped develop a cleaner process of chemical recycling that converts superabsorbent polymers from diapers into a desirable reusable adhesive.

Which choice completes the text with the most logical and precise word or phrase?

- A. resilient
- B. inadequate
- C. dynamic
- D. satisfactory

ID: 5effa190 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion about recycling plastics. In this context, “inadequate” means not satisfactory. The text indicates that the mechanical plastic-recycling process affects the environment and causes “the loss of material quality.” The text contrasts that with Chazovachii’s chemical plastic-recycling process, which is cleaner and produces a desirable product. The text’s emphasis on the negative aspects of mechanical recycling suggests that it is inadequate in terms of environmental impact and the quality of the material the process yields.

Choice A is incorrect because in this context “resilient” would mean able to withstand difficulty and the text does not characterize the plastic-recycling process as having this quality or describe any difficulties that these processes might need to overcome. Choice C is incorrect because in this context “dynamic” would mean constantly changing. Although the text suggests that there have been changes in the field of recycling, as is the case with the advent of Chazovachii’s chemical recycling process, there is nothing to suggest that the mechanical process itself has changed or is prone to change. Choice D is incorrect because in this context “satisfactory” would mean acceptable but not perfect. The text mentions only shortcomings of the mechanical process (environmental effects and lower material quality), so the text more strongly supports a negative view of this process and provides no evidence that it would be considered satisfactory.

Question Difficulty:
Easy

Question ID a49500cc

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: a49500cc

Predatory animals differ widely in how they _____ food for their young. Some leave dead prey nearby for their young to consume, some bring live prey to their young, and some feed their young directly from their own mouths.

Which choice completes the text with the most logical and precise word or phrase?

- A. avoid
- B. guess
- C. provide
- D. describe

ID: a49500cc Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of how predators feed their young. As used in this context, "provide" means supply or make something that’s needed available. The text indicates that some predators supply prey for their young by either leaving dead prey nearby or by bringing live prey to them. Other predators, the text states, feed their young directly from their own mouths. This context supports the idea that predatory animals have various ways to provide food for their young.

Choice A is incorrect because in this context, "avoid" would mean keep away from or refrain from, neither of which would make sense in context. Nothing in the text suggests that predators refrain from food for their young. Choice B is incorrect because in this context, "guess" would mean speculate or suppose, and it’s unclear what it would mean for predators to speculate food for their young. Choice D is incorrect because in this context, "describe" would mean explain, and it’s unclear what it would mean for predators to explain food for their young.

Question Difficulty:
Easy

Question ID f3fac04f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: f3fac04f

Bioluminescent beetles called fireflies may seem to create flashes of light randomly, but each species of firefly actually has its own special series of repeated flashes and pauses. These unique _____ allow fireflies of the same species to find each other.

Which choice completes the text with the most logical and precise word or phrase?

- A. quantities
- B. decorations
- C. patterns
- D. agreements

ID: f3fac04f Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of the flashes created by fireflies. In this context, “patterns” means distinct and predictable sequences. The text indicates that although the flashes that fireflies produce appear to occur randomly—that is, without any particular sequence or rhythm—each species actually produces its own special series of flashes and pauses. Indeed, these series of flashes are so unique that fireflies can use them to find other members of their species. Therefore, this context supports the idea that fireflies produce flashes in distinct and recognizable patterns.

Choice A is incorrect because “quantities” means certain amounts or numbers of something. Although the text discusses how different firefly species produce flashes and pauses in unique sequences that help other members of their species to find them, it doesn’t mention the number of flashes that are used in these sequences. Choice B is incorrect because in this context, “decorations” would mean things that make an object more beautiful. Although it may be reasonable to say that firefly flashes are beautiful, the text focuses on the fact that fireflies use these unique sequences of flashes to find other members of their own species, not that the flashes make fireflies more beautiful. Choice D is incorrect because in this context, “agreements” would refer to deals that individuals have discussed and come to a consensus about. Since fireflies aren’t capable of making such agreements, it wouldn’t make sense to use this word to refer to the signals they send each other with their flashes.

Question Difficulty:
Easy

Question ID d6c77ae5

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: d6c77ae5

Text 1

Astronomer Mark Holland and colleagues examined four white dwarfs—small, dense remnants of past stars—in order to determine the composition of exoplanets that used to orbit those stars. Studying wavelengths of light in the white dwarf atmospheres, the team reported that traces of elements such as lithium and sodium support the presence of exoplanets with continental crusts similar to Earth’s.

Text 2

Past studies of white dwarf atmospheres have concluded that certain exoplanets had continental crusts. Geologist Keith Putirka and astronomer Siyi Xu argue that those studies unduly emphasize atmospheric traces of lithium and other individual elements as signifiers of the types of rock found on Earth. The studies don’t adequately account for different minerals made up of various ratios of those elements, and the possibility of rock types not found on Earth that contain those minerals.

Based on the texts, how would Putirka and Xu (Text 2) most likely characterize the conclusion presented in Text 1?

- A. As unexpected, because it was widely believed at the time that white dwarf exoplanets lack continental crusts
- B. As premature, because researchers have only just begun trying to determine what kinds of crusts white dwarf exoplanets had
- C. As questionable, because it rests on an incomplete consideration of potential sources of the elements detected in white dwarf atmospheres
- D. As puzzling, because it’s unusual to successfully detect lithium and sodium when analyzing wavelengths of light in white dwarf atmospheres

ID: d6c77ae5 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it reflects how Putirka and Xu (Text 2) would likely characterize the conclusion presented in Text 1. Text 1 discusses a study by Mark Holland and colleagues in which they detected traces of lithium and sodium in the atmospheres of four white dwarf stars. The team claims that this supports the idea that exoplanets with continental crusts like Earth’s once orbited these stars. Text 2 introduces Putirka and Xu, who indicate that sodium and lithium are present in several different minerals and that some of those minerals might exist in types of rock that are not found on Earth. Therefore, Putirka and Xu would likely describe the conclusion in Text 1 as questionable because it does not consider that lithium and sodium are also found in rocks that are not like Earth’s continental crust.

Choice A is incorrect because the texts do not indicate how widely held any of the viewpoints described are. Choice B is incorrect because neither text discusses how new this area of study is. Choice D is incorrect because neither text discusses how likely lithium and sodium are to be detected by analyzing wavelengths of light.

Question Difficulty:

Question ID 6d5ddea4

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 6d5ddea4

According to Potawatomi ecologist Robin Wall Kimmerer, the Indigenous method of harvesting *Hierochloe odorata*, or sweetgrass, by snapping the plant off at the root actually _____ wild populations: it may seem counterintuitive, she says, but this method of removal allows new sweetgrass plants to repopulate the space, with an overall increase in number and vigor.

Which choice completes the text with the most logical and precise word or phrase?

- A. selects
- B. originates
- C. conditions
- D. replenishes

ID: 6d5ddea4 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of the Indigenous method of harvesting *Hierochloe odorata*. As used in this context, “replenishes” means helps increase the population or helps it recover. The text explains that although snapping off a wild plant at the root might seem detrimental to the wild population, it actually helps *Hierochloe odorata*, increasing both their “number and vigor.” This context conveys the idea that even though it seems counterintuitive, the Indigenous method of harvesting *Hierochloe odorata* actually replenishes the wild population.

Choice A is incorrect. Although a harvesting method could be used to select for certain traits in plants, it’s not clear what it would mean for a harvesting method to select “wild populations” of plants. Choice B is incorrect because as used in this context, “originates” means creates. The text doesn’t address the origin of *Hierochloe odorata*, but rather how the Indigenous harvesting method affects it. Choice C is incorrect because in this context, “conditions” means to influence someone or something to behave in a certain way, and the text doesn’t suggest the new plants that replace the harvested ones differ in any meaningful way, or in any way that could be the result of conditioning.

Question Difficulty:
Easy

Question ID df46a2ee

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: df46a2ee

The following text is from Joseph Conrad’s 1907 novel *The Secret Agent: A Simple Tale*. Mr. Verloc is navigating the London streets on his way to a meeting.

Before reaching Knightsbridge, Mr. Verloc took a turn to the left out of the busy main thoroughfare, uproarious with the traffic of swaying omnibuses and trotting vans, in the almost silent, swift flow of hansoms [horse-drawn carriages]. Under his hat, worn with a slight backward tilt, his hair had been carefully brushed into respectful sleekness; for his business was with an Embassy. And Mr. Verloc, steady like a rock—a soft kind of rock—marched now along a street which could with every propriety be described as private.

Which choice best describes the function of the underlined phrase in the text as a whole?

- A. It qualifies an earlier description of Mr. Verloc.
- B. It emphasizes an internal struggle Mr. Verloc experiences.
- C. It contrasts Mr. Verloc with his surroundings.
- D. It reveals a private opinion Mr. Verloc holds.

ID: df46a2ee Answer

Correct Answer:
A

Rationale

Choice A is the best answer. The underline phrase qualifies (meaning adds limits or conditions to) the description of Mr. Verloc as “steady like a rock,” adding that he is a “soft” rock.

Choice B is incorrect. In fact, the passage never mentions Mr. Verloc experiencing any internal struggles. Choice C is incorrect. The underlined phrase doesn’t contrast Mr. Verloc with his surroundings, but is instead modifying the description of him as a rock. Choice D is incorrect. The underlined phrase doesn’t reveal a private opinion Mr. Verloc holds: instead, it further describes his character for the reader.

Question Difficulty:
Medium

Question ID 5a278f24

Assessment	Test	Domain	Skill	Difficulty

ID: 5a278f24

The work of molecular biophysicist Enrique M. De La Cruz is known for _____ traditional boundaries between academic disciplines. The university laboratory that De La Cruz runs includes engineers, biologists, chemists, and physicists, and the research the lab produces makes use of insights and techniques from all those fields.

Which choice completes the text with the most logical and precise word or phrase?

- A. epitomizing
- B. transcending
- C. anticipating
- D. reinforcing

ID: 5a278f24 Answer

Correct Answer:
B

Rationale

Choice B is the best answer. Based on the text, we’re looking for a word that means something similar to "mak[ing] use of insights and techniques from all those fields." "Transcending" means "going beyond," so "transcending traditional boundaries" would mean crossing into all those various fields of research, which is exactly the meaning we want.

Choice A is incorrect. This isn’t a logical word choice. Based on the text, we’re looking for a word that means something similar to "mak[ing] use of insights and techniques from all those fields." To "epitomize" means to "be a perfect example of," so "epitomizing traditional boundaries" would mean the opposite of what we want: keeping the fields of research separate. Choice C is incorrect. This isn’t a logical word choice. Based on the text, we’re looking for a word that means something similar to "mak[ing] use of insights and techniques from all those fields." "Anticipating" means "expecting" or "waiting for," and would result in a confusing sentence with an unclear meaning. Choice D is incorrect. This isn’t a logical word choice. Based on the text, we’re looking for a word that means something similar to "mak[ing] use of insights and techniques from all those fields." "Reinforcing traditional boundaries" would mean the opposite: keeping the fields of research separate.

ID: 76e4c51d

The güiro, a musical instrument traditionally made from a dried and hollowed gourd, is thought to have originated with the Taíno people of Puerto Rico. Players use a wooden stick to scrape along ridges cut into the side of the gourd, creating sounds that are highly _____. The sounds produced by güiros can differ based on the distance between the ridges, the types of strokes the player uses, and the thickness of the gourd.

Which choice completes the text with the most logical and precise word or phrase?

- A. overlooked
- B. powerful
- C. routine
- D. variable

ID: 76e4c51d Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of the sounds made by güiros. In this context, “variable” means able to change. The text begins by explaining that güiros are instruments made out of hollowed gourds with ridges cut into their sides and that players scrape the ridges with wooden sticks to produce sounds. The text goes on to say that güiros’ sounds can change depending on gourd thickness, the distance between ridges, and the types of strokes the player uses, thus supporting the idea that the sounds created by these instruments are variable.

Choice A is incorrect because “overlooked” means not being seen or noticed, and there is nothing in the text to suggest that the sounds produced by güiros are overlooked or not noticed. Choice B is incorrect because in this context, “powerful” would mean having a great ability to produce an effect. While it’s possible that the sounds produced by güiros have a strong effect on listeners, the text doesn’t discuss this aspect of their sounds. Choice C is incorrect because “routine” means usual and unvarying, and there is nothing in the text to suggest that the sounds produced by güiros are unvarying. In fact, the text describes how the sounds produced by güiros can differ based on several factors.

Question Difficulty:
Hard

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 4b8244ca

One challenge of generating electricity from ocean waves is that wave power isn't ____: it varies in unpredictable ways that pose technological and planning problems for electricity generation.

Which choice completes the text with the most logical and precise word or phrase?

- A. accidental
- B. confident
- C. expensive
- D. consistent

ID: 4b8244ca Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of the challenge of generating electricity from ocean waves. In this context, "consistent" means steady or unchanging over time. The text introduces a challenge and then explains that wave power varies, or changes, unpredictably in ways that cause problems for electricity generation. This context conveys that the challenge being described is a lack of consistency.

Choice A is incorrect because the text introduces a challenge and then elaborates on it by emphasizing that the unpredictable nature of variations in ocean waves causes problems, which doesn’t indicate that wave power isn’t "accidental," or isn’t happening unintentionally. It wouldn’t make sense to describe waves—a natural occurrence—as happening intentionally. Choice B is incorrect because "confident" means having a feeling of self-assurance, and it wouldn’t make sense to describe wave power itself in terms of either having or lacking a sense of confidence. Choice C is incorrect because the text introduces a challenge and then elaborates on it by emphasizing that the unpredictable nature of variations in ocean waves causes problems, which doesn’t indicate that wave power isn’t "expensive," or isn’t costly. If anything, technological and planning problems might actually increase the expense of generating electricity from waves.

Question Difficulty:
Easy

Question ID a2835734

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: a2835734

Visual artist Gabriela Alemán states that the bold colors of comics, pop art, and Latinx culture have always fascinated her. This passion for the rich history and colors of her Latinx community translates into the _____ artworks she produces.

Which choice completes the text with the most logical and precise word or phrase?

- A. vivid
- B. unknown
- C. definite
- D. reserved

ID: a2835734 Answer

Correct Answer:
A

Rationale

Choice A is the best answer. "Vivid" can mean "colorful" or "bright-colored." This definition fits the context clues about Alemán's fascination with and passion for bold colors.

Choice B is incorrect. This doesn't fit the logic of the text. Nothing in the text indicates that Alemán's artworks are "unknown."

Choice C is incorrect. This doesn't fit the logic of the text. "Definite" means "certain" or "decided." It wouldn't make sense to describe artwork as "definite." Choice D is incorrect. This doesn't fit the logic of the text. "Reserved" can either mean "slow to reveal emotions" or "booked." But the clues suggest that Alemán's artworks are boldly colorful—almost the opposite of "reserved."

Question Difficulty:
Easy

Question ID ff97fd53

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: ff97fd53

In 1973, poet Miguel Algarín started inviting other writers who, like him, were Nuyorican—a term for New Yorkers of Puerto Rican heritage—to gather in his apartment to present their work. The gatherings were so well attended that Algarín soon had to rent space in a cafe to accommodate them. Thus, the Nuyorican Poets Cafe was born. Moving to a permanent location in 1981, the Nuyorican Poets Cafe expanded its original scope beyond the written word, hosting art exhibitions and musical performances as well. Half a century since its inception, it continues to foster emerging Nuyorican talent.

Which choice best describes the overall purpose of the text?

- A. To explain what motivated Algarín to found the Nuyorican Poets Cafe
- B. To situate the Nuyorican Poets Cafe within the cultural life of New York as a whole
- C. To discuss why the Nuyorican Poets Cafe expanded its scope to include art and music
- D. To provide an overview of the founding and mission of the Nuyorican Poets Cafe

ID: ff97fd53 Answer

Correct Answer:
D

Rationale

Choice D is the best answer. The text presents a brief history of the Nuyorican Poets Cafe, from how it got started in the '70s, to its expansion in the '80s, to its ongoing mission today.

Choice A is incorrect. This isn't the overall purpose. The text never mentions Algarín's motivations. Choice B is incorrect. This isn't the overall purpose. The text never discusses the cultural life of New York as a whole. Choice C is incorrect. This is too narrow. One sentence mentions that the Nuyorican Poets Cafe expanded its scope to include art and music, but this is only one point in the broader history of the Nuyorican Poets Cafe, which is the overall focus of the text.

Question Difficulty:
Medium

Question ID c61a7c4a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: c61a7c4a

Some studies have suggested that posture can influence cognition, but we should not overstate this phenomenon. A case in point: In a 2014 study, Megan O’Brien and Alaa Ahmed had subjects stand or sit while making risky simulated economic decisions. Standing is more physically unstable and cognitively demanding than sitting; accordingly, O’Brien and Ahmed hypothesized that standing subjects would display more risk aversion during the decision-making tasks than sitting subjects did, since they would want to avoid further feelings of discomfort and complicated risk evaluations. But O’Brien and Ahmed actually found no difference in the groups’ performance.

Which choice best states the main purpose of the text?

- A. It argues that research findings about the effects of posture on cognition are often misunderstood, as in the case of O’Brien and Ahmed’s study.
- B. It presents the study by O’Brien and Ahmed to critique the methods and results reported in previous studies of the effects of posture on cognition.
- C. It explains a significant problem in the emerging understanding of posture’s effects on cognition and how O’Brien and Ahmed tried to solve that problem.
- D. It discusses the study by O’Brien and Ahmed to illustrate why caution is needed when making claims about the effects of posture on cognition.

ID: c61a7c4a Answer

Correct Answer:

D

Rationale

Choice D is the best answer because it most accurately describes the main purpose of the text. The text notes that although some studies have suggested that posture may have an effect on cognition, this phenomenon should not be overstated. In other words, the text begins by urging caution and restraint when discussing the effects of posture on cognition, implying that even though some studies have shown posture to affect cognition, we should not assume that posture always affects cognition or does so in a strong way. The text goes on to discuss O’Brien and Ahmed’s study as a "case in point" (that is, as an example of the point made previously). According to the text, O’Brien and Ahmed hypothesized that since standing is more cognitively demanding than sitting, standing subjects in their experiment would respond differently to decision-making tasks than sitting subjects would, which would show an effect of posture on cognition. What the researchers actually found, however, was that the standing and sitting subjects performed the same—posture did not affect cognition. By presenting a circumstance in which posture does not appear to affect cognition, the discussion of O’Brien and Ahmed’s study shows why it is important not to overstate the phenomenon. The purpose of the text, therefore, is to discuss O’Brien and Ahmed’s study to illustrate why caution is needed when making claims about posture’s effects on cognition.

Choice A is incorrect because the text discusses O’Brien and Ahmed’s study as an example of why caution is needed when discussing posture’s effects on cognition, not as an example of how research findings related to posture and cognition are often misunderstood. Although the text does warn against misunderstanding the scope of the relationship between posture and

cognition that has been reported in some previous studies, O’Brien and Ahmed’s study is not one of those studies, and there is no suggestion that anyone has misunderstood O’Brien and Ahmed’s findings. Choice B is incorrect because the text makes no mention of the methods used in previous studies of the effects of posture on cognition. Although the text does urge caution when discussing posture’s effects on cognition, it does not critique the results of studies that suggested that posture can affect cognition. Instead, the text suggests that such results should not be exaggerated or taken too broadly. Choice C is incorrect because although the text implies that overstating posture’s effects on cognition would be a problem, nothing in the text suggests that O’Brien and Ahmed share that view or that they attempted to solve that problem. O’Brien and Ahmed are presented as hypothesizing that posture would affect cognition in their study, not as trying to resolve the problem the text describes.

Question ID 37219ba2

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 37219ba2

The following text is from John Muir’s 1913 autobiography *The Story of My Boyhood and Youth*. Muir describes being on a boat.

The water was so clear that it was almost invisible, and when we floated slowly out over the plants and fishes, we seemed to be miraculously sustained in the air while exploring a veritable fairyland.

As used in the text, what does the word “clear” most nearly mean?

- A. Simple
- B. Understandable
- C. Obvious
- D. Transparent

ID: 37219ba2 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because as used in the text, "clear" most nearly means transparent, or see-through. Muir states that the water beneath the boat "was so clear that it was almost invisible," suggesting that those on the boat were able to see through the water and easily observe plants and fish below the surface.

Choice A is incorrect. In some contexts "clear" can mean "simple," or uncomplicated, but Muir is describing the water, and water isn’t typically described as either simple or complicated. Muir emphasizes the water’s transparency, not its simplicity. Choice B is incorrect. In some contexts "clear" can mean "understandable," or reasonable or easily comprehended, but Muir is describing the water, and it doesn’t make much sense to describe water as understandable. Muir emphasizes the water’s transparency, not how easily the water can be understood. Choice C is incorrect. Although "clear" can mean "obvious," or easily seen or understood, in some contexts, Muir’s description emphasizes that the water "was almost invisible" and that the boat seemed to be "sustained in the air," suggesting that the water was almost impossible to see, not that it was obvious.

Easy

Question ID a2f64e58

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: a2f64e58

Individual elephants and Arctic herbivores such as caribou tend to have fixed geographic ranges throughout their lifetimes, which had prompted some researchers to speculate that the Arctic woolly mammoth, an extinct elephantid, might have exhibited similar behavior. Mammoth tusks grew in sequential layers, incorporating ingested minerals and organics, and so each ivory stratum reflects the ratio of strontium isotopes ($^{87}\text{Sr}/^{86}\text{Sr}$) in the local environment; thus, the sequence of strata shows where the animal roamed during life. Recent analysis of the strontium ratios in the strata of one Arctic woolly mammoth tusk in relation to the geographic distribution of strontium ratios in the environment shows the animal’s range begin to expand as it reached sexual maturity, only to contract again in its final 1.5 years.

- Which choice best describes the function of the underlined statement in the text as a whole?
- A. It discusses a characteristic shared by certain animals in order to explain why researchers raised a possibility that turned out not to be supported by data described later in the text.
 - B. It illustrates a pattern of behavior among certain animals in order to present a theory about exceptions to that pattern that is weakened by a finding described later in the text.
 - C. It describes a similarity in the behavior of certain animals in order to show why a method described later in the text did not reveal whether another animal also showed that behavior.
 - D. It introduces a trait shared by certain animals in order to contextualize a hypothesis about the origin of that trait that is advanced later in the text.

ID: a2f64e58 Answer

Correct Answer:

A

Rationale

Choice A is the best answer because it most accurately describes how the underlined statement functions in the text as a whole. The underlined statement mentions a category of animals that have a feature in common: they tend to have fixed geographic ranges throughout their lifetimes. The text then presents the speculation of some researchers that the Arctic woolly mammoth might also share this characteristic. However, an examination of the content of strontium in the strata (or layers) of a woolly mammoth tusk indicated that contrary to the researchers’ hypothesis, the mammoth had an expanding range in its environment that contracted in its last 1.5 years of life. Thus, the underlined statement discusses a characteristic shared by certain animals in order to explain why researchers raised a possibility that turned out not to be supported by data described later in the text.

Choice B is incorrect. Though the underlined statement presents a pattern of behavior (the habit of certain animals of staying within a fixed geographic range), the rest of the text does not present a theory of exceptions to that pattern; rather, the researchers are merely concerned with whether one particular animal has behavior consistent with the pattern. Choice C is incorrect. Though the underlined statement does describe a similarity in the behavior of certain animals (their tendency to stay within a fixed geographic range), this is not done in order to show why a method described later in the text failed to show whether another animal showed that behavior; rather, the method of analysis of strata of a woolly mammoth tusk showed that the mammoth’s behavior was different from that of the animals mentioned in the underlined statement. Choice D is incorrect. Though the

underlined statement mentions a trait shared by a number of animals (their fixed geographic range), the rest of the text does not present a hypothesis regarding the origin of that trait; rather, the researchers are concerned with whether another particular animal shares that trait.

Question Difficulty:
Hard

Question ID e26d23c4

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: e26d23c4

Proposals to raise the age at which retirees begin receiving government transfers of funds are generally discussed in terms of the effects on transfer recipients, but Andria Smythe has argued that delaying such transfers could _____ wealth creation among working adults by lengthening the period in which they are providing financial support to their nonworking parents.

Which choice completes the text with the most logical and precise word or phrase?

- A. stymie
- B. compound
- C. disparage
- D. outstrip

ID: e26d23c4 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most logically completes the text’s discussion of the consequences of raising the age at which retirees begin receiving government funds. The text indicates that raising the age for these funds is usually discussed in terms of effects on fund recipients but that Andria Smythe is instead considering the effects on working family members who care for retirees. Smythe notes that raising the age for the funds would increase the length of time retirees are dependent on financial assistance from working family members. This is suggested to have an effect on wealth creation for those workers, and most logically, that effect would be disadvantageous. Thus, "stymie," which means to prevent or greatly hinder, is the most logical choice in context.

Choice B is incorrect because in this context, "compound" would most nearly mean multiply or greatly enhance. The text indicates that raising the age at which retirees are eligible for government funds will increase the amount of time retirees are dependent on working family members for financial support. This would likely have a negative rather than a positive effect on wealth creation. Choice C is incorrect because in this context, "disparage" would most nearly mean criticize or defame. Nothing in the text suggests that raising the age at which retirees are eligible for government funds would defame wealth creation among working adults. Choice D is incorrect because in this context, "outstrip" would most nearly mean to exceed, and nothing in the text indicates that the financial support provided to retirees would exceed the amount of wealth these workers can create. The text does suggest that workers providing funds to retirees works against those workers’ wealth accumulation, but not that the support to retirees exceeds the workers’ accumulated wealth.

Question Difficulty:
Hard

Question ID acb852e7

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: acb852e7

The following text is from the 1923 poem “Black Finger” by Angelina Weld Grimké, a Black American writer. A cypress is a type of evergreen tree.

I have just seen a most beautiful thing,
Slim and still,
Against a gold, gold sky,
A straight black cypress,
Sensitive,
Exquisite,
A black finger
Pointing upwards.
Why, beautiful still finger, are you black?
And why are you pointing upwards?

Which choice best describes the overall structure of the text?

- A. The speaker assesses a natural phenomenon, then questions the accuracy of her assessment.
- B. The speaker describes a distinctive sight in nature, then ponders what meaning to attribute to that sight.
- C. The speaker presents an outdoor scene, then considers a human behavior occurring within that scene.
- D. The speaker examines her surroundings, then speculates about their influence on her emotional state.

ID: acb852e7 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most accurately describes the overall structure of the text. First, the speaker describes observing a “most beautiful” sight: a tree (“black cypress”) standing out from the golden sky behind it, looking like a person’s finger “pointing upwards” and appearing “sensitive” and “exquisite.” Then the speaker wonders about the image’s meaning, asking why the finger is black and why it’s pointing upward. Thus, the text moves from the speaker’s description of a distinctive sight in nature to her pondering about what meaning to attribute to that sight.

Choice A is incorrect because the speaker assesses a natural sight—a “black cypress” tree standing “against a gold, gold sky” like a pointed finger—but doesn’t question the accuracy of her own assessment. Although she wonders why the finger, which is really a tree, is black and why it’s pointing, the speaker doesn’t suggest that her belief that the tree resembles a finger is wrong. Choice C is incorrect. Although the speaker describes seeing a “black cypress” tree standing “against a gold, gold sky” like a pointed finger, she wonders about that natural image (asking why the finger, which is really a tree, is black and why it’s pointing) and doesn’t give any indication that any people are present in the scene. Choice D is incorrect. Although the speaker examines and wonders about one thing in her surroundings—a “black cypress” tree standing “against a gold, gold sky” like a pointed finger—she doesn’t address her own emotional state or consider how it’s affected by her surroundings.

Question Difficulty:
Medium

Question ID 98364791

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 98364791

In studying the use of external stimuli to reduce the itching sensation caused by an allergic histamine response, Louise Ward and colleagues found that while harmless applications of vibration or warming can provide a temporary distraction, such _____ stimuli actually offer less relief than a stimulus that seems less benign, like a mild electric shock.

Which choice completes the text with the most logical and precise word or phrase?

- A. deceptive
- B. innocuous
- C. novel
- D. impractical

ID: 98364791 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of Ward and colleagues’ findings. As used in this context, “innocuous” means mild or unharmed. The text describes the vibration and warming that Ward and colleagues used to alleviate itching as “harmless applications” and goes on to contrast these applications with another stimulus that actually offers more relief even though it seems to be stronger and “less benign.” This context conveys the idea that vibration and warming were innocuous stimuli.

Choice A is incorrect because the text focuses on a distinction between harmless stimuli and those that seem to be less benign. Nothing in the text suggests that any of the treatments are “deceptive,” or misleading; indeed, even the less effective ones are described as offering some relief. Choice C is incorrect because the text focuses on the amount of relief from itching offered by harmless stimuli and those that seem to be less benign. The text doesn’t suggest that any of these stimuli are “novel,” or original and new; heat, vibration, and electricity aren’t new inventions. Choice D is incorrect because it wouldn’t make sense to describe an application of vibration or warming as “impractical,” or not suitable for use. The text indicates that these harmless applications are useful in that they offer at least some temporary relief.

Question Difficulty:
Hard

Question ID adc8ea28

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: adc8ea28

The fossil remains of the individual known as Oase 1, discovered in Romania in 2002, can help paleoanthropologists not only _____ steps in the evolution of hominids but also illuminate the Pleistocene epoch generally, revealing important details about the time in which Oase 1 lived.

Which choice completes the text with the most logical and precise word or phrase?

- A. exploit
- B. discern
- C. prioritize
- D. yield

ID: adc8ea28 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of the utility of the Oase 1 fossil to paleoanthropologists. As used in this context, "discern" means to detect or recognize something, especially something hidden or obscure. The text indicates that the Oase 1 fossil can help paleoanthropologists recognize patterns in the evolutionary process and shed light on ("illuminate") the period in which Oase 1 lived. Thus, the fossil will enable researchers to gain insights into, or discern, facts that are still not well understood.

Choice A is incorrect because in this context, "exploit" would suggest that the paleoanthropologists are using "steps in the evolution of hominids," which does not make logical sense. Rather, the text is about how the Oase 1 fossil could help paleoanthropologists learn about hominid evolution and the Pleistocene epoch more generally. Choice C is incorrect because in this context, "prioritize" would suggest that either the paleoanthropologists are placing more importance on "steps in the evolution of hominids" than they are on something else not identified in the text or that they are placing these steps in some sort of order. Rather, the text is about how the Oase 1 fossil could help paleoanthropologists learn about hominid evolution and the Pleistocene epoch more generally. Choice D is incorrect because to say that paleoanthropologists could "yield" or generate "steps in the evolution of hominids" doesn’t make sense. The researchers may develop new insights into those evolutionary steps, but they do not create those steps themselves. Rather, the context makes it clear that they are detecting or discovering patterns based on their study of the Oase 1 fossil.

Question Difficulty:

Question ID 9107ad5c

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 9107ad5c

Stars form in cloudlike swirls of gas and dust that cannot be touched, but astrophysicist Nia Imara believes these formations need not remain completely _____ to researchers: she uses simulation data and sophisticated 3D printers to produce interactive models of these stellar nurseries.

Which choice completes the text with the most logical and precise word or phrase?

- A. repeatable
- B. explicable
- C. regrettable
- D. intangible

ID: 9107ad5c Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of how Nia Imara facilitates the study of star formations. As used in this context "intangible" means unable to be physically handled or touched. The text states that star formations cannot be touched, and then goes on to explain that Imara created a special model to research star formations. In other words, despite the fact that real star formations are intangible, thanks to Imara, researchers can handle models of star formations to better understand them.

Choice A is incorrect because "repeatable" means can be duplicated or done again, which wouldn’t make sense in context. The text indicates that the swirls of gas and dust in which stars form are untouchable, but that Nia Imara has produced interactive models of them. It would therefore be illogical to suggest that Imara believes that the formations need not be duplicated and then go on to say that she has copied them. Choice B is incorrect because "explicable" means explainable or understandable, which wouldn’t make sense in context. The text does not suggest that Nia Imara believes that star formations can be fully explained but rather that she produced interactive models to physically study them because researchers are unable to touch them directly. Choice C is incorrect because "regrettable" means distressing or unfortunate, which wouldn’t make sense in context. The text does not suggest that Imara believes the researchers regret the star formations or find them distressing, but rather that she uses interactive models to physically study them.

Question Difficulty:
Medium

Question ID 10c236ce

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 10c236ce

Text corpora such as the Bank of English are enormous collections of electronically stored texts that can be used for empirical testing of hypotheses regarding the frequency of typical word usage. If one has a _____ that the word “get” has a high incidence in English, for example, an analysis of a corpus can support that hypothesis by showing that “get” is the fifth most commonly used verb.

Which choice completes the text with the most logical and precise word or phrase?

- A. recognition
- B. scheme
- C. supposition
- D. synopsis

ID: 10c236ce Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of testing hypotheses regarding usage by means of text corpora. In this context, "supposition" refers to an assumption or hypothesis that is not yet proven. The text explains that text corpora can be used for "empirical testing of hypotheses regarding the frequency of typical word usage" and then provides a specific example of using corpus analysis to support a claim about the word "get." The word "supposition" precisely conveys this idea of an assumption or hypothesis about word frequency that can then be tested against empirical data.

Choice A is incorrect because it wouldn’t make sense to say that someone has a "recognition" that the word "get" has a high incidence in English. Recognition implies acknowledging something already established as true or valid, but the text indicates that corpus analysis is needed to support the claim about "get," suggesting its high frequency wasn’t already established or previously known. Choice B is incorrect because it wouldn’t make sense to say that someone has a "scheme" that the word "get" has a high incidence in English. A scheme is a plan or systematic arrangement, but the context indicates what’s needed is a preliminary hypothesis that can be tested with corpus data, not a plan related to word frequency. Choice D is incorrect because it wouldn’t make sense to say that someone has a "synopsis" that the word "get" has a high incidence in English. A synopsis is a summary or outline, but the text is discussing an initial hypothesis about word frequency that requires testing, not a condensed statement of existing information.

Question ID 65406d2c

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 65406d2c

Dubautia carrii is a species in a family of plants known collectively as the silversword alliance, all of which grow only on the Hawaiian Islands. Members of this alliance exhibit an extraordinary range of phenotypes, with some species maturing into vines and others into shrubs and trees. All species in the alliance descended from a single ancestral tarweed plant that arrived on the islands around 5 million years ago. The tarweed’s descendants diversified into distinct species as they adapted to live in the wide variety of habitats found on the Hawaiian Islands.

Which choice best states the main purpose of the text?

- A. To indicate the specific tarweed ancestor of all plants that grow on the Hawaiian Islands and explain why the plants have such varied physical characteristics
- B. To describe the specific habitat where *Dubautia carrii* are found and identify other plants that share a common ancestor with them
- C. To describe the silversword alliance and explain how the plant family became so varied
- D. To advance the claim that all plants on the Hawaiian Islands are part of the silversword alliance and list possible ancestors of the plants that make up the alliance

ID: 65406d2c Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most accurately describes the main purpose of the text, which is to describe the family of plants known as the silversword alliance and explain why the plants came to exhibit "an extraordinary range of phenotypes." The text introduces the silversword alliance as a family of plants unique to the Hawaiian Islands, presenting those that mature into vines and those that mature into shrubs and trees as examples of different phenotypes. The text concludes by explaining that these plants are all descendants of "a single ancestral tarweed plant" that arrived 5 million years ago in the Hawaiian Islands, where a "wide variety of habitats" drove the plant’s descendants to adapt and thus differentiate themselves, diversifying into a group of related but distinct species with different physical characteristics.

Choice A is incorrect. Although the text explains why the plants within the silversword alliance have varied physical characteristics, the text doesn’t suggest that tarweed is the ancestor of all plants on the Hawaiian Islands. The text states instead that all members of the silversword alliance descend from a single tarweed ancestor. Choice B is incorrect because while *Dubautia carrii* is mentioned as an example of a species in the silversword alliance, no details about its particular habitat are provided. And although the text indicates that the Hawaiian Islands are home to "a wide variety of habitats," it doesn’t describe the specific habitat where *Dubautia carrii* is found. The text discusses the silversword alliance as a whole rather than focusing on *Dubautia carrii* or any one species within this family. Choice D is incorrect. Although the silversword alliance is only found on the Hawaiian Islands and includes "an extraordinary range of phenotypes," the text doesn’t claim that all plants on the Hawaiian Islands are part of the alliance. Furthermore, the text indicates that these plants all "descended from a single ancestral tarweed plant," not that there are multiple possible candidates for that ancestor plant.

Question Difficulty:

Hard

Question ID 7bc05fa2

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 7bc05fa2

Whether the reign of a French monarch such as Hugh Capet or Henry I was historically consequential or relatively uneventful, its trajectory was shaped by questions of legitimacy and therefore cannot be understood without a corollary understanding of the factors that allowed the monarch to _____ his right to hold the throne.

Which choice completes the text with the most logical and precise word or phrase?

- A. disengage
- B. annotate
- C. buttress
- D. reciprocate

ID: 7bc05fa2 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of the legitimacy of the reigns of French monarchs such as Hugh Capet and Henry I. As used in this context, “buttress” means to strengthen or defend. The text indicates that regardless of whether a French monarch’s reign was significant or uneventful, each monarch faced questions about his right to the throne. The text goes on to say that in order to understand the path of a French monarch’s reign, it’s important to understand what contributed to the monarch’s ability to “hold the throne.” This context suggests that French monarchs such as Hugh Capet and Henry I had to buttress, or defend, their right to be monarch.

Choice A is incorrect because it wouldn’t make sense in context to discuss factors that enabled a monarch to “disengage,” or withdraw his right to the French throne. The text focuses on an examination of people who reigned as French monarchs, not on people who didn’t choose to rule. Choice B is incorrect because it wouldn’t make sense in context to discuss factors that enabled a monarch to “annotate,” or add notes to or explain, his right to the French throne. Nothing in the text suggests that the monarchs were writing notes about their right to the throne; instead, faced with questions about the legitimacy of their reign, the monarchs defended their right. Choice D is incorrect. Saying that a monarch who is faced with questions about the legitimacy of his reign was able to “reciprocate” his right to the French throne would mean that he either returned his right to the throne or that he responded in kind to the challenge. Neither of these meanings would make sense in context because the text focuses on people who did reign as French monarchs and defended their right to do so.

Question Difficulty:
Hard

Question ID 1455b754

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 1455b754

While recent scholarship has undermined claims that the works of twelfth-century Islamic philosopher Ibn Rushd were _____ other Muslim philosophers of his time, it is indisputable that his location in the Muslim-ruled area of what is now Spain meant that his works were primarily available thousands of miles west of the era’s center of Islamic thought.

Which choice completes the text with the most logical and precise word or phrase?

- A. controversial among
- B. antagonistic toward
- C. imitated by
- D. inconsequential to

ID: 1455b754 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of the twelfth-century Islamic philosopher Ibn Rushd. As used in this context, "inconsequential to" means not significant to. According to the text, Ibn Rushd’s works were primarily available in Spain, where he lived, far from central areas of the Muslim world, a fact that could support the conclusion that his influence on Muslim contemporaries was limited. The text implies, however, that recent scholarship has shown that his works still had an impact on other Muslim philosophers of his time. This context supports the idea that his works weren’t inconsequential to Islamic thought in this period.

Choice A is incorrect because the issue under consideration in the text is whether other Muslim philosophers of Ibn Rushd’s time had access to his works, not whether his works were "controversial among," or causing dispute among, other philosophers. Choice B is incorrect. The text implies that other Muslim philosophers of Ibn Rushd’s era were aware of his works, not that they were "antagonistic toward," or hostile toward, them. There is no suggestion that Ibn Rushd’s writings elicited hostility from his contemporaries. Choice C is incorrect because in this context, "imitated by" would mean followed as a model by. Although the text implies that Ibn Rushd’s works were at least somewhat available in regions that were at the center of Islamic thought during the period, it doesn’t specifically address in what ways his works influenced contemporary Muslim philosophers. Thus, the text doesn’t support the idea that other philosophers modeled their own works after Ibn Rushd’s works.

Question Difficulty:
Hard

Question ID 5336f2e4

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 5336f2e4

The following text is adapted from Zora Neale Hurston’s 1921 short story “John Redding Goes to Sea.” John is a child who lives in a town in the woods.

Perhaps ten-year-old John was puzzling to the folk there in the Florida woods for he was an imaginative child and fond of day-dreams. The St. John River flowed a scarce three hundred feet from his back door. On its banks at this point grow numerous palms, luxuriant magnolias and bay trees. On the bosom of the stream float millions of delicately colored hyacinths. [John Redding] loved to wander down to the water’s edge, and, casting in dry twigs, watch them sail away down stream to Jacksonville, the sea, the wide world and [he] wanted to follow them.

Which choice best describes the function of the underlined sentence in the text as a whole?

- A. It provides an extended description of a location that John likes to visit.
- B. It reveals that some residents of John’s town are confused by his behavior.
- C. It illustrates the uniqueness of John’s imagination compared to the imaginations of other children.
- D. It suggests that John longs to experience a larger life outside the Florida woods.

ID: 5336f2e4 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it accurately describes how the underlined sentence functions in the text as a whole. The text establishes that John has a strong imagination and then goes on to describe the St. John River near John’s home in the Florida woods. The underlined sentence depicts John sending twigs sailing down the river while he imagines them reaching “Jacksonville, the sea, the wide world,” where he wishes he could follow. This suggests that John longs to expand his life experiences beyond the Florida woods.

Choice A is incorrect because the second and third sentences of the text provide an extended description of the riverbank where John likes to go, whereas the underlined sentence describes what John does at that location. Choice B is incorrect because the first sentence of the text suggests that John’s behavior “was puzzling” to others around him, whereas the underlined sentence concerns the content of John’s imaginings. Choice C is incorrect because the underlined sentence elaborates on John’s imagination but doesn’t mention any other children to whom John could be compared.

Question Difficulty:
Hard

Question ID 6f5fc289

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 6f5fc289

The following text is adapted from Charles Dickens’s 1854 novel *Hard Times*. Coketown is a fictional town in England. [Coketown] contained several large streets all very like one another, and many small streets still more like one another, inhabited by people equally like one another, who all went in and out at the same hours, with the same sound upon the same pavements, to do the same work, and to whom every day was the same as yesterday and tomorrow, and every year the counterpart of the last and the next.

- Which choice best states the main purpose of the text?
- A. To emphasize the uniformity of both the town and the people who live there
 - B. To explain the limited work opportunities available to the town’s residents
 - C. To reveal how the predictability of the town makes it easy for people lose track of time
 - D. To argue that the simplicity of life in the town makes it a pleasant place to live

ID: 6f5fc289 Answer

Correct Answer:
A

Rationale

Choice A is the best answer. The author describes Coketown as having streets that are all very similar and residents who live similarly and do the same work. This repetition of similarities emphasizes how everything in Coketown is alike.

Choice B is incorrect. While the text mentions that all the residents “do the same work,” it never explains what that work is or why everyone does it. Besides, the idea that they all do the same work is just one of several similarities among the townspeople described in the text. Choice C is incorrect. While the last sentence states that “every day was the same as yesterday and tomorrow, and every year the counterpart of the last and the next,” it never suggests that people actually “lose track of time.” This is also too narrow to be the main idea, since time is just one of many aspects of Coketown that the text describes as always being the same. Choice D is incorrect. The text never mentions whether life is simple in Coketown, and the town sounds as though it’s probably a pretty dull place to live, rather than a pleasant one.

Question Difficulty:
Medium

Question ID 4830ab87

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 4830ab87

The way in which individual elements are balanced within a photographic image tends to affect how viewers perceive it: symmetry tends to give the elements equal importance, asymmetry emphasizes differences, and radial balance (organizing the elements around a central point) emphasizes the center over the periphery. What a photograph conveys is therefore largely _____ how it is balanced.

Which choice completes the text with the most logical and precise word or phrase?

- A. inhibited by
- B. contingent on
- C. obligated to
- D. reserved for

ID: 4830ab87 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of visual balance in photography. In this context, "contingent on" means conditional upon, or determined by. The text indicates that different ways of balancing elements in a photograph convey different ideas to viewers (for example, symmetrical composition tends to emphasize similarity among elements, whereas asymmetry tends to emphasize difference). Thus, there is a strong connection between what a photograph conveys and how its elements are balanced. Therefore, what a photo conveys is contingent on how it is balanced.

Choice A is incorrect. In this context, "inhibited by" most nearly means hindered or undermined by. The text indicates that different ways of balancing elements in a photograph convey different ideas to viewers, thereby indicating a relationship between image balance and what is conveyed. Although this explanation is consistent with a photographer choosing asymmetrical balance even while intending to convey similarity (associated with symmetrical balance), there is nothing to indicate that messages generally are inhibited by balance. Rather the implication is that balance is a tool photographers can use to craft their messages. Choice C is incorrect. In this context, "obligated to" means duty bound toward or answerable to. In context, it would not make sense to assert that a photograph’s message is obligated to how that photograph is balanced. Choice D is incorrect. In this context, "reserved for" most nearly means solely available to someone or held aside for some purpose. The text as a whole does not support the claim that a photograph’s message is reserved for how that photograph is balanced.

Question Difficulty:
Medium

Question ID e8c26398

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: e8c26398

To develop a method for measuring snow depth with laser beams, NASA physicist Yongxiang Hu relied on ____; identifying broad similarities between two seemingly different phenomena, Hu used information about how ants move inside colonies to calculate how the particles of light that make up laser beams travel through snow.

Which choice completes the text with the most logical and precise word or phrase?

- A. a collaboration
- B. an accessory
- C. a contradiction
- D. an analogy

ID: e8c26398 Answer

Correct Answer:
D

Rationale

Choice D is the best answer. The text after the semicolon tells us that Hu "identif[ied] broad similarities between two seemingly different phenomena," comparing ants with light particles. Since an analogy seeks similarities between seemingly unrelated phenomena, this fits the context perfectly.

Choice A is incorrect. "A collaboration" refers to "an act of working with others," but what comes after the semicolon doesn't describe collaboration with other researchers. Instead, it shows a comparison between two different (but ultimately similar) scientific phenomena. Choice B is incorrect. "An accessory" can refer to "something added to increase attractiveness or usefulness." No accessories are described in this text. Choice C is incorrect. "A contradiction" means "a set of ideas or things that are opposed to or inconsistent with each other." The text describes how Hu used the similarity between ant and light particle movement to develop his method, so a word that refers to difference would not make sense here.

Question Difficulty:
Medium

Question ID bdab32fc

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: bdab32fc

Cucurbits, a group of plants that includes squash and melons, relied on mastodons to spread their seeds in the Ice Age. When these animals died out, cucurbits faced extinction in turn, having lost their means of seed dispersal. Around this time, however, the ancestors of Indigenous peoples in North America began raising cucurbits as crops, thus _____ the plants’ survival.

Which choice completes the text with the most logical and precise word or phrase?

- A. verifying
- B. multiplying
- C. comforting
- D. ensuring

ID: bdab32fc Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of cucurbits. In this context, “ensuring” means guaranteeing, or making sure of, the cucurbits’ survival. The text states that cucurbits faced extinction in the past because their means of seed dispersal disappeared, but the ancestors of Indigenous peoples in North America began farming cucurbits around that same time, so the crops were no longer threatened. Therefore, the context supports the idea that the ancestors of Indigenous peoples in North America helped with ensuring the cucurbits’ survival.

Choice A is incorrect because in this context verifying means making sure that something is accurate. In the text, the ancestors of Indigenous peoples in North America were ensuring the survival, not the accuracy of, the cucurbits. Choice B is incorrect. Although the cucurbit crops themselves were multiplying, or growing in number, as a result of the work of the ancestors of Indigenous peoples in North America, it wouldn’t make sense in context to say that the survival of the plants was multiplying. Choice C is incorrect because according to the text, in raising cucurbits as crops, the ancestors of Indigenous peoples in North America were attempting to help the plants grow and survive; they weren’t attempting to comfort, or free the plants from pain.

Question Difficulty:
Easy

Question ID f3c45b4f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: f3c45b4f

Text 1

Fossils of the hominin *Australopithecus africanus* have been found in the Sterkfontein Caves of South Africa, but assigning an age to the fossils is challenging because of the unreliability of dating methods in this context. The geology of Sterkfontein has caused soil layers from different periods to mix, impeding stratigraphic dating, and dates cannot be reliably imputed from those of nearby animal bones since the bones may have been relocated by flooding.

Text 2

Archaeologists used new cosmogenic nuclide dating techniques to reevaluate the ages of *A. africanus* fossils found in the Sterkfontein Caves. This technique involves analyzing the cosmogenic nucleotides in the breccia—the matrix of rock fragments immediately surrounding the fossils. The researchers assert that this approach avoids the potential for misdating associated with assigning ages based on Sterkfontein’s soil layers or animal bones.

Based on the texts, how would the researchers in Text 2 most likely respond to the underlined portion in Text 1?

- A. They would emphasize the fact that the *A. africanus* fossils found in the Sterkfontein Caves may have been corrupted in some way over the years.
- B. They would contend that if analyses of surrounding layers and bones in the Sterkfontein Caves were combined, then the dating of the fossils there would be more accurate.
- C. They would argue that their techniques are better suited than other methods to the unique challenges posed by the Sterkfontein Caves.
- D. They would claim that cosmogenic nuclide dating is reliable in the context of the Sterkfontein Caves because it is applied to the fossils directly.

ID: f3c45b4f Answer

Correct Answer:
C

Rationale

Choice C is the best answer. Text 2 states that the researchers used cosmogenic nuclide dating to "avoid the potential for misdating" caused by the geology of Sterkfontein, which Text 1 describes as "challenging" and unreliable.

Choice A is incorrect. Neither text suggests that the *A. africanus* fossils have been "corrupted," but only that traditional dating methods are difficult in Sterkfontein because of floods and soil mixing where the fossils were found. Nothing is implied to have compromised the fossils themselves. Choice B is incorrect. This choice misreads Text 2. Text 2 agrees that stratigraphy and other methods are prone to error in the context of Sterkfontein: there’s a "potential for misdating" when evaluating age based on soil layers and bones. Choice D is incorrect. Text 2 does not state that cosmogenic nuclide dating is applied to the fossils directly but rather to the breccia that surrounds them.

Question Difficulty:
Hard

Question ID 3e6ad72d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 3e6ad72d

A study by a team including finance professor Madhu Veeraraghavan suggests that exposure to sunshine during the workday can lead to overly optimistic behavior. Using data spanning from 1994 to 2010 for a set of US companies, the team compared over 29,000 annual earnings forecasts to the actual earnings later reported by those companies. The team found that the greater the exposure to sunshine at work in the two weeks before a manager submitted an earnings forecast, the more the manager’s forecast exceeded what the company actually earned that year.

Which choice best states the function of the underlined sentence in the overall structure of the text?

- A. To summarize the results of the team’s analysis
- B. To present a specific example that illustrates the study’s findings
- C. To explain part of the methodology used in the team’s study
- D. To call out a challenge the team faced in conducting its analysis

ID: 3e6ad72d Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it best describes how the underlined sentence functions in the text as a whole. The first sentence presents the implications of Veeraraghavan’s team’s study: sunshine exposure during work hours can cause overly optimistic behavior. The underlined sentence then describes the data the team consulted and how they were used (comparing predictions about earnings to what the companies actually earned), and the final sentence presents what the team found in their examination of the data. Thus, the underlined sentence mainly functions to explain part of the methodology used in the team’s study.

Choice A is incorrect because the underlined sentence explains in part how the team conducted their analysis of the effect of sunshine but doesn’t address what the team found; a broad summary is instead given in the other two sentences. Choice B is incorrect because the underlined sentence doesn’t present any specific examples from the team’s comparisons of 29,000 earnings predictions to actual earnings; it simply explains in part how the team conducted their analysis. Choice D is incorrect because the underlined sentence simply explains in part how the team conducted their analysis; the text never mentions any challenges that the team encountered in their study.

Question Difficulty:
Hard

Question ID 5514fd1f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 5514fd1f

Archaeologist Erika Karuzas works with the Confederated Salish and Kootenai Tribes of Montana to preserve culturally significant sites. In 2015 they decided that creating a new national trail connecting many of these sites would _____ their preservation efforts, because the US government provides some protections to national trails that aren't given to other areas.

Which choice completes the text with the most logical and precise word or phrase?

- A. inspire
- B. ignore
- C. promote
- D. reduce

ID: 5514fd1f Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text's discussion of the preservation efforts undertaken by Erika Karuzas and the Confederated Salish and Kootenai Tribes of Montana. In this context, "promote" means play a part in the success or growth of something or someone. The text indicates that Karuzas and the Confederated Salish and Kootenai Tribes work to preserve culturally important sites. It goes on to say that their decision to create a national trail connecting the sites was motivated by the fact that such a trail would receive protections from the US government that the sites wouldn't otherwise receive. Thus, such a decision would promote the preservation efforts.

Choice A is incorrect because "inspire" means motivate or influence, which wouldn't make sense in context. The text establishes that Karuzas and the Confederated Salish and Kootenai Tribes of Montana work to preserve culturally significant sites and that their decision to create a new national trail occurred as a result of a desire to add protections to the sites that they wouldn't otherwise receive. Thus, creating the trail wouldn't inspire the efforts to preserve the sites; instead, it would promote the efforts. Choice B is incorrect because "ignore" means overlook, which wouldn't make sense in context. The text indicates that Karuzas and the Confederated Salish and Kootenai Tribes of Montana work to preserve culturally significant sites and that they decided to create a national trail connecting the sites because such a trail would receive protections from the US government that the sites wouldn't otherwise receive. Thus, the creation of the trail would promote, not ignore, the preservation efforts. Choice D is incorrect because "reduce" means decrease or restrict, which wouldn't make sense in context. The text indicates that Karuzas and the Confederated Salish and Kootenai Tribes of Montana work to preserve culturally significant sites and that they decided to create a national trail connecting the sites because such a trail would receive protections from the US government that the sites wouldn't otherwise receive. The decision would therefore promote, not reduce, the preservation efforts.

Question Difficulty:
Easy

Question ID 84f9b577

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 84f9b577

The following text is from Jhumpa Lahiri’s 2003 novel *The Namesake*. Gogol, a child, is at a beach in Massachusetts with his father.

On the beach Gogol collects rocks, digs tunnels in the sand. He and his father wander barefoot, their pant legs rolled halfway up their calves.

©2003 by Jhumpa Lahiri

As used in the text, what does the word “collects” most nearly mean?

- A. Increases
- B. Makes
- C. Ignores
- D. Gathers

ID: 84f9b577 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because as used in the text, "collects" most nearly means gathers or accumulates. In the text, Gogol "collects" (or gathers) rocks and digs in the sand while strolling the beach with his father. Thus, "gathers" is the best answer.

Choice A is incorrect because in this context, "increases" would mean expands or inflates, which is not something a child could logically do to rocks. Rather, the text indicates that Gogol "collects" or gathers rocks while strolling the beach with his father. Choice B is incorrect because in this context, "makes" would suggest that Gogol is creating or manufacturing rocks, which doesn’t make sense. Rather, the text indicates that Gogol "collects" or gathers rocks while strolling the beach with his father. Choice C is incorrect because in this context, "ignores" would mean disregards or avoids, but in the text Gogol "collects rocks," which indicates that he’s engaging with the rocks, not ignoring them.

Question Difficulty:
Easy

Question ID d2a90d4f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: d2a90d4f

The majority of plastics today wind up in landfills or are, at best, recycled into materials that have a very limited range of applications. To address this problem, chemist Guoliang Liu and colleagues designed a reactor that melts polyethylene and polypropylene—two widely used plastics—into a wax. The wax can then be transformed into a surfactant (a chemical compound usable as a detergent). With this promising new method, plastic waste could be turned into a range of useful cleaning products.

Which choice best states the function of the underlined portion of the text?

- A. It clarifies the meaning of a scientific term.
- B. It describes an environmental concern.
- C. It explains the significance of a scientific discovery.
- D. It identifies a result that confused the team.

ID: d2a90d4f Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most accurately describes how the underlined phrase functions in the text as a whole. The text states that the wax produced by Liu and colleagues’ reactor can be turned into a surfactant. The underlined phrase, which is set off with parentheses, then provides a definition for the term "surfactant," explaining that it’s a chemical compound that can be used as a detergent. Thus, the underlined portion of the text functions to clarify the meaning of a scientific term.

Choice B is incorrect. Though the text as a whole focuses broadly on an environmental concern, the underlined phrase does not; it simply indicates what a surfactant is. Choice C is incorrect. Though the text as a whole focuses on a scientific discovery (Liu and colleagues’ solution to the problem of plastic recycling), the underlined phrase does not explain its significance; it simply defines a scientific term used in the discussion. Choice D is incorrect. Though the text as a whole includes discussion of the result found by Liu and colleagues, the underlined phrase does not discuss it; it simply defines a scientific term used in the discussion. Additionally, at no point in the text is it mentioned that the team was confused.

Question Difficulty:
Easy

Question ID daaed806

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: daaed806

Mônica Lopes-Ferreira and others at Brazil’s Butantan Institute are studying the freshwater stingray species *Potamotrygon rex* to determine whether biological characteristics such as the rays’ age and sex have _____ effect on the toxicity of their venom—that is, to see if differences in these traits are associated with considerable variations in venom potency.

Which choice completes the text with the most logical and precise word or phrase?

- A. a disconcerting
- B. an acceptable
- C. an imperceptible
- D. a substantial

ID: daaed806 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of the research that Lopes-Ferreira and her colleagues are conducting on the stingray species *Potamotrygon rex*. As used in this context, “a substantial” effect means an effect that is sizable or noteworthy. The text indicates that the researchers are seeking to determine whether there are “considerable variations” in the potency of stingray venom that are associated with variation in the stingrays’ age and sex. This context suggests that the researchers want to find out whether stingray age and sex have a substantial effect on venom toxicity.

Choice A is incorrect because there’s nothing in the text that suggests that the researchers have been studying whether the stingrays’ age and sex have “a disconcerting,” or an unsettling and disturbing, effect on the stingrays’ venom. The text indicates that the researchers wish to determine if stingray age and sex cause large variations in the toxicity of stingray venom, not if the effect of age and sex is disconcerting. Choice B is incorrect because the text indicates that researchers want to find out whether differences in stingray age and sex produce differences in stingray venom, not that the researchers want to find out whether age and sex have “an acceptable,” or a satisfactory, effect on venom. The text makes no mention of what would make an effect on venom toxicity acceptable and gives no indication that the researchers are interested in that question. Choice C is incorrect because it wouldn’t make sense in context for the researchers to be looking for “an imperceptible,” or an unnoticeable, effect of age and sex on stingray venom. The text says that the researchers are trying to determine if there are “considerable variations” in venom toxicity linked to age and sex, not that the researchers are trying to find effects that they can’t perceive.

Question Difficulty:
Easy

Question ID 9b22bf7b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 9b22bf7b

The following text is from the 1989 novel *The Ancient Child* by Kiowa writer N. Scott Momaday. The main character has achieved tremendous commercial success as a painter.

More and more often he was asked to compromise his art or himself in one way or another, and more often than not he did so, for he was inclined to be passive and naïve; it was difficult for him to say no. Those who exhibited his work, who praised and purchased it, and who demanded its proliferation began to determine it.

©1989 by N. Scott Momaday

As used in the text, what does the word “determine” most nearly mean?

- A. Conclude
- B. Dictate
- C. Evaluate
- D. Select

ID: 9b22bf7b Answer

Correct Answer:
B

Rationale

Choice B is the best answer because as used in the text "determine" most nearly means "dictate." The text describes the relationship between the main character and those who exhibit, praise, and purchase his artwork. The text states that the main character is often asked to change his art or himself based on outside influences, and he usually acquiesces. Because the main character admits that those who support his work often shape it based on their demands, it follows that those outside influences dictate, or guide or dominate, the direction his work takes.

Choice A is incorrect because the text doesn't suggest that outside influences "conclude," or end, the main character's work. The text states that many supporters of the main character's art "demand its proliferation," not its conclusion. Choice C is incorrect because the text doesn't suggest that outside influences are "evaluating," or judging the main character's work. According to the text, the main character's art has already achieved great commercial success, with many people exhibiting, purchasing, and praising his work. Thus, outsiders have already supported the main character's work and are not questioning or evaluating its success or worth. They are instead influencing its initial direction. Choice D is incorrect because the text doesn't suggest that outside influences "select," or choose the main character's work. According to the text, the main character's art has already achieved great commercial success, with many people exhibiting, purchasing, and praising his work. Thus, outsiders have already supported the main character's work and are not selecting it. They are instead influencing its initial direction.

Question Difficulty:

Question ID cf9a00e0

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: cf9a00e0

Chile’s Atacama Desert is one of the driest places on Earth. Mary Beth Wilhelm and other astrobiologists search for life, or its remains, in this harsh place because the desert closely mirrors the extreme environment on Mars. The algae and bacteria found in Atacama’s driest regions may offer clues about Martian life. By studying how these and other microorganisms survive such extreme conditions on Earth, Wilhelm’s team hopes to determine whether similar life might have existed on Mars and to develop the best tools to look for evidence of it.

Which choice best describes the function of the underlined sentence in the text as a whole?

- A. To contrast the conditions in the Atacama Desert with those on Mars
- B. To explain why many life-forms cannot survive in the Atacama Desert
- C. To indicate why astrobiologists choose to conduct research in the Atacama Desert
- D. To describe certain limitations to conducting scientific study in the Atacama Desert

ID: cf9a00e0 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most accurately describes how the underlined sentence functions in the text as a whole. The first sentence describes a unique location on Earth, the Atacama Desert. The next sentence, which is the underlined sentence, states that the reason why astrobiologists study life, or its remains, in this unique location is that Atacama is a harsh environment that closely resembles the extreme environment of Mars. The remainder of the text explains that the researchers hope their work in Atacama will support inquiry into life on Mars. Thus, the underlined portion functions mainly to indicate why astrobiologists choose to conduct research in the Atacama Desert.

Choice A is incorrect because to contrast two things means to show the differences between them, and the phrase "closely mirrors" in the underlined sentence indicates that the extreme environment in the Atacama Desert is similar to, not different from, that on Mars. This similarity is why, according to the underlined sentence, astrobiologists conduct research in Atacama. Choice B is incorrect because the underlined sentence doesn’t address forms of life that are unable to survive the harsh environment of the Atacama Desert. Instead, the underlined sentence explains why astrobiologists study life, or its remains, in this environment. Choice D is incorrect because the underlined sentence doesn’t suggest that the scientific research in the Atacama Desert is limited in any way; instead, the sentence explains that the similarity between the environments of Atacama and Mars is the reason why astrobiologists search for life, or its remains, in Atacama.

Text 1

Today the starchy root cassava is found in many dishes across West Africa, but its rise to popularity was slow. Portuguese traders brought cassava from Brazil to the West African coast in the 1500s. But at this time, people living in the capitals further inland had little contact with coastal communities. Thus, cassava remained relatively unknown to most of the region’s inhabitants until the 1800s.

Text 2

Cassava’s slow adoption into the diet of West Africans is mainly due to the nature of the crop itself. If not cooked properly, cassava can be toxic. Knowledge of how to properly prepare cassava needed to spread before the food could grow in popularity. The arrival of formerly enslaved people from Brazil in the 1800s, who brought their knowledge of cassava and its preparation with them, thus directly fueled the spread of this crop.

Based on the texts, the author of Text 1 and the author of Text 2 would most likely agree with which statement?

- A. Cassava did not become a significant crop in West Africa until long after it was first introduced.
- B. Several of the most commonly grown crops in West Africa are originally from Brazil.
- C. The climate of the West African coast in the 1500s prevented cassava’s spread in the region.
- D. The most commonly used methods to cook cassava today date to the 1500s.

ID: c68ceeff Answer

Correct Answer:

A

Rationale

Choice A is the best answer. Text 1 states that cassava’s “rise to popularity was slow” in West Africa. Text 2 also describes cassava’s “slow adoption into the diet of West Africans.” While the two texts identify different causes for this slow adoption, both agree that cassava took a long time to catch on.

Choice B is incorrect. This isn’t something that either text claims. Cassava is the only crop discussed in the passages, so we have no basis to draw conclusions about what the authors might say about “several” crops. Choice C is incorrect. This isn’t something that either text claims. Neither text mentions the “climate of the West African coast,” so we have no evidence that either author would agree with this. Choice D is incorrect. This isn’t something that either text claims. The 1500s were when cassava was brought to West Africa, but neither text describes how cassava is cooked, nor do they make any claims about when cooking methods were developed.

Question ID ab1bd603

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: ab1bd603

The following text is adapted from Upton Sinclair’s 1906 novel *The Jungle*. Marija is helping to manage her sister’s wedding.

It was [Marija’s] task to see that all things went in due form, and after the best home traditions; and, flying wildly hither and thither, bowling every one out of the way, and scolding and exhorting all day with her tremendous voice, Marija was too eager to see that others conformed to the proprieties to consider them herself.

As used in the text, what does the word “consider” most nearly mean?

- A. Take into account and follow
- B. Admire steadily and praise
- C. Come to a decision about
- D. Have an opinion on

ID: ab1bd603 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because as used in the text, "consider" most nearly means to take into account and follow. The text explains that Marija’s job was to make sure that her sister’s wedding proceeded in certain ways ("in due form") and that she loudly directed everyone’s actions all day. The text then indicates that Marija was so focused on ensuring that others "conformed to the proprieties"—that is, that they behaved in appropriate ways—that she failed to "consider them herself"; that is, she didn’t take standards of appropriate behavior into account and follow them in her own actions.

Choice B is incorrect. In some contexts, "consider" can mean to think about something in a positive way—which can involve admiration—but the text doesn’t suggest that Marija was so busy imposing "proprieties" (standards of appropriate behavior) on others that she didn’t admire and praise them herself. The context suggests it’s more likely that Marija did speak positively of "due form" and "the best home traditions" while ensuring others behaved in certain ways. Choice C is incorrect. In some contexts, "consider" can mean to come to a decision, but the text doesn’t suggest that Marija wasn’t able to make a decision for herself about the "proprieties" (standards of appropriate behavior) she ensured everyone else conformed to. Rather, the context conveys that Marija knew very clearly which behaviors others should follow as "due form" and "the best home traditions." Choice D is incorrect. In some contexts, "consider" can mean to have an opinion, but the text doesn’t suggest that Marija wasn’t able to have an opinion on the "proprieties" (standards of appropriate behavior) she was ensuring others conformed to. Rather, the context conveys that Marija had strong feelings about which behaviors were "due form" and "the best home traditions."

Question ID b4887dae

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: b4887dae

Mathematician Claude Shannon is widely regarded as a foundational figure in information theory. His most important paper, “A Mathematical Theory of Communication,” published in 1948 when he was employed at Bell Labs, utilized a concept called a “binary digit” (shortened to “bit”) to measure the amount of information in any signal and determine the fastest rate at which information could be transmitted while still being reliably decipherable. Robert Gallager, one of Shannon’s colleagues, said that the bit was “[Shannon’s] discovery, and from it the whole communications revolution has sprung.”

Which choice best describes the overall structure of the text?

- A. It presents a theoretical concept, illustrates how the name of the concept has changed, and shows how the name has entered common usage.
- B. It introduces a respected researcher, describes an aspect of his work, and suggests why the work is historically significant.
- C. It names the company where an important mathematician worked, details the mathematician’s career at the company, and provides an example of the recognition he received there.
- D. It mentions a paper, offers a summary of the paper’s findings, and presents a researcher’s commentary on the paper.

ID: b4887dae Answer

Correct Answer:
B

Rationale

Choice B is the best answer. The text starts with a general statement that introduces Shannon, then describes a specific contribution from one of his papers, then provides a quote that illustrates just how important this contribution was.

Choice A is incorrect. This isn’t the overall structure. The text only mentions very briefly, in parentheses, that “binary digit” was shortened to “bit.” It doesn’t go into detail about this name change, and it doesn’t discuss any “common usage” of the name at all.

Choice C is incorrect. This isn’t the overall structure. Shannon’s employment at Bell Labs is only mentioned once, very briefly: the text never goes into detail about his career there, and it never mentions any recognition he received there. Choice D is incorrect. This is too narrow. Overall, the text is about Shannon’s importance in his field, not just this one paper of his.

Hard

Question ID afd48140

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: afd48140

In 1877, 85% of California’s railways were already controlled by the Southern Pacific Railroad. The company further solidified its _____ in rail access to the state’s Pacific coast when it completed the Sunset Route in 1883: running from Louisiana to Southern California, the route established the first transcontinental rail line across the southern United States.

Which choice completes the text with the most logical and precise word or phrase?

- A. dominance
- B. creativity
- C. insignificance
- D. neutrality

ID: afd48140 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most logically and precisely completes the text’s discussion of the Southern Pacific Railroad. As used in this context, "dominance" means the state of being more successful than others. The text states that the Southern Pacific Railroad already controlled 85% of California’s railways in 1877, and that the Sunset Route it constructed in 1883 was the first transcontinental rail line across the southern United States. Therefore, the Southern Pacific Railroad would be more successful than other railroads in the area, and the construction of the Sunset Route would further solidify its dominance in rail access to California’s coast.

Choice B is incorrect. Although the construction of the Sunset Route must have required some creativity, or use of imagination, the word "creativity" would not also encompass the fact that the Southern Pacific Railroad already controlled 85% of California’s railways. The text is more focused on the railroad’s control of the field and overall success rather than its imaginative thought processes. Choice C is incorrect because if the Southern Pacific Railroad controlled the majority of California’s railways, it would not make sense to refer to its "insignificance," or the state of being unimportant. Rather, the opposite would be true. Choice D is incorrect because in context it would not make sense to refer to the Southern Pacific Railroad’s "neutrality," or absence of strong opinion on a matter, since no opinions are mentioned. Nor would "neutrality" in the sense of impartiality in a conflict be a logical or precise choice since no conflict is explicitly described. There might be an implied conflict between the Southern Pacific Railroad and other railroads doing business in California, but that is not a conflict in which the Southern Pacific Railroad would take an impartial position.

Question Difficulty:
Easy

Question ID e1befb41

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: e1befb41

Text 1

In a study of the benefits of having free time, Marissa Sharif found that the reported sense of life satisfaction tended to plateau when participants had two hours of free time per day and actually began to fall when they had five hours of free time per day. After further research, Sharif concluded that this dip in life satisfaction mainly occurred when individuals spent all their free time unproductively, such as by watching TV or playing games.

Text 2

Psychologist James Maddux cautions against suggesting an ideal amount of free time. The human desire for both free time and productivity is universal, but Maddux asserts that individuals have unique needs for life satisfaction. Furthermore, he points out that there is no objective definition for what constitutes productivity; reading a book might be considered a productive activity by some, but idleness by others.

Based on the texts, how would Maddux (Text 2) most likely respond to the conclusion Sharif (Text 1) reached after her further research?

- A. By acknowledging that free time is more likely to enhance life satisfaction when it is spent productively than when it is spent unproductively
- B. By challenging the reasoning in Text 1, as it has not been proved that productivity commonly contributes to individuals' life satisfaction
- C. By warning against making an overly broad assumption, as there is no clear consensus in distinguishing between productive and unproductive activities
- D. By claiming that the specific activities named in Text 1 are actually examples of productive activities rather than unproductive ones

ID: e1befb41 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it characterizes how Maddux would most likely respond to the conclusion Sharif reached after her research. Text 1 describes Sharif's study of the benefits of free time, saying that the reported sense of satisfaction plateaued at two hours per day and began to decline at five hours per day. Further research led Sharif to conclude that time spent doing tasks she defines as unproductive, such as watching TV or playing games, correlated with a drop in life satisfaction. However, in Text 2 Maddux says that there is no objective definition of what constitutes productive behavior, giving the example that reading a book might be considered productive by some but unproductive by others. It can be inferred that Maddux would also assert that whether watching TV or playing games is productive or unproductive is a matter of subjective judgment. Thus, Maddux would most likely caution against making an overly broad assumption, as there is no clear consensus in distinguishing between productive and unproductive activities.

Choice A is incorrect because Maddux asserts that individuals have unique needs for life satisfaction: some may want to spend that time productively, others unproductively, and what counts as productive is subjective. Therefore, Maddux would likely not consider it universally true that free time is more likely to enhance life satisfaction when it is spent productively. Choice B is incorrect because the study described in Text 1 concerns whether free time contributes to life satisfaction, not whether productivity contributes to life satisfaction. The dip in life satisfaction that Sharif claims to observe in Text 1 happens only after five hours, and mainly if the time is spent unproductively—that is, two hours of free time spent productively might increase life satisfaction just as much as two hours spent unproductively. Choice D is incorrect because Maddux holds the opinion that whether an activity is productive or unproductive is subjective and depends on the individual; therefore, he would most likely claim that watching TV or playing games might be productive for some and unproductive for others.

SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 9aa44886

The following text is from F. Scott Fitzgerald’s 1925 novel *The Great Gatsby*.

[Jay Gatsby] was balancing himself on the dashboard of his car with that resourcefulness of movement that is so peculiarly American—that comes, I suppose, with the absence of lifting work in youth and, even more, with the formless grace of our nervous, sporadic games. This quality was continually breaking through his punctilious manner in the shape of restlessness.

As used in the text, what does the word “quality” most nearly mean?

- A. Standard
- B. Prestige
- C. Characteristic
- D. Accomplishment

ID: 9aa44886 Answer

Correct Answer:
C

Rationale

Choice C is the best answer. “This quality” refers to Gatsby’s “resourcefulness of movement,” which is described as a characteristic or trait of his.

Choice A is incorrect. This isn’t what “quality” means in this context. Here, “this quality” refers to Gatsby’s “resourcefulness of movement,” which is described as a characteristic or trait of his. “Standard” is a synonym for a different definition of “quality”: the degree of excellence of something. Choice B is incorrect. This isn’t what “quality” means in this context. Here, “this quality” refers to Gatsby’s “resourcefulness of movement,” which is described as a characteristic or trait of his. “Prestige” would suggest a high status or an admirable reputation, which doesn’t match that description. Choice D is incorrect. This isn’t what “quality” means in this context. Here, “this quality” refers to Gatsby’s “resourcefulness of movement,” which is described as a characteristic or trait of his. “Accomplishment” would suggest an achievement, which doesn’t match that description.

Question Difficulty:
Medium

Question ID e3ffb854

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: e3ffb854

The following text is adapted from John Matheus’s 1925 short story “Fog.”

The fog extended its tentacles over city and river, gradually obliterating traces of familiar landscapes. At five-thirty the old Panhandle bridge, supported by massive sandstone pillars, stalwart, as when erected fifty years before to serve a generation now passed behind the portals of life, had become a spectral outline against the sky.

As used in the text, what does the word “supported” most nearly mean?

- A. Held up
- B. Encouraged
- C. Improved on
- D. Defended

ID: e3ffb854 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because as used in the text, "supported" most nearly means held up or sustained physically. The sentence describes the physical structure of the Panhandle bridge, stating it was "supported by massive sandstone pillars." This clearly refers to the structural relationship between the bridge and its pillars—the pillars physically hold up the bridge and keep it standing. The text further emphasizes the physical nature of this support by describing the pillars as "stalwart" (strong and sturdy) and noting they've been performing this function for fifty years.

Choice B is incorrect. Although in some contexts "supported" can mean "encouraged," the sandstone pillars and bridge described in the text are all inanimate objects that can't provide or receive encouragement. The text clearly describes a structural relationship between the elements of the bridge, not an emotional one. Choice C is incorrect. Although in some contexts "supported" has a meaning similar to "improved on," the text doesn't suggest that the sandstone pillars have enhanced or made the bridge better; rather, they simply provide the necessary physical foundation to keep the bridge standing. Thus, the sentence describes the structural elements of the bridge, not improvements made to it. Choice D is incorrect. Although in some contexts "supported" can mean "defended," the text doesn't present a situation in which the sandstone pillars are defending the bridge from a threat. Instead, the description focuses on the physical structure of the bridge, in which the pillars hold the bridge up and ensure its stability.

Question Difficulty:
Easy

Question ID 2e744883

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 2e744883

Historians have argued that a crucial component of the Civil Rights Movement’s success in the 1960s was the Southern Christian Leadership Conference’s Citizen Education Program (CEP), which invited promising activists from across the South to its one-week training sessions in Dorchester, Georgia. Led by experienced organizers such as Dorothy Cotton and Septima Clark, CEP attendees —more than 7,000 in all—participated in workshops on topics ranging from public speaking to legal doctrine before returning home and using their newly acquired knowledge to spearhead local civil rights initiatives.

Which choice best describes the function of the underlined portion in the text as a whole?

- A. It underscores the extent of the CEP’s impact on the Civil Rights Movement of the 1960s.
- B. It illustrates the CEP organizers’ efforts to educate participants on a wide variety of topics.
- C. It suggests that CEP attendees held a diverse array of opinions about the Southern Christian Leadership Conference’s political philosophy.
- D. It establishes that criticism of the CEP was limited to a few individuals in the Southern Christian Leadership Conference.

ID: 2e744883 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most accurately describes how the underlined portion functions in the text as a whole. The first sentence of the text states that the CEP had a positive impact on the Civil Rights Movement in the 1960s. The next sentence explains that the CEP organized workshops for attendees, who later used the knowledge they gained to lead civil rights initiatives. And the underlined portion indicates the number of activists—more than 7,000—who participated in the workshops. Thus, the underlined portion provides a number that underscores the extent of the CEP’s impact on the Civil Rights Movement in the 1960s.

Choice B is incorrect. Although the sentence that contains the underlined portion mentions some CEP workshop topics, the underlined portion itself addresses the number of participants in the CEP workshops, not the number of topics covered. Choice C is incorrect. Although the underlined portion refers to attendees of the CEP workshops, nothing in the underlined portion or the text as a whole addresses the Southern Christian Leadership Conference’s philosophy or the attendees’ opinions thereof. Choice D is incorrect because neither the underlined portion nor the text as a whole mentions any criticism of the CEP by members of the Southern Christian Leadership Conference.

Question Difficulty:
Hard

Question ID 5d2fd27d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 5d2fd27d

While we can infer information about climate activity in Earth’s distant past from physical evidence, we of course cannot observe past climates directly. To study early Earth’s climate in action, we must _____ that climate using computer models that represent various climate conditions consistent with the physical evidence.

Which choice completes the text with the most logical and precise word or phrase?

- A. invent
- B. simulate
- C. exaggerate
- D. preserve

ID: 5d2fd27d Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of climate activity in Earth’s distant past. In this context, to “simulate” most nearly means to represent a natural process using computer models. According to the text, understanding Earth’s early climate is difficult because we cannot make direct observations of the distant past. Instead, scientists must create computer models that approximate early climate conditions, based on the physical evidence that those conditions left behind on Earth’s surface. This context supports the idea that computer models simulate Earth’s climate in the distant past.

Choice A is incorrect because scientists use existing physical evidence as a basis for developing computer models that describe what Earth’s actual past climate might have been like. The models are not being used to “invent,” or imagine, a completely fictional climate. Choice C is incorrect because the computer models are being used in an attempt to describe as accurately as possible what Earth’s past climate might have been like. They are not attempting to “exaggerate,” or distort, those features. Choice D is incorrect because the computer models do not “preserve,” or protect from deterioration, Earth’s early climate; instead, they attempt to reproduce the characteristics of that climate, based on the remaining physical evidence of that climate.

Question Difficulty:
Easy

Question ID 4480fae9

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 4480fae9

The following text is adapted from Sui Sin Far’s 1912 short story “Mrs. Spring Fragrance.” Mr. and Mrs. Spring Fragrance immigrated to the United States from China.

Mrs. Spring Fragrance was unaware that Mr. Spring Fragrance, tired with the day’s business, had thrown himself down on the bamboo settee on the veranda, and that although his eyes were engaged in scanning the pages of the *Chinese World*, his ears could not help receiving the words which were borne to him through the open window.

As used in the text, what does the word “receiving” most nearly mean?

- A. Denying
- B. Entering
- C. Carrying
- D. Hearing

ID: 4480fae9 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because as used in the text, “receiving” most nearly means hearing, or perceiving sound. The text describes Mr. Spring Fragrance as he reads a newspaper, focusing on his eyes and ears. While his eyes look at the newspaper, he is unwillingly distracted by words coming through a nearby open window (that is, “his ears could not help receiving the words”). The words are being perceived specifically by his ears and not his eyes, and ears are the organs of sense with which one hears, so therefore Mr. Spring Fragrance is hearing the words through the open window.

Choice A is incorrect because there is no indication in the text that Mr. Spring Fragrance is denying, or refusing the truth of, the words coming to him through the window. He is merely distracted by them. Choice B is incorrect because it wouldn’t make sense to say that Mr. Spring Fragrance’s ears couldn’t help entering, or coming into, the words coming to him through the window. Instead, the text indicates that the opposite occurs: that is, when Mr. Spring Fragrance hears the words, they enter his ears, but his ears don’t enter the words. Choice C is incorrect because it doesn’t make sense in this context to think of Mr. Spring Fragrance as carrying the words coming to him through the window, even though the word “carry” can have a number of different meanings depending on context: for example, he is not lifting them, he is not supporting them, and he is not accepting blame for them (as one “carries the blame” for a mistake).

Question Difficulty:
Easy

Question ID 6cf906fc

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 6cf906fc

The following text is adapted from José Martí’s 1891 poem “At the Salon” (translated by Cecil Charles in 1898). The speaker describes a painting featuring a female figure.

From the sterile soil no ray
Of hope in a blade of green,
Nor sheltering roof is seen—
Though the skies are heavy and gray.

Ah, this is the woman fair
Who stole away my heart
In the splendid halls of art
Yester-e’en as I wandered there!

As used in the text, what does the word “sheltering” most nearly mean?

- A. Protective
- B. Restrictive
- C. Affectionate
- D. Suspicious

ID: 6cf906fc Answer

Correct Answer:
A

Rationale

Choice A is the best answer because as used in the text, "sheltering" most nearly means protective. In the text, the speaker describes a painting featuring a female figure. The speaker ultimately confesses to falling in love with the woman in the painting, who has "stole[n] away" the speaker’s heart, but first the speaker describes elements of the painting’s setting. These include sterile soil, barren fields with "no ray / Of hope in a blade of green"—a description that conveys a mood of melancholy and forlornness, possibly reflecting the speaker’s own sadness at falling in love with an image that can’t return the speaker’s love. The text continues by stating that there’s no "sheltering roof" in the painting, even though the "skies are heavy and gray," showing signs of an impending storm. Generally, a roof’s intended purpose is to provide protection from the elements, and in this context, a roof would offer shelter and protection from the gathering storm.

Choice B is incorrect because nothing in the text suggests that a roof would be restrictive—that is, that it would limit or restrain something in some way. Although a roof would provide some cover from stormy winds and rain, it wouldn’t limit the wind and rain, only deflect them. Choice C is incorrect because there’s nothing in the text to suggest that if a "sheltering roof" were present in the painting, it would be affectionate, or loving and tender. In the text, the immediate context in which the word "sheltering" appears refers to the absence of a roof that would provide protection from the oncoming storm depicted in the painting, not to the idea that such a shelter would be loving and tender if it were present. Choice D is incorrect because in this context, suspicious would mean

questionable or dubious, and there’s nothing in the text to suggest that if any roofs were present in the painting, they would be questionable or cause any suspicion.

Question Difficulty:
Easy

Question ID 54804e10

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 54804e10

While scholars believe many Mesoamerican cities influenced each other, direct evidence of such influence is difficult to ascertain. However, recent excavations in a sector of Tikal (Guatemala) unearthed a citadel that shows _____ Teotihuacán (Mexico) architecture—including a near replica of a famed Teotihuacán temple—providing tangible evidence of outside influence in portions of Tikal.

Which choice completes the text with the most logical and precise word or phrase?

- A. refinements of
- B. precursors of
- C. commonalities with
- D. animosities toward

ID: 54804e10 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of architectural influences among Mesoamerican cities. In this context, “commonalities with” means similarities to or shared attributes with. The text indicates that a recently discovered citadel in Tikal includes a close imitation of a famous temple in Teotihuacán (another Mesoamerican city) and other evidence of Teotihuacán influence, which suggests that the citadel possesses features that resemble architectural features found in Teotihuacán. This context thus indicates that the Tikal citadel shows commonalities with Teotihuacán architecture.

Choice A is incorrect because there’s nothing in the text that suggests that the Tikal citadel shows “refinements of,” or improvements on, Teotihuacán architecture. Although the text suggests that the architecture of Teotihuacán influenced the architecture of the Tikal citadel, and although it’s possible that later architectural designs could make improvements on earlier designs, the text doesn’t discuss whether, in imitating Teotihuacán architecture, the Tikal citadel’s builders improved on it. Choice B is incorrect because describing the citadel in Tikal as showing “precursors of” Teotihuacán architecture—or features that preceded and foreshadowed those of Teotihuacán architecture—would imply the opposite of what the text suggests about the relationship between the architecture found in Tikal and Teotihuacán. The text claims that the discovery of similarities between the Tikal citadel and the architecture of Teotihuacán, including a replica of a temple in Teotihuacán, provides evidence of outside influences on Tikal architecture. If the Tikal citadel was influenced by Teotihuacán architecture, then the Teotihuacán architecture must predate the citadel, not the other way around. In this context, therefore, it wouldn’t make sense to say that the Tikal citadel shows precursors of Teotihuacán architecture. Choice D is incorrect because the text discusses how the citadel in Tikal indicates the influence of Teotihuacán architecture, which implies that the makers of the Tikal citadel likely admired aspects of Teotihuacán architecture enough to imitate it. Thus, there’s no reason to think that the Tikal citadel provides evidence of the Tikal people’s “animosities toward,” or feelings of strong dislike or hostility toward, Teotihuacán architecture.

Question Difficulty:
Hard

Question ID f61c22f3

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: f61c22f3

Changes to vegetation cover and other human activities influence carbon and nitrogen levels in soil, though how deep these effects extend is unclear. Hypothesizing that differences in land use lead to differences in carbon and nitrogen levels that are not restricted to the topsoil layer (0–30 cm deep), Chukwuebuka Okolo and colleagues sampled soils across multiple land-use types (e.g., grazing land, cropland, forest) within each of several Ethiopian locations. They found, though, that across land-use types, carbon and nitrogen decreased to comparably low levels beyond depths of 30 cm.

Which choice best describes the overall structure of the text?

- A. It describes a phenomenon that scientists do not fully understand, explains a research team’s hypothesis about that phenomenon, and then describes a finding that led the team to refine the hypothesis.
- B. It introduces an unresolved scientific question, presents a research team’s hypothesis pertaining to that question, and then describes an observation made by the team that conflicts with that hypothesis.
- C. It discusses a process that scientists are somewhat unclear about, introduces competing hypotheses about that process, and then explains how a research team concluded that one of those hypotheses is likely correct.
- D. It explains a hypothesis that has been the subject of scientific debate, discusses how a research team tested that hypothesis, and then presents data the team collected that validate the hypothesis.

ID: f61c22f3 Answer

Correct Answer:

B

Rationale

Choice B is the best answer because it most accurately describes the overall structure of the text. The text begins by explaining that human activities influence carbon and nitrogen levels in soil, but how deeply these effects are seen in the soil remains an unresolved question. Next, the text summarizes Okolo and colleagues’ hypothesis regarding this question—which is that the different effects on carbon and nitrogen levels associated with different types of land use would also be observed below the topsoil layer—and then briefly explains the methods they used to test this hypothesis. Finally, the text states that the researchers found that at depths below the topsoil layer, carbon and nitrogen decreased to similarly low levels across all land-use types, a finding that conflicts with the team’s hypothesis presented earlier in the text. Thus, the text introduces an unresolved scientific question, presents a research team’s hypothesis pertaining to that question, and then describes an observation that the team made that conflicted with their hypothesis.

Choice A is incorrect. Although the text introduces a phenomenon (the fact that human activities influence carbon and nitrogen levels in the soil) that isn’t fully understood by scientists and explains a research team’s hypothesis about the phenomenon, the text doesn’t describe how the team refined their hypothesis when a research finding contradicted it. Choice C is incorrect because the text doesn’t discuss a process at all; rather, it poses an unsolved scientific question and presents a hypothesis that Okolo and colleagues tested to answer that question. Moreover, the text only describes one hypothesis; it doesn’t mention any competing hypotheses, nor does it suggest that Okolo’s team was able to determine which hypothesis was correct. Choice D is incorrect because the text doesn’t begin by presenting a hypothesis that is under scientific debate; rather, it presents a question that

scientists have been unable to answer and then introduces a hypothesis formulated by Okolo and colleagues. While the text does explain how Okolo's team tested their hypothesis, the text goes on to say that their data conflicted with their hypothesis, not that the data validated, or supported, their hypothesis.

Hard

Question ID 2aaee77f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 2aaee77f

Some bird species don't raise their own chicks. Instead, adult females lay their eggs in other nests, next to another bird species' own eggs. Female cuckoos have been seen quickly laying eggs in the nests of other bird species when those birds are out looking for food. After the eggs hatch, the noncuckoo parents will typically raise the cuckoo chicks as if they were their own offspring, even if the cuckoos look very different from the other chicks.

Which choice best describes the function of the underlined sentence in the text as a whole?

- A. It introduces a physical feature of female cuckoos that is described later in the text.
- B. It describes the appearance of the cuckoo nests mentioned earlier in the text.
- C. It offers a detail about how female cuckoos carry out the behavior discussed in the text.
- D. It explains how other birds react to the female cuckoo behavior discussed in the text.

ID: 2aaee77f Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it best describes how the underlined sentence functions in the text as a whole. The first two sentences establish that birds of some species don't raise their own young; instead, they lay their eggs in the nests of birds of other species. The underlined sentence then states that female cuckoo birds engage in this behavior, having been observed specifically laying their eggs in other nests while the other birds are out finding food. According to the text, the cuckoo chicks are then raised by the other birds. Thus, the underlined sentence provides a particular detail about how female cuckoos carry out the behavior of laying eggs for other birds to raise.

Choice A is incorrect. Rather than mentioning a physical feature of female cuckoos, the underlined sentence introduces a specific behavior of female cuckoos: laying eggs in the nests of birds of other species when the other birds are away. The only reference to physical features is the last sentence's general mention of cuckoo chicks looking different from chicks of other species. Choice B is incorrect because the underlined sentence refers to the nests of birds other than cuckoos and doesn't describe how any nests look, cuckoo or otherwise. Instead, the sentence addresses how female cuckoos use other birds' nests. Choice D is incorrect because the underlined sentence describes only female cuckoo behavior (laying eggs in the nests of birds of other species when the other birds are away); it's the last sentence of the text that addresses the other birds' reaction, indicating that those birds usually raise the cuckoo chicks once they've hatched.

Easy

Question ID e929fe98

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: e929fe98

Composer Florence Price won first place for her score Symphony in E Minor at the 1932 Wanamaker Foundation Awards. The piece was performed the following year by the Chicago Symphony Orchestra, a significant recognition of its quality. Price continued to compose many musical pieces throughout her career, blending traditional Black spirituals with classical European Romantic musical traditions. In recent years, Price’s concertos and symphonies have been performed and recorded by several major orchestras, further preserving her work for others to enjoy.

Which choice best states the main purpose of the text?

- A. To provide examples of Price’s importance as a composer
- B. To argue that more major orchestras should perform Price’s compositions
- C. To describe the musical styles that inspired many of Price’s symphonies
- D. To compare Price’s scores with those of classical European composers

ID: e929fe98 Answer

Correct Answer:
A

Rationale

Choice A is the best answer. The text provides an overview of Florence Price’s importance by describing her success at the 1932 Wanamaker Foundation Awards, her blending of Black spirituals and classical European Romantic musical traditions, and the recent performances and recordings of her concertos and symphonies by major orchestras.

Choice B is incorrect. The text does mention that Price’s compositions have been performed and recorded by major orchestras, but it doesn’t argue that more orchestras should do so. Choice C is incorrect. The text does mention the blending of Black spirituals and classical European Romantic musical traditions, but only briefly, as part of a broader overview of Price’s career. Choice D is incorrect. The text mentions Price’s blending of Black spirituals with classical European Romantic musical traditions, but it doesn’t directly compare Price’s scores with those of classical European composers.

Question Difficulty:
Easy

Question ID ed52a093

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: ed52a093

Text 1

Flamingos are known for their vibrant pink coloring, but they’re actually born with gray feathers. Their pink color comes from eating brine shrimp, but brine shrimp aren’t naturally pink either. Animals can’t produce carotenoids, the pigments that provide the pink hue. The algae that brine shrimp feed on, however, can produce these pigments. Thus, the pinker the flamingo, the more shrimp it has eaten.

Text 2

Ecologist Juan Amat has found that flamingos apply a kind of makeup to make themselves appear pinker. A gland near their tail contains pigments that come from the food they eat. When the flamingos groom themselves using the pigments, their feathers become pinker. Flamingos may do this to improve their success during mating season, when they would benefit from looking pinker.

Based on the texts, how would the ecologist in Text 2 most likely respond to the author’s conclusion in Text 1?

- A. By emphasizing that flamingos’ tail feathers are pinker than their other feathers are
- B. By claiming that the coloring of flamingos’ feathers doesn’t change significantly enough for most observers to notice
- C. By pointing out that the amount of shrimp eaten isn’t the only thing that influences flamingos’ coloring
- D. By arguing that flamingos’ diet doesn’t include much shrimp except during mating season

ID: ed52a093 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it describes how the ecologist in Text 2 would most likely respond to the author’s conclusion in Text 1 based on the information provided. The author of Text 1 states that the pink color of flamingo feathers comes from pigments carried by the brine shrimp flamingos consume. The author of Text 1 concludes that this means that a flamingo that is pinker than another flamingo must have eaten more shrimp. However, according to Text 2, ecologist Juan Amat has found that flamingos can also affect how pink they look through grooming, when they move ingested pigments from a gland near the tail to their feathers. This indicates that not all the pigments available from the shrimp a flamingo has eaten automatically end up coloring the flamingo’s feathers; some may or may not be applied later. Since grooming is also a factor, the ecologist (Amat) in Text 2 would most likely respond to the conclusion in Text 1 that pinker flamingos have eaten more shrimp by pointing out that the amount of shrimp eaten isn’t the only thing that influences flamingos’ coloring.

Choice A is incorrect. Although Text 2 states that the ecologist has found that flamingos can move pigments to their feathers from a gland near their tail, there is no indication that their tail feathers are pinker than their other feathers. Moreover, the point that tail feathers are pinker than other feathers wouldn’t logically address the idea that the quantity of shrimp eaten is what determines a flamingo’s coloring. Choice B is incorrect because Text 2 indicates that the ecologist has found that flamingos’ feathers do sometimes look pinker and gives no indication that this change in color is particularly subtle. Moreover, the point that most

observers wouldn't notice a change wouldn't logically address the idea that the quantity of shrimp eaten is what determines a flamingo's coloring. Choice D is incorrect because nothing in Text 2 suggests that the ecologist would argue about flamingos' shrimp consumption. Although Text 2 indicates that the ecologist has found that flamingos may make themselves look pinker during mating season, this is addressed in terms of grooming habits; apart from referring to food as a source of pigments, Text 2 doesn't discuss the diet of flamingos at all.

Question Difficulty:

Easy

Question ID 39857700

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 39857700

The following text is from Edith Wharton’s 1905 novel *The House of Mirth*. Lily Bart and a companion are walking through a park. Lily had no real intimacy with nature, but she had a passion for the appropriate and could be keenly sensitive to a scene which was the fitting background of her own sensations. The landscape outspread below her seemed an enlargement of her present mood, and she found something of herself in its calmness, its breadth, its long free reaches. On the nearer slopes the sugar-maples wavered like pyres of light; lower down was a massing of grey orchards, and here and there the lingering green of an oak-grove.

Which choice best describes the function of the underlined sentence in the text as a whole?

- A. It creates a detailed image of the physical setting of the scene.
- B. It establishes that a character is experiencing an internal conflict.
- C. It makes an assertion that the next sentence then expands on.
- D. It illustrates an idea that is introduced in the previous sentence.

ID: 39857700 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it best describes how the underlined sentence functions in the text as a whole. The first sentence of the text establishes that Lily can be “keenly sensitive to” scenes that serve as a “fitting background” for her feelings—that is, she’s very aware of when a setting seems to reflect her mood. The next sentence, which is underlined, then demonstrates this awareness: Lily views the landscape she’s in as a large-scale reflection of her current mood, identifying with elements such as its calmness. Thus, the function of the underlined sentence is to illustrate an idea introduced in the previous sentence.

Choice A is incorrect because the underlined sentence describes the scene only in very general terms, referring to its calmness, breadth, and long stretches of land. It’s the next sentence that adds specific details about colors, light, and various trees nearby. Choice B is incorrect because nothing in the underlined sentence suggests that Lily is experiencing an internal conflict. In fact, the sentence indicates that Lily thinks the landscape reflects her own feeling of calmness. Choice C is incorrect because the only assertion in the underlined sentence is that Lily feels that broad aspects of the landscape, such as its calmness, reflect her current mood, and that assertion isn’t expanded on in the next sentence. Instead, the next sentence describes specific details of the scene without connecting them to Lily’s feelings.

Question ID 637d0878

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 637d0878

The Appalachian Trail is a hiking path in the eastern United States. Much of the 2,000 mile trail passes through wilderness areas. In order to _____ those areas, the United States Congress passed the National Trails System Act in 1968, ensuring that the trail would not be sold or commercially developed.

Which choice completes the text with the most logical and precise word or phrase?

- A. borrow
- B. postpone
- C. protect
- D. decorate

ID: 637d0878 Answer

Correct Answer:
C

Rationale

Choice C is the best answer. "Protect" means "preserve" or "keep safe from." By ensuring that the wilderness areas along the Appalachian Trail can't be sold or developed, the National Trails System Act protects them.

Choice A is incorrect. "Borrow" means "to take something with intent to return it." The text doesn't say anything about taking and returning the wilderness that surrounds the Appalachian Trail. Choice B is incorrect. "Postpone" means "to put off until later." Nothing in the passage suggests that Congress wants to "postpone" the wilderness areas (and that doesn't make sense anyway—they can postpone doing something to the wilderness areas, but they can't postpone the areas themselves). Choice D is incorrect. "Decorate" means "to adorn" or "add extra items or pictures to make more attractive." No details in the text suggest that Congress wishes to make the trail fancier or more attractive.

Question Difficulty:
Easy

Question ID 83687083

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 83687083

Due to their often strange images, highly experimental syntax, and opaque subject matter, many of John Ashbery’s poems can be quite difficult to _____ and thus are the object of heated debate among scholars.

Which choice completes the text with the most logical and precise word or phrase?

- A. delegate
- B. compose
- C. interpret
- D. renounce

ID: 83687083 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of John Ashbery’s poems. As used in this context, “interpret” would mean decipher the meaning of. The text indicates that Ashbery’s poems have many unusual features, that it’s difficult to tell what exactly the poems’ subject matter is, and that scholars strongly disagree about the poems. This context conveys the idea that it’s difficult to interpret Ashbery’s poems.

Choice A is incorrect because “delegate” means to assign someone as a representative of another person or to entrust something to someone else, neither of which would make sense in context. The text is focused only on the difficulty that readers have interpreting Ashbery’s poems due to their many unusual features; it doesn’t suggest anything about the poems being difficult to delegate. Choice B is incorrect because describing Ashbery’s poems as difficult to “compose,” or put together or produce, would make sense only if the text were about Ashbery’s experience of writing the poems. It could be true that it was difficult for Ashbery to compose his poems, but the text doesn’t address this; it instead discusses how readers interpret and engage with the poems. Choice D is incorrect because describing Ashbery’s poems as being difficult to “renounce,” or give up or refuse, wouldn’t make sense in context. The text focuses on the idea that features of Ashbery’s poems are odd or unclear and have caused heated scholarly debate. This context suggests that the poems are difficult to interpret, not that the poems are difficult to renounce.

Easy

Question ID fb8b56bc

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: fb8b56bc

The following text is adapted from George Bernard Shaw’s 1912 play *Pygmalion*. Henry Higgins has just arrived at the house of his mother (Mrs. Higgins). She is expecting her friends to visit soon.

MRS. HIGGINS: I’m serious, Henry. You offend all my friends: they stop coming whenever they meet you.
HIGGINS: Nonsense! I know I have no small talk; but people don’t mind.
MRS. HIGGINS: Oh! don’t they? Small talk indeed! What about your large talk? Really, dear, you mustn’t stay.

- Which choice best states the main purpose of the text?
- A. To describe what Henry’s mother does when she goes out with her friends
 - B. To show that Henry’s mother wants him to leave
 - C. To present a detailed account of what Henry’s home looks like
 - D. To explain why Henry often visits his mother

ID: fb8b56bc Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most accurately states the main purpose of the text, which is to show that Henry’s mother, Mrs. Higgins, wants Henry to leave her house. In the text, Mrs. Higgins complains that Henry offends all her friends and that they stop coming when he’s also visiting. She then tells him directly, "you mustn’t stay." The overall exchange conveys Mrs. Higgins’s intention for Henry to leave so as not to drive away her friends with his behavior.

Choice A is incorrect because the text doesn’t indicate what Henry’s mother does when she’s out with her friends. Instead, it focuses on what goes on when Henry and her friends visit her at the same time, indicating that since her friends find Henry’s company disagreeable, she wishes him to leave before they arrive. Choice C is incorrect because the text doesn’t contain an account of what Henry’s home looks like. The setting is established as the house of Henry’s mother, and the dialogue focuses solely on her wish that Henry should depart before her friends arrive. Choice D is incorrect because the text doesn’t mention how often Henry visits his mother nor does it provide any explanation for why he visits his mother. Instead, it indicates that she thinks her friends dislike Henry and that she therefore wants him to depart before they arrive.

Question Difficulty:
Easy

Question ID 4b4ab04e

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: 4b4ab04e

Text 1

Mycoprotein is a fungal biomass that can be eaten as an alternative to meat. Studies of the environmental impact of its manufacture generally agree it is lower than that of beef and closer to that of chicken or pork. But the expense of producing mycoprotein restricts its availability to a few countries with postindustrial economies. Knowing that cost reductions would expand access to mycoprotein, biochemists are exploring solutions, such as a cheaper substrate to feed the mycoprotein as it grows.

Text 2

Cattle farming is a principal cause of global deforestation, and a study by Florian Humpenöder and his colleagues found that replacing 20% of beef consumption worldwide with consumption of mycoprotein would cut deforestation by half if accomplished over the next thirty years. However, this would likely involve only a small change in agricultural water consumption, since water once dedicated to raising cattle would be diverted to raising crops instead.

Based on the texts, how would the author of Text 1 most likely respond to the study findings mentioned in Text 2?

- A. By emphasizing that since agricultural water consumption would remain static in the event of replacing beef consumption with mycoprotein consumption, an effort must be made to substitute mycoprotein for chicken and pork in diets as well
- B. By asserting that the development of a more inexpensive substrate for mycoprotein production would contribute to the goal of decreasing worldwide deforestation over time
- C. By noting that most people would be more likely to use mycoprotein as a substitute for chicken or pork in their diets than as a substitute for beef
- D. By pointing out that some countries are responsible for greater deforestation than others and thus, to have any significant effect on the environment, will have to replace more than 20% of their beef consumption with mycoprotein

ID: 4b4ab04e Answer

Correct Answer:

B

Rationale

Choice B is the best answer because it reflects how the author of Text 1 would most likely respond to the study findings described in Text 2. The author of Text 2 discusses a study by Florian Humpenöder and his colleagues that found that deforestation would be reduced by half over the next thirty years if 20% of the beef consumed worldwide were replaced with mycoprotein. The author of Text 1 points out that mycoprotein is not widely available because of its high production cost, but goes on to note that this problem could be addressed by the creation of a cheaper substrate to feed mycoprotein. This suggests that the author of Text 1 would assert that the development of a less expensive mycoprotein substrate would contribute to the reduction in deforestation described in the study findings discussed in Text 2: if reducing the cost of mycoprotein increases people’s access to it, then mycoprotein may be able to replace beef in more people’s diets, thereby reducing the deforestation associated with beef production.

Choice A is incorrect because the author of Text 1 indicates that the environmental impact of mycoprotein production is close to that of chicken or pork production, so there is no reason to think that the author would assert that replacing chicken or pork with mycoprotein would be environmentally beneficial: such a replacement would not lessen the total environmental impact of food manufacture. Additionally, the specific issue of agricultural water consumption is never mentioned in Text 1, so there is no evidence indicating what the author of Text 1 would say about that issue. Choice C is incorrect. Although Text 1 does compare the environmental effects of producing mycoprotein to those of producing chicken or pork, nothing in Text 1 suggests that the author believes that people are more likely to replace chicken or pork with mycoprotein than they are to replace beef with mycoprotein. Choice D is incorrect because Text 1 makes no mention of countries' varying contributions to deforestation, so there is no evidence that the author of Text 1 would respond to the finding described in Text 2 by saying that some countries will have to replace more than 20% of their beef consumption with mycoprotein.

Question Difficulty:

Hard

Question ID cb526866

SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: cb526866

The recent discovery of a carved wooden figure dating to around 2,000 years ago in a ditch in England was truly surprising. Wooden objects _____ survive for so long due to their high susceptibility to rot, but archaeologists suspect layers of sediment in the ditch preserved the figure by creating an oxygen-free environment.

Which choice completes the text with the most logical and precise word or phrase?

- A. sturdily
- B. carelessly
- C. rarely
- D. simply

ID: cb526866 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of the discovery of a carved wooden figure dating to around 2,000 years ago. In this context, “rarely” means infrequently. The text states that the discovery of the figure was “truly surprising” and notes that wooden objects are highly prone to rot. This context conveys the idea that wooden objects infrequently survive for as long as the carved figure has survived.

Choice A is incorrect because “sturdily” means strongly, which wouldn’t make sense in context. If wooden objects in general could strongly survive for long periods of time, then the discovery of a wooden figure that’s around 2,000 years old wouldn’t be surprising. Choice B is incorrect because “carelessly” means accidentally. The text conveys the idea that wooden objects in general don’t survive for very long because they rot, not that wooden objects in general accidentally survive despite this. Choice D is incorrect because the text conveys the idea that wooden objects in general don’t survive for very long because they rot, not that wooden objects in general “simply,” or merely, survive for long periods of time. If wooden objects in general could merely survive for as long as the figure has survived, then the discovery of the figure wouldn’t have been surprising.

Question Difficulty:
Easy

Question ID be94c9fc

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: be94c9fc

The following text is adapted from James Baldwin’s 1956 novel *Giovanni’s Room*. The narrator is riding in a taxi down a street lined with food vendors and shoppers in Paris, France.

The multitude of Paris seems to be dressed in blue every day but Sunday, when, for the most part, they put on an unbelievably festive black. Here they were now, in blue, disputing, every inch, our passage, with their wagons, handtrucks, their bursting baskets carried at an angle steeply self-confident on the back.

©1956 by James Baldwin

As used in the text, what does the word “disputing” most nearly mean?

- A. Arguing about
- B. Disapproving of
- C. Asserting possession of
- D. Providing resistance to

ID: be94c9fc Answer

Correct Answer:

D

Rationale

Choice D is the best answer because as used in the text, "disputing" most nearly means providing resistance to. The narrator is in a taxi as it drives down a street lined with so many food vendors and shoppers that the narrator describes them as "the multitude of Paris," meaning an immense group of people. The street is essentially a large open-air market, and there are so many people pushing small wagons of goods and carrying shopping baskets that "every inch" of the taxi’s progress is impeded. In other words, the people are providing resistance to the taxi’s attempt to drive down the street.

Choice A is incorrect. Although in some contexts, "disputing" can mean arguing, the narrator doesn’t portray the shoppers and vendors as arguing with the driver of the taxi or, indeed, arguing at all. Choice B is incorrect. Although in some contexts, "disputing" can mean expressing disapproval, the narrator doesn’t suggest that the shoppers and vendors necessarily disapprove of the taxi’s attempt to drive down the street. Instead, their combined presence along the street has the effect of impeding the taxi’s progress. Choice C is incorrect because, as the narrator explains, both the multitude of people and the taxi are using a public space (a street) at the same time. The narrator doesn’t go so far as to suggest that the people feel that they, and not the taxi, possess exclusive access to the street.

Question Difficulty:

In recommending Bao Phi’s collection *Sông / Sing*, a librarian noted that pieces by the spoken-word poet don’t lose their _____ nature when printed: the language has the same pleasant musical quality on the page as it does when performed by Phi.

Which choice completes the text with the most logical and precise word or phrase?

- A. scholarly
- B. melodic
- C. jarring
- D. personal

ID: d2eb1df1 Answer

Correct Answer:
B

Rationale

Choice B is the best answer. Based on the text, we’re looking for a word that means something similar to “pleasant musical quality.” That’s exactly what “melodic” means.

Choice A is incorrect. This isn’t a logical word choice. Based on the text, we’re looking for a word that means something similar to “pleasant musical quality.” “Scholarly” would suggest something that is academic or well-researched, which doesn’t match the meaning we’re looking for. Choice C is incorrect. This isn’t a logical word choice. Based on the text, we’re looking for a word that means something similar to “pleasant musical quality.” “Jarring” would suggest the opposite: something unpleasant or discordant. Choice D is incorrect. This isn’t a logical word choice. Based on the text, we’re looking for a word that means something similar to “pleasant musical quality.” “Personal” would suggest something that is expressive or intimate, which doesn’t match the meaning we’re looking for.

Question Difficulty:
Easy

Question ID 7d84fe2b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 7d84fe2b

Particle physicists like Ayana Holloway Arce and Aida El-Khadra spend much of their time _____ what is invisible to the naked eye: using sophisticated technology, they closely examine the behavior of subatomic particles, the smallest detectable parts of matter.

Which choice completes the text with the most logical and precise word or phrase?

- A. selecting
- B. inspecting
- C. creating
- D. deciding

ID: 7d84fe2b Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of the work of particle physicists. In this context, “inspecting” means viewing closely in order to examine. The text indicates that as particle physicists, Arce and El-Khadra’s work involves using advanced technology to “closely examine” subatomic particles. In other words, they use technology to inspect small parts of matter that can’t be seen by the naked eye.

Choice A is incorrect because nothing in the text suggests that Arce and El-Khadra spend time “selecting,” or choosing, subatomic particles for some purpose; the text simply states that the particle physicists use advanced technology to see and study the behavior of those tiny parts of matter. Choice C is incorrect because nothing in the text suggests that Arce and El-Khadra spend time “creating” subatomic particles, or bringing them into existence; the text simply states that the particle physicists use advanced technology to see and study the behavior of those tiny parts of matter. Choice D is incorrect. In this context, “deciding” would mean making a final choice or judgment about something. It wouldn’t make sense to say that particle physicists get to choose what is and isn’t visible to the naked eye, especially when the text presents it as fact that subatomic particles are “the smallest detectable parts of matter” and would therefore be invisible. The text focuses on Arce and El-Khadra’s close observation of those particles, not on any decisions they might make.

Question Difficulty:
Easy

Question ID c502943e

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: c502943e

The following text is adapted from Cynthia Kadohata’s 2004 novel *Kira-Kira*.

[Uncle Katsuhisa] was as loud as my father was quiet. Even when he wasn’t talking, he made a lot of noise, clearing his throat and sniffing and tapping his fingers.

©2004 by Cynthia Kadohata

Which choice best describes the function of the underlined sentence?

- A. It lists the kinds of topics Uncle Katsuhisa enjoys discussing.
- B. It suggests that Uncle Katsuhisa dislikes meeting new people.
- C. It contrasts Uncle Katsuhisa with the narrator’s father.
- D. It describes a conversation between the narrator and the narrator’s father.

ID: c502943e Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most accurately describes how the underlined sentence functions in the text as a whole. The underlined sentence establishes a difference between Uncle Katsuhisa and the narrator’s father by describing Uncle Katsuhisa as "loud" and the narrator’s father as "quiet." The text then elaborates on that contrast, describing some ways Uncle Katsuhisa is very noisy even when he isn’t speaking.

Choice A is incorrect because the text doesn’t indicate what kinds of topics Uncle Katsuhisa enjoys discussing, only that he is loud even when he isn’t speaking. Choice B is incorrect because the text never indicates how Uncle Katsuhisa feels about meeting new people, only how loud he is. Choice D is incorrect because the text never describes a conversation occurring between any people; it refers to talking only when stating that Uncle Katsuhisa is loud even when he isn’t speaking.

Question ID 059f7201

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: 059f7201

Text 1

Graphic novels are increasingly popular in bookstores and libraries, but they shouldn't be classified as literature. By definition, literature tells a story or conveys meaning through language only; graphic novels tell stories through illustrations and use language only sparingly, in captions and dialogue. Graphic novels are experienced as series of images and not as language, making them more similar to film than to literature.

Text 2

Graphic novels present their stories through both language and images. Without captions and dialogue, readers would be unable to understand what is depicted in the illustrations: the story results from the interaction of text and image. Moreover, Alison Bechdel's *Fun Home* and many other graphic novels feature text that is as beautifully written as the prose found in many standard novels. Therefore, graphic novels qualify as literary texts.

Based on the texts, how would the author of Text 2 most likely respond to the overall argument presented in Text 1?

- A. By asserting that language plays a more important role in graphic novels than the author of Text 1 recognizes
- B. By acknowledging that the author of Text 1 has identified a flaw that is common to all graphic novels
- C. By suggesting that the story lines of certain graphic novels are more difficult to understand than the author of Text 1 claims
- D. By agreeing with the author of Text 1 that most graphic novels aren't as well crafted as most literary works are

ID: 059f7201 Answer

Correct Answer:

A

Rationale

Choice A is the best answer because it most accurately states how the author of Text 2 would most likely respond to the argument presented in Text 1. In arguing that graphic novels shouldn't be classified as literature and are more comparable to film, Text 1 claims that language plays a relatively limited role in graphic novels: images, not language, are the primary means by which graphic novels tell their stories, and language is used "only sparingly"—that is, comparatively very little—in the form of captions and dialogue. However, the author of Text 2 asserts that language in graphic novels is as equally vital for conveying meaning as images are, since without captions and dialogue, readers wouldn't be able to make sense of the narrative. Moreover, the author of Text 2 argues that there are many graphic novels that are "beautifully written" and whose use of language is as accomplished as any standard novel. Because Text 1 argues that language is subordinate to images in graphic novels, whereas Text 2 highlights how language is an essential component of a graphic novel's storytelling, it can reasonably be inferred that the author of Text 2 would say that language plays a more important role in graphic novels than the author of Text 1 recognizes.

Choice B is incorrect. Although Text 1 indicates that graphic novels shouldn't be classified as literature based on their limited use of language, there's no indication that the author of Text 1 considers this limited use of language as a flaw, just that it doesn't fit the particular definition of "literature" proposed in the text. Even if Text 1 had suggested that their use of language was a common

flaw of graphic novels, the author of Text 2 emphasizes how many graphic novels are "beautifully written," and would therefore say that their use of language is exemplary, not that it is flawed. Choice C is incorrect because Text 1 doesn't claim that the story lines of graphic novels are generally relatively easy to understand; in addition, Text 2 argues that given their dependence on the interaction of image and text, the stories of graphic novels would be incomprehensible if their captions and dialogue were removed, not that the story lines of some graphic novels are more difficult to understand than Text 1 acknowledges. Choice D is incorrect because the author of Text 1 doesn't imply that graphic novels aren't well crafted, only that they use language too sparingly to fit the definition of "literature," and that their use of images to convey stories makes them more comparable to film than to literature. Even if the author of Text 1 had implied that most graphic novels aren't well crafted, Text 2 refers to the fact that many graphic novels are as beautifully written—that is, well crafted—as many standard novels; thus, it wouldn't be accurate to say that the author of Text 2 would agree with the author of Text 1 that most graphic novels aren't well crafted.

Question ID 9421ed62

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 9421ed62

In 2007, computer scientist Luis von Ahn was working on converting printed books into a digital format. He found that some words were distorted enough that digital scanners couldn’t recognize them, but most humans could easily read them. Based on that finding, von Ahn invented a simple security test to keep automated “bots” out of websites. The first version of the reCAPTCHA test asked users to type one known word and one of the many words scanners couldn’t recognize. Correct answers proved the users were humans and added data to the book-digitizing project.

Which choice best states the main purpose of the text?

- A. To discuss von Ahn’s invention of reCAPTCHA
- B. To explain how digital scanners work
- C. To call attention to von Ahn’s book-digitizing project
- D. To indicate how popular reCAPTCHA is

ID: 9421ed62 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most accurately states the main purpose of the text. After providing a brief introduction to computer scientist Luis von Ahn, the text focuses on discussing how von Ahn’s digitization work led to the invention of a digital security test known as reCAPTCHA.

Choice B is incorrect because the text doesn’t address how digital scanners work. Choice C is incorrect. Although the text mentions von Ahn’s book-digitizing project, that information is provided as a detail, not as the main purpose of the text. Choice D is incorrect because the text doesn’t provide any indication of reCAPTCHA’s popularity; instead, it describes reCAPTCHA’s origin.

Question ID e0656211

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: e0656211

In *Nature Poem* (2017), Kumeyaay poet Tommy Pico portrays his _____ the natural world by honoring the centrality of nature within his tribe’s traditional beliefs while simultaneously expressing his distaste for being in wilderness settings himself.

Which choice completes the text with the most logical and precise word or phrase?

- A. responsiveness to
- B. ambivalence toward
- C. renunciation of
- D. mastery over

ID: e0656211 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s description of how Pico feels about the natural world. In this context, to say that Pico portrays his “ambivalence toward” nature would mean that he portrays his mixed feelings about nature. The text explains that Pico “honors the centrality of nature” and also makes it clear that he doesn’t enjoy being in nature. This context suggests that Pico feels ambivalence toward nature.

Choice A is incorrect because saying that Pico portrays his “responsiveness to” nature would mean that he portrays himself as quick to react to nature, which isn’t supported by the text. Instead, the text focuses on Pico’s mixed feelings toward nature, describing him as both honoring nature’s role in his tribe’s beliefs and expressing his personal dislike for being in nature. Choice C is incorrect because saying that Pico portrays his “renunciation of” nature would mean that he portrays himself as rejecting nature, which isn’t supported by the text. The text conveys that Pico demonstrates both positive and negative responses toward nature, not that he’s giving it up completely. Choice D is incorrect because saying that Pico portrays his “mastery over” nature would mean that he portrays himself as having control over nature, which isn’t supported by the text. The text focuses on Pico’s mixed feelings about nature; nothing in the text suggests that Pico feels mastery over nature.

ID: d91e5499

A team of paleontologists has found a rich fossil deposit near Gulgong, Australia. The fossils are so well preserved that the team has been able to _____ detailed information about the life forms that left them behind, such as color patterns and how they interacted with other species.

Which choice completes the text with the most logical and precise word or phrase?

- A. occupy
- B. hoard
- C. reserve
- D. obtain

ID: d91e5499 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of the fossil deposit. In this context, "obtain" means gain or acquire. According to the text, a team of paleontologists has found fossils that are very well preserved. For this reason, the text suggests, the paleontologists have been able to gain detailed information from the fossils, such as the color patterns of the life forms that left them behind.

Choice A is incorrect because "occupy" means engage or inhabit, neither of which would make sense in context. It’s unclear what it would mean for detailed information revealed by fossils to be engaged or inhabited. Choice B is incorrect because the text gives no indication that the paleontologists wanted to "hoard," or collect and hide, the detailed information revealed by the well-preserved fossils. Choice C is incorrect because the text gives no indication that the paleontologists wanted to "reserve," or withhold, the detailed information revealed by the well-preserved fossils.

Question Difficulty:
Easy

Question ID 8de51658

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: 8de51658

Text 1

The idea that time moves in only one direction is instinctively understood, yet it puzzles physicists. According to the second law of thermodynamics, at a macroscopic level some processes of heat transfer are irreversible due to the production of entropy—after a transfer we cannot rewind time and place molecules back exactly where they were before, just as we cannot unbreak dropped eggs. But laws of physics at a microscopic or quantum level hold that those processes *should* be reversible.

Text 2

In 2015, physicists Tiago Batalhão et al. performed an experiment in which they confirmed the irreversibility of thermodynamic processes at a quantum level, producing entropy by applying a rapidly oscillating magnetic field to a system of carbon-13 atoms in liquid chloroform. But the experiment “does not pinpoint ... what causes [irreversibility] at the microscopic level,” coauthor Mauro Paternostro said.

Based on the texts, what would the author of Text 1 most likely say about the experiment described in Text 2?

- A. It would suggest an interesting direction for future research were it not the case that two of the physicists who conducted the experiment disagree on the significance of its findings.
- B. It provides empirical evidence that the current understanding of an aspect of physics at a microscopic level must be incomplete.
- C. It is consistent with the current understanding of physics at a microscopic level but not at a macroscopic level.
- D. It supports a claim about an isolated system of atoms in a laboratory, but that claim should not be extrapolated to a general claim about the universe.

ID: 8de51658 Answer

Correct Answer:
B

Rationale

Choice B is the best answer. Author 1 describes the puzzle that physicists still can’t solve: at a microscopic level, the “laws of physics” suggest that we should be able to reverse processes that are not reversible at a macroscopic level (and, maybe, turn back time!). The experiment confirmed that those processes are not reversible even on the microscopic level, but it didn’t explain why. This supports Author 1’s point that physicists still don’t fully understand how things work at a microscopic level—maybe the laws need to be revised.

Choice A is incorrect. We can’t infer that the author of Text 1 would respond this way to the experiment. Text 2 does name two of the physicists involved in the experiment, but it never suggests that they disagree on anything. Choice C is incorrect. This is the opposite of what the experiment suggests. The experiment confirmed that the macroscopic-level law (“these things can’t be reversed—like time”) was still true on the microscopic level—meaning it supports the current understanding of physics at a macroscopic level. Choice D is incorrect. We can’t infer that the author of Text 1 would respond this way to the experiment. Neither text makes this distinction between laboratory findings and the way the universe works in general.

Question Difficulty:
Medium

Question ID aa5897b8

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: aa5897b8

In Jane Austen’s novel *Mansfield Park*, an almost imperceptible smile from potential suitor Henry Crawford causes the protagonist Fanny Price to blush; her embarrassment grows when she suspects that he is aware of it. This moment—in which Fanny not only infers Henry’s mental state through his gestures, but also infers that *he* is drawing inferences about *her* mental state—illustrates what literary scholar George Butte calls “deep intersubjectivity,” a technique for representing interactions between consciousnesses through which Austen’s novels derive much of their social and psychological drama.

Which choice best describes the function of the underlined sentence in the text as a whole?

- A. It states a claim about Austen’s skill at representing psychological complexity that is reinforced by an example presented in the following sentence.
- B. It advances an interpretation of an Austen protagonist who is contrasted with protagonists from other Austen novels cited in the following sentence.
- C. It describes a recurring theme in Austen’s novels that is the focus of a literary scholar’s analysis summarized in the following sentence.
- D. It provides a synopsis of an interaction in an Austen novel that illustrates a literary concept discussed in the following sentence.

ID: aa5897b8 Answer

Correct Answer:
D

Rationale

Choice D is the best answer. The underlined sentence provides a concrete example to ground readers’ understanding of the “deep intersubjectivity” described in the next sentence as central to Austen’s work.

Choice A is incorrect. There is no evaluation made of Austen’s skill in this sentence, and no examples are given in the following sentence. This choice essentially flips the paragraph: it’s this first sentence that provides an example. Choice B is incorrect. There are no other Austen protagonists mentioned in this passage, so this couldn’t be the answer. Choice C is incorrect. The underlined sentence doesn’t identify any “recurring theme,” but instead simply describes one interaction from one book. This interaction exemplifies the literary technique of “deep intersubjectivity” that is introduced in the next sentence.

Question Difficulty:
Hard

Question ID a4ca92fd

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: a4ca92fd

Beginning in the 1950s, Navajo Nation legislator Annie Dodge Wauneka continuously worked to promote public health; this _____ effort involved traveling throughout the vast Navajo homeland and writing a medical dictionary for speakers of *Diné bizaad*, the Navajo language.

Which choice completes the text with the most logical and precise word or phrase?

- A. impartial
- B. offhand
- C. persistent
- D. mandatory

ID: a4ca92fd Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of Annie Dodge Wauneka’s work as a Navajo Nation legislator. As used in this context, “persistent” means existing continuously. The text states that Wauneka “continuously worked to promote public health,” traveling extensively and authoring a medical dictionary; this indicates that Wauneka’s effort was persistent.

Choice A is incorrect because describing Wauneka’s effort related to public health as “impartial,” or not partial or biased and treating all things equally, wouldn’t make sense in context. The text suggests that Wauneka’s continuous work was partial in one way, as she focused specifically on promoting public health throughout the Navajo homeland and to speakers of the Navajo language. Choice B is incorrect because the text emphasizes that Wauneka’s effort to promote public health as a Navajo Nation legislator was continuous and extensive, involving wide travels and the authoring of a medical dictionary. Because this work clearly involved care and dedication, it wouldn’t make sense to describe it as “offhand,” or casual and informal. Choice D is incorrect because nothing in the text suggests that Wauneka’s effort to promote public health was “mandatory,” or required by law or rule, even though Wauneka was a Navajo Nation legislator. Rather than suggesting that Wauneka’s effort was required for any reason, the text emphasizes the continuous and extensive nature of her work.

SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 760ee1db

Although the playwrights hoped that their play would be _____ when performed live, critics generally agreed that the production and performances had the opposite effect, wearying audiences instead of energizing them.

Which choice completes the text with the most logical and precise word or phrase?

- A. multifaceted
- B. realistic
- C. rousing
- D. subtle

ID: 760ee1db Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of the play’s effect on audiences. As used in this context, “rousing” means exciting or energizing. The text indicates that critics found the play to have “the opposite effect” on audiences of what the playwrights hoped for. The critics, the text says, thought the play was wearying rather than energizing to viewers. This context supports the idea that the playwrights hoped live performances of the play would be energizing, or rousing, to audiences.

Choice A is incorrect because there’s no information in the text suggesting that the playwrights hoped live performances of the play would be “multifaceted,” or be varied or have many aspects. The text indicates that critics found the play to be wearying to audiences and that this was the opposite of what the playwrights hoped for. Multifaceted is not the opposite of wearying, but rousing is, which suggests that the playwrights hoped the play would be rousing. Choice B is incorrect because there’s no information in the text suggesting that the playwrights hoped live performances of the play would be “realistic,” or lifelike or sensible. The text says that critics found the play to be wearying to audiences and that this was the opposite of what the playwrights hoped for. Realistic is not the opposite of wearying, but rousing is, which suggests that the playwrights hoped the play would be rousing. Choice D is incorrect because there’s no information in the text suggesting that the playwrights hoped live performances of the play would be subtle, or complex or understated. The text says that critics found the play to be wearying to audiences and that this was the opposite of what the playwrights hoped for. Subtle is not the opposite of wearying, but rousing is, which suggests that the playwrights hoped the play would be rousing.

ID: 0ee67e09

Anthropologist Kristian J. Carlson and colleagues examined the fossilized clavicle and shoulder bones of a 3.6-million-year-old early hominin known as “Little Foot.” They found that these bones were _____ the clavicle and shoulder bones of modern apes that are frequent climbers, such as gorillas and chimpanzees, suggesting that Little Foot had adapted to life in the trees.

Which choice completes the text with the most logical and precise word or phrase?

- A. surpassed by
- B. comparable to
- C. independent of
- D. obtained from

ID: 0ee67e09 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of the fossilized bones of the hominin known as Little Foot. As used in this context, “comparable to” would mean similar to. The text indicates that the relationship between the fossilized clavicle and shoulder bones of Little Foot and the clavicle and shoulder bones of “frequent climbers,” such as chimpanzees and gorillas, suggests that Little Foot had adapted to moving around in trees. This context suggests that the relationship between the fossilized bones of Little Foot and the bones of chimpanzees and gorillas is one of similarity—the Little Foot fossils are likely comparable to the modern ape bones.

Choice A is incorrect because if the fossilized bones of Little Foot were “surpassed by,” or exceeded by or made inferior to, the bones of modern apes that are frequent climbers, it wouldn’t suggest, as the text says, that Little Foot was adapted to moving around in trees. If anything, learning that Little Foot’s clavicle and shoulder bones were surpassed by those of chimpanzees and gorillas would suggest that Little Foot was poorly adapted to climbing. Choice C is incorrect because if Little Foot’s fossilized clavicle and shoulder bones were “independent of,” or not influenced by or affiliated with, the bones of modern apes that climb often, it wouldn’t suggest, as the text says, that Little Foot was adapted to moving around in trees. Choice D is incorrect because the text indicates that Little Foot’s fossilized bones date to 3.6 million years ago, so they couldn’t have been “obtained from,” or acquired from, the bones of modern apes.

Question Difficulty:
Easy

Question ID 7a327791

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 7a327791

Novelist Leon Forrest admired William Faulkner’s writing style. Forrest’s novel *Divine Days* contains a long passage in tribute to Faulkner that is a perfect _____ of Faulkner’s style: anyone familiar with Faulkner’s writing would see the resemblance.

Which choice completes the text with the most logical and precise word or phrase?

- A. forgetting
- B. rejection
- C. imitation
- D. opinion

ID: 7a327791 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of novelist Leon Forrest’s admiration of William Faulkner’s writing style. In this context, "imitation" means something that resembles or reproduces something else. The text states that Forrest admired Faulkner’s style and that anyone familiar with Faulkner’s style would be able to see the stylistic similarities between a particular passage in Forrest’s novel *Divine Days* and Faulkner’s writing, a fact that supports the idea that Forrest’s novel pays tribute to Faulkner by reproducing, or imitating, Faulkner’s style.

Choice A is incorrect because in this context, a "forgetting" would mean an instance in which something is overlooked or not remembered. The text emphasizes Forrest’s admiration for Faulkner’s style and the fact that Forrest’s writing in some instances closely resembles Faulkner’s stylistically. It therefore wouldn’t make sense to say that in trying to pay tribute to Faulkner’s style, Forrest failed to remember it. Choice B is incorrect because in this context, a "rejection" would mean a dismissal of something as unworthy. The text emphasizes Forrest’s admiration for Faulkner’s writing style, stating that parts of Forrest’s writings indicate efforts to copy that style. It wouldn’t make sense therefore to suggest that Forrest had rejected or dismissed Faulkner’s style as unworthy. Choice D is incorrect because in this context, an "opinion" would mean a view or judgment. Although the text focuses on Forrest’s admiration of Faulkner, which suggests that Forrest had formed a positive judgment of Faulkner’s style, the word opinion wouldn’t make sense in this sentence: the sentence doesn’t say that the passage from Forrest’s novel expresses his view of Faulkner’s style; rather, it suggests that stylistically, the passage closely resembles, or imitates, Faulkner’s writing.

Question Difficulty:
Easy

Question ID d3ca5d59

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: d3ca5d59

Stephen Hannock’s luminous landscape paintings are appealing to viewers but have elicited little commentary from contemporary critics, a phenomenon that may be due to the very fact that the paintings seem so _____. Many critics focus their attention on art that is cryptic or overtly challenging.

Which choice completes the text with the most logical and precise word or phrase?

- A. innovative
- B. subversive
- C. profound
- D. accessible

ID: d3ca5d59 Answer

Correct Answer:
D

Rationale

Choice D is the best answer. When talking about a thing, “accessible” means “easy to understand.” This sets up the contrast in the next sentence, which tells us that critics mostly focus on art that is “cryptic or challenging” (meaning not easy to understand).

Choice A is incorrect. This doesn’t fit the logic of the text. The next sentence tells us that critics focus on art that is mysterious and challenging. If Hannock’s paintings are “innovative” (meaning advanced and original), then critics probably would comment on them. Choice B is incorrect. This doesn’t fit the logic of the text. The next sentence tells us that critics focus on art that is mysterious and challenging. If Hannock’s paintings are “subversive” (meaning disruptive and revolutionary), then critics probably would comment on them. Choice C is incorrect. This doesn’t fit the logic of the text. The next sentence tells us that critics focus on art that is mysterious and challenging. If Hannock’s paintings are “profound” (meaning very deep and insightful), then critics probably would comment on them.

Question Difficulty:
Medium

Question ID c14daa3c

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: c14daa3c

Close analysis of the painting *Girl with a Flute*, long attributed to the seventeenth-century Dutch painter Johannes Vermeer, has revealed subtle deviations from the artist’s signature techniques. These variations suggest that the work may be that of a student under Vermeer’s tutelage—potentially _____ our understanding of Vermeer as a solitary artist.

Which choice completes the text with the most logical and precise word or phrase?

- A. negating
- B. prefiguring
- C. entrenching
- D. substantiating

ID: c14daa3c Answer

Correct Answer:
A

Rationale

Choice A is the best answer. "Negating" means "reversing" or "making invalid." Proving that Vermeer worked with students would reverse the view of him as a solitary artist.

Choice B is incorrect. "Prefiguring" means "being an early indicator of." There already existed views of Vermeer as a solitary painter, so a new painting would not be an early indicator of those views. Rather, a painting proving that Vermeer had a student would contradict those earlier views. Choice C is incorrect. "Entrenching" means "solidifying." A painting proving that Vermeer had a student would not solidify views of him as solitary, but would rather contradict those views. Choice D is incorrect. "Substantiating" means "supporting with proof." A painting proving that Vermeer had a student would not support views of him as solitary, but would rather contradict those views.

Question Difficulty:
Hard

Question ID 2e8ab360

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 2e8ab360

Eighteenth-century historian Edward Gibbon thought the only character defect of the Roman emperor Marcus Aurelius was his mild temperament—though the emperor was widely considered virtuous, his overly permissive nature led him to _____ the vices of those who surrounded him.

Which choice completes the text with the most logical and precise word or phrase?

- A. indulge
- B. despise
- C. moderate
- D. criticize

ID: 2e8ab360 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most logically completes the text’s discussion of the Roman emperor Marcus Aurelius. In this context, "indulge" means treat with excessive leniency. The text states that according to historian Edward Gibbon, Marcus Aurelius, who was widely considered virtuous, had only a single character flaw: his mild temperament. The text suggests that because of this flaw, Marcus Aurelius had an overly permissive nature. This context, in turn, supports the idea that Marcus Aurelius treated the vices, or evils, of those around him with excessive leniency, indulging rather than punishing those vices.

Choice B is incorrect. While the text does state that Marcus Aurelius was widely considered virtuous, it gives no indication that he was inclined to "despise," or hate, others’ vices. Rather, the text suggests that he showed undue tolerance for these vices because of his overly permissive nature—that is, his inclination to allow others to do as they wished. Choice C is incorrect because the text’s description of Marcus Aurelius as overly permissive suggests that he showed undue tolerance for others’ vices, not that he tried to "moderate" those vices, or lessen their intensity. Choice D is incorrect because the text’s description of Marcus Aurelius as overly permissive suggests that he showed undue tolerance for others’ vices, not that he attempted to "criticize," or speak disapprovingly of, those vices.

Question Difficulty:
Medium

Question ID 52fe862a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 52fe862a

Researcher Lucy Salazar is using radiocarbon dating to study Machu Picchu, an ancient Incan fortress in the Andes Mountains. She and her colleagues have found that the site’s age differs from the _____ estimate: it is approximately 20 years older than scholars thought when first encountering Machu Picchu in 1911.

Which choice completes the text with the most logical and precise word or phrase?

- A. genuine
- B. intentional
- C. independent
- D. original

ID: 52fe862a Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of the dating of Machu Picchu. In this context, "original" means first or initial. The text indicates that Lucy Salazar and her colleagues have determined the age of Machu Picchu and that the age differs from another estimate of the site’s age, explaining that the site is about 20 years older than scholars thought in 1911 when they initially encountered Machu Picchu. In other words, Salazar and her team found that the site’s age differs from the first estimate.

Choice A is incorrect. The text’s structure indicates that the missing word describes the estimate made by scholars when they first encountered Machu Picchu in 1911 in relation to the age determined by Salazar and her colleagues. It wouldn’t make sense to suggest that the estimate by earlier scholars was "genuine," or actual and true, while the one by Salazar’s team wasn’t, since the text treats the finding by Salazar’s team as true and as invalidating the earlier estimate ("it is approximately 20 years older than scholars thought"). Choice B is incorrect. The text’s structure indicates that the missing word describes the estimate made by scholars when they first encountered Machu Picchu in 1911 in relation to the age determined by Salazar and her colleagues. It wouldn’t make sense to suggest that the estimate by earlier scholars was "intentional," or done on purpose, while the one by Salazar’s team wasn’t; the text indicates that Salazar and her colleagues were deliberately using radiocarbon dating to study Machu Picchu. Choice C is incorrect. The text’s structure indicates that the missing word describes the estimate made by scholars when they first encountered Machu Picchu in 1911 in relation to the age determined by Salazar and her colleagues. There’s no reason to suggest that the estimate by earlier scholars was "independent," or not controlled by or affiliated with others, while the one by Salazar’s team wasn’t; there’s no mention of any outside influence on the work by Salazar and her team or by scholars in 1911.

Question Difficulty:

Question ID 74446089

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 74446089

For his 1986 album *Keyboard Fantasies*, Beverly Glenn-Copeland wrote songs grounded in traditional soul and folk music, then accompanied them with futuristic synthesizer arrangements featuring ambient sounds and complex rhythms. The result was so strange, so unprecedented, that the album attracted little attention when first released. In recent years, however, a younger generation of musicians has embraced the stylistic experimentation of *Keyboard Fantasies*. Alternative R&B musicians Blood Orange and Moses Sumney, among other contemporary recording artists, cite the album as an influence.

Which choice best describes the function of the underlined sentence in the text as a whole?

- A. It urges contemporary musicians to adopt the unique sound of *Keyboard Fantasies*.
- B. It responds to criticism of *Keyboard Fantasies* by some younger musicians.
- C. It offers examples of younger musicians whose work has been impacted by *Keyboard Fantasies*.
- D. It contrasts *Keyboard Fantasies* with the recordings of two younger musicians.

ID: 74446089 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most accurately describes the function of the underlined sentence in the text as a whole. The text’s subject is Beverly Glenn-Copeland’s 1986 album *Keyboard Fantasies*, notable for its innovative, experimental arrangements. According to the text, the album was not initially admired, but in recent years it has become popular among younger musicians. The underlined portion of the text mentions two of those musicians, Blood Orange and Moses Sumney, who “cite the album as an influence.” Therefore, the underlined portion of the text offers examples of younger musicians whose work has been impacted by *Keyboard Fantasies*.

Choice A is incorrect because even though the underlined sentence states that Blood Orange and Moses Sumney were influenced by *Keyboard Fantasies*, it doesn’t say that all other musicians should also embrace the album’s experimental style. Choice B is incorrect. Although the text states that *Keyboard Fantasies* was not admired on its first release, the text doesn’t present any criticism of the album by younger musicians: it only presents two younger musicians who cite it as an influence. Choice D is incorrect because the underlined sentence doesn’t mention any differences between *Keyboard Fantasies* and the work of Blood Orange and Moses Sumney.

Question Difficulty:

Although critics believed that customers would never agree to pay to pick their own produce on farms, such concerns didn't _____ Booker T. Whatley's efforts to promote the practice. Thanks in part to Whatley's determined advocacy, farms that allow visitors to pick their own apples, pumpkins, and other produce can be found throughout the United States.

Which choice completes the text with the most logical and precise word or phrase?

- A. enhance
- B. hinder
- C. misrepresent
- D. aggravate

ID: 479c7e82 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of Booker T. Whatley. In this context, "hinder" means hold back or obstruct. The text explains that Whatley encouraged farms to allow customers on site to pick their own produce for a fee. He did so despite critics' concerns that the customers would never pay to do so. This context establishes that the critics' concerns didn't hinder Whatley's efforts to promote the practice.

Choice A is incorrect. The text indicates that critics' skepticism of the idea that customers would pay to pick their own produce didn't have some effect on Whatley's promotion of the practice. The text illustrates this assertion by describing Whatley's "determined advocacy" for the practice. This context suggests that critics' concerns didn't obstruct Whatley's efforts, not that critics' concerns didn't "enhance," or increase or improve, Whatley's efforts. Choice C is incorrect because in this context, "misrepresent" would mean portray inaccurately, and the text includes no information relevant to the issue of how Whatley's efforts were portrayed by critics of the practice of charging customers to pick their own produce. Choice D is incorrect. The text indicates that critics' skepticism of the idea that customers would pay to pick their own produce didn't have some effect on Whatley's promotion of the practice. The text illustrates this assertion by describing Whatley's "determined advocacy" for the practice. This context suggests that critics' concerns didn't obstruct Whatley's efforts, not that critics' concerns didn't "aggravate," or irritate or make more severe, Whatley's efforts.

Easy

Question ID 422c5068

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 422c5068

Generally it takes Tule geese about four days to migrate south for the winter. From their summer breeding grounds in Cook Inlet, Alaska, the birds begin by flying over the Gulf of Alaska, keeping about 100 miles from the Canadian shore. They pause to rest on the Pacific Ocean, then fly toward Summer Lake, Oregon, before finally arriving at their winter destination of Sacramento Valley, California. In 2020, however, it took the geese over twice as long to make their way from Cook Inlet to Sacramento Valley. According to researchers, the reason was airborne pollutants.

Which choice best states the function of the underlined portion in the text as a whole?

- A. It illustrates a change in Tule geese’s usual flight behavior.
- B. It suggests an explanation for why Tule geese breed in Alaska.
- C. It describes part of the Tule geese’s typical winter migration journey.
- D. It compares Tule geese to other birds that migrate south for the winter.

ID: 422c5068 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it best states how the underlined portion functions in the text as a whole. The first sentence states that Tule geese typically take four days to migrate south. Then in the next sentence, which contains the underlined portion, the text describes the first part of that journey, which begins with the geese flying over the Gulf of Alaska while keeping about 100 miles from the Canadian shore. The rest of the text details the remainder of the geese’s typical journey and then mentions circumstances in 2020 that resulted in the geese taking an unusually long time to complete it. Thus, the underlined portion describes part of the Tule geese’s typical winter migration journey.

Choice A is incorrect. Although the text concludes by stating that in 2020, Tule geese took twice as long to complete their typical migration, which suggests a change in their usual flight behavior, the underlined portion doesn’t discuss this. Instead, the underlined portion describes the first part of the Tule geese’s typical winter migration journey over the Gulf of Alaska. Choice B is incorrect. Although the sentence containing the underlined portion mentions that Tule geese breed in Alaska, the underlined portion doesn’t explain why the geese breed in that location. Rather, the text mentions Alaska to explain that it’s the starting point of the Tule geese’s typical winter migration. Choice D is incorrect because the underlined portion doesn’t discuss any other birds that migrate south for the winter. In fact, the text is only concerned with the migration of Tule geese.

Question Difficulty:
Medium

Question ID 04e4c51d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 04e4c51d

Taking photographs in the mid-1800s was complicated and expensive, but this changed with the 1854 invention of the *carte de visite*, a small photo that cost little to make. *Carte de visite* photos helped to _____ photography: they made it easy and enjoyable for everyday people to have their pictures taken, and people at the time loved exchanging these small photos with friends and family.

Which choice completes the text with the most logical and precise word or phrase?

- A. weaken
- B. praise
- C. popularize
- D. isolate

ID: 04e4c51d Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of *carte de visite* photos. To "popularize" a technology is to allow it to be used and appreciated widely. The text explains that unlike the photos produced by earlier forms of photographic technology, *carte de visite* photos were inexpensive and could easily be obtained by "everyday people," who enjoyed exchanging the images. Therefore, *carte de visite* photos helped popularize photography.

Choice A is incorrect because the text indicates that instead of weakening the emerging technology of photography, *carte de visite* photos allowed it to be more widely accessed and enjoyed by people. Choice B is incorrect. The text establishes that large numbers of people enjoyed using *carte de visite* photos, so it can be inferred that these photos caused photography to be praised, or celebrated. However, it wouldn’t make sense to say that inanimate objects—in this case, photos—had praised photography; instead, *carte de visite* consumers themselves would have praised it. Choice D is incorrect because the text explains that rather than isolating photography, or limiting its availability, *carte de visite* technology made photography more widely accessible to people.

Question Difficulty:
Easy

Question ID a68239ed

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: a68239ed

The following text is adapted from Oscar Wilde’s 1897 nonfiction work *De Profundis*.

People whose desire is solely for self-realisation never know where they are going. They can’t know. In one sense of the word it is of course necessary to know oneself: that is the first achievement of knowledge. But to recognise that the soul of a man is unknowable, is the ultimate achievement of wisdom. The final mystery is oneself. When one has weighed the sun in the balance, and measured the steps of the moon, and mapped out the seven heavens star by star, there still remains oneself. Who can calculate the orbit of his own soul?

Which choice best describes the function of the underlined question in the text as a whole?

- A. It reinforces the text’s skepticism about the possibility of truly achieving self-knowledge.
- B. It speculates that some readers will share the doubts expressed in the text about the value of self-knowledge.
- C. It cautions readers that the text’s directions for how to achieve self-knowledge are hard to follow.
- D. It concedes that the definition of self-knowledge advanced in the text is unpopular.

ID: a68239ed Answer

Correct Answer:
A

Rationale

Choice A is the best answer. The text repeatedly claims that true self-knowledge can’t possibly be achieved, and this rhetorical question emphasizes that point.

Choice B is incorrect. The underlined question doesn’t do this. The text never expresses doubts about the value of self-knowledge—rather, the text expresses doubts about the possibility of achieving self-knowledge. Choice C is incorrect. The underlined question doesn’t do this. The text doesn’t provide directions for how to achieve self-knowledge—rather, it claims that true self-knowledge is impossible to achieve. Choice D is incorrect. The underlined question doesn’t do this. The text doesn’t ever define self-knowledge, and popularity isn’t mentioned in the text at all.

Easy

Question ID 1ad04ea0

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 1ad04ea0

In habitats with limited nutrients, certain fungus species grow on the roots of trees, engaging in mutually beneficial relationships known as ectomycorrhizae: in this symbiotic exchange, the tree provides the fungus with carbon, a nutrient necessary for both species, and the fungus _____ by enhancing the tree’s ability to absorb nitrogen, another key nutrient, from the soil.

Which choice completes the text with the most logical and precise word or phrase?

- A. overreacts
- B. reciprocates
- C. retaliates
- D. deviates

ID: 1ad04ea0 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of ectomycorrhizae relationships. In this context, “reciprocates” means responds in kind or degree. The text indicates that the relationship between certain fungi and trees in some habitats is “mutually beneficial” and involves a “symbiotic exchange” in which each organism helps the other access an important nutrient. In other words, each organism provides the same kind of benefit it receives: the tree provides a nutrient (carbon) for the fungus and the fungus reciprocates by helping the tree to absorb more of another nutrient (nitrogen).

Choice A is incorrect because the text emphasizes that the relationship between certain fungi and trees in some habitats involves a “symbiotic exchange” in which each organism helps the other access an important nutrient. Nothing in the text suggests that the fungus “overreacts,” or responds too strongly, by allowing the tree to be better able to absorb a beneficial nutrient. Choice C is incorrect because “retaliates” means responds to a harmful action with a similarly harmful action. The text indicates that the relationship between certain fungi and trees in some habitats is “mutually beneficial” and involves a “symbiotic exchange” in which each organism helps the other, not that the relationship is one in which the organisms harm one another. Choice D is incorrect. In this context, “deviates” would mean departs from an established course or norm. The text explains that the relationship between certain fungi and trees in some habitats involves a “symbiotic exchange” in which each organism helps the other access an important nutrient. Because the relationship involves benefits for both the fungus and the tree, it wouldn’t make sense to say that the fungus deviates by helping the tree be better able to absorb a beneficial nutrient.

Question Difficulty:
Easy

Question ID c4900368

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: c4900368

The following text is from the 1924 poem “Cycle” by D’Arcy McNickle, who was a citizen of the Confederated Salish and Kootenai Tribes.

There shall be new roads wending,
A new beating of the drum—
Men’s eyes shall have fresh seeing,
Grey lives reprise their span—
But under the new sun’s being,
Completing what night began,
There’ll be the same backs bending,
The same sad feet shall drum—
When this night finds its ending
And day shall have come.....

Which choice best states the main purpose of the text?

- A. To consider how the repetitiveness inherent in human life can be both rewarding and challenging
- B. To question whether activities completed at one time of day are more memorable than those completed at another time of day
- C. To refute the idea that joy is a more commonly experienced emotion than sadness is
- D. To demonstrate how the experiences of individuals relate to the experiences of their communities

ID: c4900368 Answer

Correct Answer:

A

Rationale

Choice A is the best answer because it accurately states the main purpose of the text. The text begins by discussing the promise of the future, with positive references to renewal such as “new roads,” “new beating of the drum,” and “fresh seeing.” But with the “new sun,” the text continues, there will still be “the same backs bending” and “the same sad feet” drumming, indicating that these difficulties will follow people into this new day. The poem thus considers both the rewards and challenges associated with the repetitiveness of human life.

Choice B is incorrect because the text doesn’t say anything about how memorable activities are, let alone compare the memorability of activities completed at different times of the day. Choice C is incorrect. Although the text contrasts hope with difficulty, it does not compare the relative frequency of joyful feelings with that of sad feelings. Choice D is incorrect because the text makes no distinction between the experiences of individuals and the experiences of their communities.

Question Difficulty:

Medium

Question ID 8963273a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 8963273a

Musician Joni Mitchell, who is also a painter, uses images she creates for her album covers to emphasize ideas expressed in her music. For the cover of her album *Turbulent Indigo* (1994), Mitchell painted a striking self-portrait that closely resembles Vincent van Gogh’s *Self-Portrait with Bandaged Ear* (1889). The image calls attention to the album’s title song, in which Mitchell sings about the legacy of the postimpressionist painter. In that song, Mitchell also hints that she feels a strong artistic connection to Van Gogh—an idea that is reinforced by her imagery on the cover.

Which choice best describes the overall structure of the text?

- A. It presents a claim about Mitchell, then gives an example supporting that claim.
- B. It discusses Van Gogh’s influence on Mitchell, then considers Mitchell’s influence on other artists.
- C. It describes a similarity between two artists, then notes a difference between them.
- D. It describes the songs on *Turbulent Indigo*, then explains how they relate to the album’s cover.

ID: 8963273a Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it accurately describes the organization of the elements within the text. The text begins with the claim that Joni Mitchell’s album covers use images she creates in order to emphasize ideas embedded in her albums. It then goes on to provide an example of how Mitchell’s self-portrait on the cover of *Turbulent Indigo* resembles a painting by Van Gogh, which the text indicates helps emphasize the strong connection Mitchell feels toward Van Gogh, a connection that is also expressed in the album’s title song.

Choice B is incorrect because there are no references in the text to artists other than Joni Mitchell and Van Gogh. Choice C is incorrect because there is nothing in the text that calls attention to any similarities or differences between Joni Mitchell and Van Gogh. Instead, it mentions that Mitchell feels a strong “artistic connection” to Van Gogh. Choice D is incorrect because the text discusses the cover before referring to any songs, and it only references one song from the album not all the songs.

Question Difficulty:
Medium

Question ID b411eb09

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: b411eb09

New and interesting research conducted by Suleiman A. Al-Sweedan and Moath Alhaj is inspired by their observation that though there have been many studies of the effect of high altitude on blood chemistry, there is a _____ studies of the effect on blood chemistry of living in locations below sea level, such as the California towns of Salton City and Seeley.

Which choice completes the text with the most logical and precise word or phrase?

- A. quarrel about
- B. paucity of
- C. profusion of
- D. verisimilitude in

ID: b411eb09 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically and precisely completes the text’s discussion of studies of altitude’s effect on blood chemistry. In this context, “paucity of” means lack of. In describing the inspiration behind Al-Sweedan and Alhaj’s research, the text uses the word “though” to suggest a contrasting relationship between two types of studies: those examining the effect on blood chemistry of living at a high altitude and those examining the effect on blood chemistry of living in locations below sea level. This contrasting relationship and the text’s use of the word “many” provide context suggesting that there are few, if any, examples of the second type of study, whereas there are numerous examples of the first type.

Choice A is incorrect because it wouldn’t make sense in context for there to be a “quarrel about,” or open disagreement about, studies of the effect on blood chemistry of living in locations below sea level. The text’s use of the words “though” and “many” suggests a contrasting relationship in terms of amount between two types of studies: those examining the effect on blood chemistry of living at a high altitude and those examining the effect on blood chemistry of living in locations below sea level. There’s nothing in the text to suggest that the contrast between the two types of studies involves the extent to which researchers broadly agree or disagree about the contents of either type. Choice C is incorrect because it wouldn’t make sense in context for there to be a “profusion of,” or great abundance of, studies of the effect on blood chemistry of living in locations below sea level. The text’s use of the words “though” and “many” suggests a contrasting relationship in terms of amount between two types of studies: those examining the effect on blood chemistry of living at a high altitude and those examining the effect on blood chemistry of living in locations below sea level. Rather than logically completing this contrast, “profusion of” would indicate that the two types of studies are similar in terms of amount, with many examples existing of both types. Choice D is incorrect because it wouldn’t make sense in context for there to be a “verisimilitude in,” or appearance of truth in, studies of the effect on blood chemistry of living in locations below sea level. The text’s use of the words “though” and “many” suggests a contrasting relationship in terms of amount between two types of studies: those examining the effect on blood chemistry of living at a high altitude and those examining the effect on blood chemistry of living in locations below sea level. There’s nothing in the text to suggest that the contrast between the two types of studies involves the extent to which either type of study presents an appearance of truth.

Question Difficulty:

Hard

Question ID c6bd3447

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: c6bd3447

The following text is from Virginia Woolf’s 1919 novel *Night and Day*. The text describes a gathering of young artists and intellectuals.

One person after another rose, and, as with an ill-balanced axe, attempted to hew out his conception of art a little more clearly, and sat down with the feeling that, for some reason which he could not grasp, his strokes had gone awry. As they sat down they turned almost invariably to the person sitting next them, and rectified and continued what they had just said in public.

Which choice best describes the function of the underlined portions in the text as a whole?

- A. To demonstrate individuals’ puzzlement over the reputation of a certain artwork
- B. To highlight the physical effort involved in individuals’ construction of large-scale works of art
- C. To draw attention to individuals’ discontent with the group’s conversation about art
- D. To emphasize the extent of individuals’ struggles to articulate thoughts on art

ID: c6bd3447 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most accurately describes the function of the underlined portions in the text as a whole. The underlined portions describe the young artists and intellectuals at the gathering as trying to "hew out," or give shape to, their views of art more clearly, but with each seeming to be using "an ill-balanced axe" and then feeling that the "strokes had gone awry." In context, the metaphorical language comparing attempts to refine concepts of art to imprecisely cutting wood with an inadequate axe serves to emphasize how much the individuals at the gathering struggled to articulate, or express, their thoughts; indeed, the text explains that the individuals couldn’t quite grasp why their statements had gone awry and tended to try to rectify, or correct, them in continued discussion after they sat down.

Choice A is incorrect because the underlined portions characterize aspects of the young artists and intellectuals’ attempts to present their general views of art more clearly, not their views of the reputation of a certain artwork; the text never mentions any specific artwork or its reputation. Choice B is incorrect. Although the underlined portions refer to a physical activity—cutting wood with an axe—the descriptions are metaphorical rather than literal. The text isn’t describing people constructing works of art, large-scale or otherwise; rather, it’s describing people talking at a gathering, using the idea of imprecisely cutting wood with an inadequate axe to suggest that each individual struggled when trying to present their view of art more clearly. Choice C is incorrect. Although the underlined portions do provide a reason for the young artists and intellectuals’ discontent, the text focuses on the fact that they were each dissatisfied with their own statements, not on how they felt about the group’s full conversation about art. Instead, the text explains that each individual tried to present their view of art more clearly but struggled (as if imprecisely cutting wood with an inadequate axe), couldn’t grasp what went awry, and then felt the need to rectify, or correct, what they had just said. It’s possible that the individuals were also discontented with the group’s conversation overall, but neither the underlined portions nor the text as a whole suggest that.

Question Difficulty:
Medium

Question ID 5a4b147c

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: 5a4b147c

Text 1

On April 26th, 1777, Sybil Ludington rode 40 miles by horse through Putnam County, New York, to gather up local militia. British forces were burning nearby Danbury, Connecticut, and Ludington wanted to rally rebel troops to meet them. Although she was only 16 years old at the time, her brave feat made Ludington one of the heroes of the American Revolution. Since then, Ludington has been widely celebrated, inspiring postage stamps, statues, and even children’s TV series.

Text 2

Historian Paula D. Hunt researched the life and legacy of Sybil Ludington but found no evidence for her famous ride. Although many articles and books have been written about Ludington, Hunt believes writers may have been inventing details about Ludington as they retold her story. Ludington is revered by Americans today, but there simply isn’t a strong historical record of her heroic ride.

Based on the texts, both authors would most likely agree with which statement?

- A. Sybil Ludington was crucial to the outcome of the Revolutionary War.
- B. Historians have confirmed which route Sybil Ludington took.
- C. Sybil Ludington was likely not a real person.
- D. Many people have come to admire the story of Sybil Ludington’s ride.

ID: 5a4b147c Answer

Correct Answer:

D

Rationale

Choice D is the best answer. Both authors agree that Ludington’s story has been widely celebrated and revered by Americans, even if they disagree on its accuracy. Text 1 states that Ludington has inspired postage stamps, statues, and TV series, and Text 2 states that many articles and books have been written about her. Thus, both authors acknowledge the popularity of Ludington’s story.

Choice A is incorrect. Neither author claims that Ludington had a significant impact on the war. Text 1 doesn’t mention how Ludington’s ride affected the war overall, and Text 2 suggests that Ludington’s ride may have been exaggerated or invented over time. Choice B is incorrect. Neither author claims that Ludington’s route has been verified by historians. Text 1 claims she rode 40 miles through Putnam County, but doesn’t cite any sources for this information, while Text 2 suggests the ride may not have even happened. Choice C is incorrect. This choice misreads text 2. Neither author claims that Ludington was not a real person, only that her ride may not have happened. Both authors seem to treat Ludington as a genuine historical figure.

Question Difficulty:

Easy

Question ID c7265342

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: c7265342

The following text is from the 1895 poem “Marshlands” by Emily Pauline Johnson, a Kanienkahagen (Mohawk) writer also known as Tekahionwake.

Among the wild rice in the still lagoon,
In monotone the lizard shrills his tune.
The wild goose, homing, seeks a sheltering,
Where rushes grow, and oozing lichens cling.
Late cranes with heavy wing, and lazy flight,
Sail up the silence with the nearing night.
And like a spirit, swathed in some soft veil,
Steals twilight and its shadows o’er the swale.
Hushed lie the sedges, and the vapours creep,
Thick, grey and humid, while the marshes sleep.

- Which choice best describes the overall structure of the text?
- A. It names animal species found in a place, then names plant species there.
 - B. It sketches a setting by presenting a series of images of nature.
 - C. It makes an extended comparison of nature to human emotions.
 - D. It identifies a location, then refers to a person living there.

ID: c7265342 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it best describes the overall structure of the text. The text first establishes the setting, a "still lagoon," and then goes on to provide more details about the lagoon by presenting several descriptive images of nature, including a lizard that "shrills his tune," "oozing lichens," and "thick, grey and humid" vapors.

Choice A is incorrect. Instead of simply naming species, the text presents descriptive images of nature; further, instead of naming animals and then moving on to name plants, the text refers first to a plant ("the wild rice"), then to two animals ("the lizard," "the wild goose"), then to another plant ("rushes"), and so on. Choice C is incorrect because the text does not draw any comparison between nature and human emotions; it does not refer to human emotions at all. Choice D is incorrect. While the text does begin by identifying a specific location, a "still lagoon," it makes no mention of a person living there.

Question Difficulty:
Medium

Question ID 05575bca

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 05575bca

The following text is adapted from Lewis Carroll’s 1871 novel *Through the Looking-Glass, and What Alice Found There*. Alice, a child, is talking to her cat.

“Do you hear the snow against the window-panes, Kitty? How nice and soft it sounds! Just as if someone was kissing the window all over outside.”

As used in the text, what does the word “soft” most nearly mean?

- A. Gentle
- B. Sensitive
- C. Shapeless
- D. Bland

ID: 05575bca Answer

Correct Answer:
A

Rationale

Choice A is the best answer because as used in the text, "soft" most nearly means gentle. The text portrays Alice speaking about the snow falling against the window, describing it as sounding "nice" and similar to someone "kissing the window." These details most strongly suggest that Alice thinks the sound made by the snow falling against the window is gentle.

Choice B is incorrect. Although in some contexts, "gentle" can mean sensitive, or caring about others’ feelings, that isn’t the meaning in this context; it doesn’t make sense to say that Alice thinks the sound of the snow cares about anything. Choice C is incorrect because the text doesn’t suggest that Alice thinks the sound of the snow is shapeless, or lacks a definite shape; she isn’t indicating how anything looks or feels but, rather, is describing how "nice" and gentle the snow sounds. Choice D is incorrect because the text doesn’t suggest that Alice thinks the sound of the snow is bland, or uninteresting; rather, she notices the sound and comments on how "nice" it is.

Question Difficulty:
Easy

Question ID ce8c03a8

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: ce8c03a8

The Illustrated History of San Mateo County, published in 1878, features several illustrations by Grafton Tyler Brown showing the California county’s farms, residences, and businesses. It was _____ for a business to be featured, since being included suggested that a business was an important part of the community.

Which choice completes the text with the most logical and precise word or phrase?

- A. risky
- B. misleading
- C. advantageous
- D. unremarkable

ID: ce8c03a8 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of businesses being featured in *The Illustrated History of San Mateo County*. In this context, "advantageous" means beneficial or providing a favorable position. The text explains that being included in the book "suggested that a business was an important part of the community," and it can be inferred that an enhanced reputation within the local community would benefit a business, commercially or otherwise. This context supports the idea that being featured in this publication would be advantageous.

Choice A is incorrect because in this context, "risky" would suggest that being featured in *The Illustrated History of San Mateo County* might have negative consequences for a business. However, the text implies only positive outcomes since inclusion indicated importance within the local community. Choice B is incorrect because "misleading" would mean deceptive or deliberately giving a wrong impression, but the text doesn’t indicate there was something deceptive about being featured in *The Illustrated History of San Mateo County*; rather, it suggests that inclusion indicated community importance. Choice D is incorrect because "unremarkable" would mean common or ordinary, which doesn’t make sense in context. The text suggests that inclusion in *The Illustrated History of San Mateo County* instead conferred a special status on a business by conveying its importance in the local community.

Question Difficulty:
Medium

Question ID 9c759a09

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 9c759a09

The following text is from Georgia Douglas Johnson’s 1922 poem “Benediction.”

Go forth, my son,
Winged by my heart’s desire!
Great reaches, yet unknown,
Await
For your possession.
I may not, if I would,
Retrace the way with you,
My pilgrimage is through,
But life is calling you!

Which choice best states the main purpose of the text?

- A. To express hope that a child will have the same accomplishments as his parent did
- B. To suggest that raising a child involves many struggles
- C. To warn a child that he will face many challenges throughout his life
- D. To encourage a child to embrace the experiences life will offer

ID: 9c759a09 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it accurately states the text’s main purpose. The poem begins with the speaker urging a child to “go forth” with her encouragement (“my heart’s desire”). The speaker goes on to suggest that new experiences (“Great reaches, yet unknown”) lie ahead for the son that “life is calling” him to seek out. Thus, the main purpose is to encourage a child to embrace the experiences available to him in his life.

Choice A is incorrect because the speaker encourages the child to pursue new experiences (“Great reaches”) without knowing exactly what those experiences will be (“yet unknown”) or suggesting that they should match the speaker’s own accomplishments. Choice B is incorrect because the speaker focuses on positive possibilities for her son (“Great reaches, yet unknown”) and her enthusiastic encouragement to embrace those possibilities (“life is calling you!”), while there is no mention of raising a child or associated struggles. Choice C is incorrect because the speaker frames the possibilities for her son in a positive light when she says that “great reaches, yet unknown” are waiting for him, and this positive outlook for the son is consistent throughout the text.

Question Difficulty:
Easy

Question ID c8603ed7

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: c8603ed7

San Francisco is known for the colorful murals painted on many of its buildings. The densest collection of murals is found on Balmy Alley in the Mission District neighborhood. In the 1970s, Latina artists painted vivid scenes of community life on walls along this block. As the original murals have faded, later generations of artists have painted new ones over them. As a result, Balmy Alley has become a living showcase of San Francisco’s artistic spirit, with its murals reflecting changes in the cultural life of the city.

- Which choice best states the main purpose of the text?
- A. To compare the Balmy Alley murals to other murals in San Francisco
 - B. To offer an overview of the history and importance of the Balmy Alley murals
 - C. To urge people to protect the murals of San Francisco from decay
 - D. To describe the rise of mural painting in San Francisco beginning in the 1970s

ID: c8603ed7 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it best states the main purpose of the text. The text begins by briefly stating that San Francisco is known for its murals, then transitions to a discussion of a single collection of murals, which is found on Balmy Alley in the city’s Mission District. The text explains that the murals in this area were originally created in the 1970s, then observes that they have changed over time: as some have faded through the decades, others have been painted in their place. The text ends by emphasizing that these murals are significant because they reflect San Francisco’s artistic spirit and cultural life. Therefore, the text provides an overview of the history and importance of the Balmy Alley murals.

Choice A is incorrect. Although it can be inferred from the text that there are murals in other areas of San Francisco besides Balmy Alley, the text doesn’t specifically discuss murals in other areas or compare the murals of Balmy Alley to those in other areas. Choice C is incorrect. By observing that some of the murals of Balmy Alley have been replaced due to fading, the text implies that murals can decay, but it never urges readers to protect this specific collection of murals—or any murals elsewhere in San Francisco, for that matter. Indeed, by describing the ever-changing murals of Balmy Alley as “a living showcase of San Francisco’s artistic spirit,” the text emphasizes the positive aspects of the fact that the original Balmy Alley murals have faded and been replaced with new murals. Choice D is incorrect because the text doesn’t describe the rise of mural painting in San Francisco generally or note when this occurred. The only historical development of the 1970s mentioned in the text is the origin of the murals in a specific area of the city: Balmy Alley in the Mission District.

Question Difficulty:

Question ID ba974387

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: ba974387

The following text is adapted from Mary Seacole’s 1857 autobiography *Wonderful Adventures of Mrs. Seacole in Many Lands*.

That journey across the Isthmus [of Panama], insignificant in distance as it was, was by no means an easy one. It seemed as if nature had determined to throw every conceivable obstacle in the way of those who should seek to join the two great oceans of the world.

As used in the text, what does the word “conceivable” most nearly mean?

- A. Obvious
- B. Imaginable
- C. Straightforward
- D. Uninterrupted

ID: ba974387 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because as used in the text, "conceivable" most nearly means capable of being thought of or imagined. The text describes a journey that, despite being "insignificant in distance," was "by no means an easy one" because of the variety of obstacles that "nature had determined to throw...in the way." To emphasize the difficulty of the journey, the author portrays nature as actively scheming to present travelers with every obstacle that can be thought of—i.e., every imaginable obstacle.

Choice A is incorrect because in this context, "conceivable" does not mean obvious, or evident. Instead, by referring to "every conceivable obstacle," the text suggests a wide variety of challenges by evoking all the potential difficulties nature could present, not just those that the travelers might reasonably expect or foresee. Choice C is incorrect because in this context, "conceivable" does not mean straightforward, or easy to negotiate. The text is not indicating that the obstacles were simple to respond to and overcome. Rather, the text suggests that a wide range of obstacles made the journey difficult. Choice D is incorrect because in this context, "conceivable" does not mean uninterrupted. Although the text suggests that the obstacles were frequent and numerous, it does not emphasize the obstacles’ continuity; instead, the text conveys their unexpected variety and range.

Easy

Question ID ea9dfe27

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: ea9dfe27

The following text is from Joan Didion’s memoir *The Year of Magical Thinking*. In the text, the author discusses her home life.

[I]n California we heated our houses by building fires. We built fires even on summer evenings, because the fog came in. Fires said we were home, we had drawn the circle, we were safe through the night.

©2005 by Joan Didion

Which choice best describes the function of the underlined portion in the text as a whole?

- A. It illustrates that a fire provides comfort beyond physical warmth.
- B. It summarizes the information that came before it in the text.
- C. It explains that the house remains cold even in summer.
- D. It suggests that the author feels comfortable in her home with or without a fire.

ID: ea9dfe27 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most accurately describes how the underlined portion functions in the text as a whole. The first two sentences of the text establish that in California, houses were heated by building fires year-round. The underlined portion then indicates that the fires didn’t merely provide physical warmth: they also represented being "home" and feeling protected. The underlined portion thus illustrates that a fire provides comfort beyond physical warmth.

Choice B is incorrect because the underlined portion doesn’t summarize information that came before it. Whereas the previous two sentences describe fires’ ability to provide physical warmth to homes, the underlined portion focuses on the psychological comfort the fires offered. Choice C is incorrect. Although the text’s second sentence mentions that fires were built in the summer because fog came in, which may have cooled the house, this detail isn’t the focus of the underlined portion. Instead, the underlined portion indicates that fires were built for reasons beyond physical warmth: to create a sense of being home and safe. Choice D is incorrect because the underlined portion focuses on the emotional significance the author places on having a fire going inside the home. There is no indication that the author feels equally comfortable without a fire present.

Question Difficulty:
Easy

Question ID a06c434d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: a06c434d

The work of Kiowa painter T.C. Cannon derives its power in part from the tension among his _____ influences: classic European portraiture, with its realistic treatment of faces; the American pop art movement, with its vivid colors; and flatstyle, the intertribal painting style that rejects the effect of depth typically achieved through shading and perspective.

Which choice completes the text with the most logical and precise word or phrase?

- A. complementary
- B. unknown
- C. disparate
- D. interchangeable

ID: a06c434d Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of the artistic styles that have influenced Cannon’s work. As used in this context, “disparate” means distinct or dissimilar. The text indicates that a tension exists among the styles that have influenced Cannon’s work and goes on to describe how those styles differ: classic European portraiture favors realism, American pop art uses vivid colors, and intertribal flatstyle rejects the use of shading and perspective to achieve depth. This context suggests that the styles that have influenced Cannon’s work are disparate.

Choice A is incorrect because the text indicates that there is a tension among the influences on Cannon’s artwork, so it wouldn’t make sense to say that the influences are “complementary,” or that they complete one another or make up for one another’s deficiencies. Choice B is incorrect because it wouldn’t make sense to characterize Cannon’s influences as “unknown,” or not familiar; it’s clear that the influences are known because the text goes on to list them. Choice D is incorrect because the text indicates that there is a tension among the influences on Cannon’s work, not that they are “interchangeable,” or capable of being used in one another’s place.

Question Difficulty:
Hard

Question ID 213a25d1

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 213a25d1

The following text is from Paul Laurence Dunbar’s 1913 poem “The Poet and His Song.”

A song is but a little thing,
And yet what joy it is to sing!
In hours of toil it gives me zest,
And when at eve I long for rest;
When cows come home along the bars,
 And in the fold I hear the bell,
As Night, the shepherd, herds his stars,
 I sing my song, and all is well.

Which choice best states the main purpose of the text?

- A. To convey how engaging in song makes the speaker feel
- B. To compare the speaker to a singing shepherd
- C. To portray the speaker’s excitement about farming
- D. To describe the pieces of music the speaker enjoys hearing

ID: 213a25d1 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because is accurately states the main purpose of the text. The text begins by declaring that although a song is "but a little thing," or seemingly insignificant, singing it brings joy and gives the speaker of the text "zest," or excitement, in "hours of toil." The remainder of the text explores the idea that as night is falling, singing allows the speaker to feel that "all is well." Thus, the main purpose of the text is to convey how engaging in song makes the speaker feel.

Choice B is incorrect. Although the text mentions a shepherd, it neither indicates that the shepherd is singing nor does it compare the shepherd to the speaker. Choice C is incorrect. The text indicates that the speaker works hard, engaging in "hours of toil," and it can be inferred that the speaker likely lives in a rural area, since cows and a cowbell can be heard nearby. However, the text does not suggest that the speaker is a farmer or feels excited about farming. Moreover, the shepherd in the text is not a literal reference to someone who herds sheep but instead a figurative description of the moon as the shepherd of the stars. Choice D is incorrect because in the text, the speaker is singing a song, not listening to others sing one. Moreover, the text describes the feelings that the speaker has when singing a song, not the song itself.

Question Difficulty:
Medium

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 0b5ecf0e

During Rome’s republican period, which ended in the first century BCE, libraries were predominantly owned by wealthy individuals who tightly controlled access to their book collections. The first public library became available in Rome in 28 BCE and was soon followed by one commissioned by Emperor Augustus. As modern scholar Fabio Fernandes notes, however, these two traditions aren’t as distinct as they seem, as both the emperor and the private library owners viewed their libraries as extensions of their personal patronage, just on vastly differing scales.

Which choice best states the main purpose of the text?

- A. To give a brief overview of public access to libraries throughout Rome’s republican period
- B. To contend that early imperial leaders in Rome wielded too much influence over libraries
- C. To assert that private and early public libraries in ancient Rome had an essential similarity
- D. To call into question the notion that private Roman libraries disappeared during the first century BCE

ID: 0b5ecf0e Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most accurately describes the main purpose of the text. The text describes two types of libraries in first-century BCE Rome—private libraries controlled by wealthy individuals, and the public libraries like that commissioned by Emperor Augustus—and then notes that "these two traditions aren't as distinct as they seem." It explains that both private-library owners and the emperor saw their libraries as "extensions of their personal patronage, just on vastly differing scales," because the emperor’s patronage extended to the whole citizenry of Rome. Thus, both private and public libraries in ancient Rome were fundamentally tied to relevant principles of patronage.

Choice A is incorrect because the text mentions that Rome’s republican period only to say that it "ended in the first century BCE," thus it doesn’t support any conclusions about possible occurrences "throughout Rome’s republican period." Choice B is incorrect. The text neither discusses "early imperial leaders in Rome," nor whether their level of influence was appropriate. Rather it discusses the end of "Rome’s republican period" in relation to libraries, who created them, and who got to use them without passing judgment on propriety. Choice D is incorrect. Although the text indicates that Rome’s republican period "ended in the first century BCE," a period that also saw the first public library come into use (28 BCE), nothing in the text suggests that private libraries disappeared at that time.

Question Difficulty:
Hard

Question ID 9671d61d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 9671d61d

The following text is from Claude McKay’s 1922 poem “Morning Joy.” The speaker is looking out a window and observing a wold, or large area of land.

At night the wide and level stretch of wold,
Which at high noon had basked in quiet gold,
Far as the eye could see was ghostly white;
Dark was the night save for the snow’s weird light.

I drew the shades far down, crept into bed;
Hearing the cold wind moaning overhead
Through the sad pines, my soul, catching its pain,
Went sorrowing with it across the plain.

As used in the text, what does the word “drew” most nearly mean?

- A. Pulled
- B. Drained
- C. Inspired
- D. Sketched

ID: 9671d61d Answer

Correct Answer:
A

Rationale

Choice A is the best answer because as used in the text, “drew” most nearly means pulled. In the text, the speaker stands at a window, looking out on a landscape at night. The speaker then “drew the shades far down, crept into bed.” That is, the speaker pulled down, or lowered, the shades until they were completely shut before going to sleep.

Choice B is incorrect. Although in some contexts, “drew” can refer to draining or removing liquid, especially water, as when someone draws water from a well, in this context it refers to the speaker pulling down window shades for the night. Choice C is incorrect. In some contexts, “drew” can be used to describe how a person or thing inspires, or elicits, a response from someone, as when a performer draws applause from an audience. But in this context it refers to the speaker pulling down window shades for the night. Choice D is incorrect. Although “drew” has several meanings, including sketched, or illustrated with a pen or pencil, in this context it refers to the speaker pulling down window shades for the night.

SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: f8ca5766

Nigerian American author Teju Cole’s _____ his two passions—photography and the written word—culminates in his 2017 book, *Blind Spot*, which evocatively combines his original photographs from his travels with his poetic prose.

Which choice completes the text with the most logical and precise word or phrase?

- A. indifference to
- B. enthusiasm for
- C. concern about
- D. surprise at

ID: f8ca5766 Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of Cole’s book *Blind Spot*. In this context, “enthusiasm for” means excitement about. The text explains that *Blind Spot* consists of original photographs as well as poetic prose—two elements that correspond to Cole’s passions, identified in the text, for photography and the written word. This context suggests that Cole’s excitement about photography and writing led him to create a book that successfully combines the two mediums.

Choice A is incorrect because describing Cole as feeling “indifference to” his two passions wouldn’t make sense in context. If Cole is indifferent to his passions, that would mean he doesn’t care about photography or writing—in which case they wouldn’t be his passions at all. Choice C is incorrect because there’s nothing in the text to suggest that Cole feels “concern about,” or uneasiness about, his passions. The text’s use of the word “culminates” indicates that *Blind Spot* represents a triumphant climax of Cole’s passions, not a work that results from his sense of discomfort with photography and writing. Choice D is incorrect because there’s nothing in the text to suggest that Cole feels “surprise at,” or astonished by, his passions. The text indicates that Cole’s feeling about his passions “culminates” in a book that “evocatively” combines photographs and writing, suggesting that Cole has a long-standing and skillful relationship to his passions, not that he is startled by them.

Question Difficulty:

Question ID edd64a4a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: edd64a4a

The following text is adapted from Charles Chesnutt’s 1899 story “The Wife of His Youth.” Mr. Ryder is hosting a formal gathering where he will propose marriage to the woman he has been courting.

[A] younger and less cautious man would long since have spoken. But he had made up his mind, and had only to determine the time when he would ask her to be his wife. He decided to give a ball in her honor, and at some time during the evening of the ball to offer her his heart and hand.

As used in the text, what does the word “determine” most nearly mean?

- A. Choose
- B. Influence
- C. Demonstrate
- D. Measure

ID: edd64a4a Answer

Correct Answer:
A

Rationale

Choice A is the best answer because as used in the text, "determine" most nearly means choose or decide. The text indicates that Mr. Ryder "had made up his mind" to ask a woman to marry him but had not yet "spoken"—that is, he had not yet asked her. The text also indicates that Mr. Ryder "decided" to throw a party for the woman and ask her during it. This context conveys that after making up his mind to propose, what Mr. Ryder had to do was determine, or choose, the time to do it.

Choice B is incorrect because in this context, "determine" doesn’t mean influence, or affect or control. The text isn’t indicating that Mr. Ryder is controlling time itself; such a thing isn’t possible. Rather, the text conveys that after making up his mind to ask a woman to marry him, Mr. Ryder had to make another decision about his own actions by selecting a time to propose. Choice C is incorrect. The text focuses on Mr. Ryder’s plan to ask a woman to marry him and his decision about when to ask her. This context conveys that after making up his mind to propose, Mr. Ryder had to choose the time, not that he had to demonstrate, or show, the time; it’s not clear what it would mean to demonstrate a time. Choice D is incorrect because in this context, "determine" doesn’t mean measure, or control with careful restraint. The text isn’t indicating that Mr. Ryder is carefully controlling time itself; such a thing isn’t possible. Rather, the text conveys that after making up his mind to ask a woman to marry him, Mr. Ryder had to make another decision about his own actions by selecting a time to propose; it’s Mr. Ryder’s decision that is measured, not the time he eventually chooses.

Question Difficulty:
Easy

Question ID 03f5a9b7

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 03f5a9b7

When marine biologist Brittany Williams played different ocean recordings to groups of oyster larvae, groups that heard sounds of a healthy oyster reef were the most _____. They were twice as likely as other groups to show signs of making a permanent home. This suggests that playing recordings of a healthy ocean reef may encourage oysters to create such a reef.

Which choice completes the text with the most logical and precise word or phrase?

- A. responsive
- B. inactive
- C. liked
- D. distressed

ID: 03f5a9b7 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most logically completes the text’s discussion of oysters and ocean recordings. As used in this context, "responsive" means reacting positively. The text presents a finding and describes it as suggesting that healthy ocean sounds may encourage oyster larvae to establish a reef (a permanent home): groups of oyster larvae that heard recorded sounds of a healthy oyster reef were two times more likely to show signs of forming their own reef than groups that heard different ocean recordings were. This context conveys that the groups that heard healthy reef sounds had a more positive reaction than the other groups did—that is, they were the most responsive.

Choice B is incorrect because the text doesn’t indicate that hearing sounds of a healthy oyster reef caused some groups of oyster larvae to become "inactive," or to stop engaging in work or activity. Instead, the text conveys that the groups that heard those sounds were observed engaging in activity: they were two times more likely to create a reef (a permanent home) than groups that heard different ocean sounds were. Choice C is incorrect because describing the groups of oyster larvae that heard sounds of a healthy oyster reef as most "liked," or regarded with pleasure, wouldn’t make sense in context. The text focuses on the idea that a study found that healthy reef sounds may encourage groups of oyster larvae to form reefs (permanent homes), not on the idea that some of the groups in the study were liked more than others. Choice D is incorrect because the text doesn’t indicate that hearing sounds of a healthy oyster reef caused some groups of oyster larvae to be "distressed," or to experience difficulty or begin to decline. Instead, the text indicates that the sounds increased the likelihood that groups of larvae would establish a reef (a permanent home), suggesting that the sounds had a positive effect on the larvae.

Question Difficulty:
Easy

Question ID 2b085bc6

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 2b085bc6

The following text is adapted from Paul Laurence Dunbar’s 1902 novel *The Sport of the Gods*. Joe and some of his family members have recently moved to New York City.

[Joe] was wild with enthusiasm and with a desire to be a part of all that the metropolis meant. In the evening he saw the young fellows passing by dressed in their spruce clothes, and he wondered with a sort of envy where they could be going. Back home there had been no place much worth going to, except church and one or two people’s houses.

- Which choice best states the main purpose of the text?
- A. It illustrates a character’s reaction to a new environment.
 - B. It explains why a character has traveled to a city.
 - C. It compares a character’s thoughts about an event at two different times of day.
 - D. It presents a character feeling regret over leaving home.

ID: 2b085bc6 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most accurately describes the main purpose of the text. The narrator describes how Joe responds to being in “the metropolis”: he’s excited and “wild with enthusiasm.” He also envies the young fellows who walk by because, dressed as they are, they look as if they have somewhere special to go. The text contrasts this new place with the place Joe comes from, where apparently there wasn’t as much to do. Thus, the main purpose of the text is to illustrate Joe’s reaction to a new environment.

Choice B is incorrect because the text makes no reference to why Joe has moved. The narrator indicates that Joe is enthusiastic about being in a city, but there’s no explanation provided for the move. Choice C is incorrect because the text makes no reference to how Joe thinks about an event. The narrator describes young men passing by in the evening and then recalls places worth going to at home—church and a few people’s houses—but there’s no explicit comparison made nor is a time of day mentioned for these events back home. Choice D is incorrect because the text doesn’t support the idea that Joe feels regret over leaving home. Instead, Joe is described as “wild with enthusiasm” at being in the city. Joe’s home is mentioned, but only to compare it unfavorably with the city.

Question Difficulty:
Medium

Question ID 975b0602

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 975b0602

A number of Indigenous politicians have been elected to the United States Congress since 2000 as members of the country’s two established political parties. In Canada and several Latin American countries, on the other hand, Indigenous people have formed their own political parties to advance candidates who will advocate for the interests of their communities. This movement has been particularly successful in Ecuador, where Guadalupe Llori, a member of the Indigenous party known as Pachakutik, was elected president of the National Assembly in 2021.

Which choice best states the main purpose of the text?

- A. To trace the history of an Indigenous political movement and speculate about its future development
- B. To argue that Indigenous politicians in the United States should form their own political party
- C. To highlight two approaches to achieving political representation for Indigenous people
- D. To consider how Indigenous politicians in the United States have influenced Indigenous politicians in Canada and Latin America

ID: 975b0602 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most accurately describes the main purpose of the text, which is to illustrate two approaches that Indigenous politicians have taken to achieve political representation for their communities. The text begins by explaining that one approach is exemplified by Indigenous politicians in the United States who, in an effort to ensure that the interests of their communities are represented in government, joined preexisting political parties and were subsequently elected to Congress. The text goes on to highlight a second approach adopted by Indigenous leaders in Canada and several Latin American countries: rather than joining established political parties, many Indigenous politicians in these countries have instead formed their own parties to promote candidates for office who support causes that are important to their communities.

Choice A is incorrect because the text’s focus is on the contrasting approaches adopted by different Indigenous political movements in different countries; thus, it isn’t accurate to say that the text traces the history of one political movement. Moreover, the text only discusses examples from 2000 to 2021, a relatively short period of time; therefore, it provides very little in the way of discussion of larger historical developments, nor does it make any predictions about how these movements might continue to develop in the future. Choice B is incorrect because the text never urges Indigenous politicians in the US to alter their strategy of striving for representation through the established political parties, nor does it suggest that this strategy is inferior to that of Indigenous politicians in Canada and Latin America, who have formed their own parties. In fact, the text notes that both strategies have resulted in the election of Indigenous politicians to national governments. Choice D is incorrect because the text never suggests that Indigenous politicians in the US have influenced those in Canada and Latin America; instead, it stresses how Indigenous politicians’ approach toward achieving representation in the US government has differed from the approach Indigenous politicians have taken to achieve representation in national governments elsewhere in the Americas.

Question Difficulty:

Question ID ea971260

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: ea971260

The following text is adapted from Louisa May Alcott’s 1869 novel *An Old-Fashioned Girl*. Polly, a teenager, is visiting her friend Fanny.

Fanny’s friends did not interest Polly much; she was rather afraid of them [because] they seemed so much older and wiser than herself, even those younger in years. They talked about things of which she knew nothing and when Fanny tried to explain, she didn’t find them interesting; indeed, some of them rather shocked and puzzled her.

Which choice best states the main purpose of the text?

- A. To portray Polly’s reaction to Fanny’s friends
- B. To identify the topics Polly talks about with Fanny’s friends
- C. To explain how Fanny met some of her friends
- D. To illustrate how Fanny’s friends feel about Polly

ID: ea971260 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most accurately describes the main purpose of the text, which is to show how Polly reacted to some of Fanny’s other friends. The text describes Polly as being frightened of Fanny’s friends because they seemed “much older and wiser” to her and elaborates that they “talked about things of which” Polly was unfamiliar, uninterested, and shocked. Thus, the main purpose of the text is to describe Polly’s impressions of Fanny’s other friends.

Choice B is incorrect because the text does not provide any of the topics Polly discussed with Fanny’s friends, stating only that Polly found the topics unfamiliar, uninteresting, and shocking. Choice C is incorrect because the text says nothing about how Fanny and her other friends first met. Choice D is incorrect because the focus of the text is on Polly’s feelings about Fanny’s other friends, not on the other friends’ feelings about Polly.

Question Difficulty:
Easy

Question ID 3654202f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 3654202f

Radar and sonar can detect objects or people through walls, but they are too costly for consumer use. Researchers Fadel Adib and Dina Katabi have shown, however, that there may be a comparatively _____ alternative: small changes to the Wi-Fi technology used in smartphones can give users a cheap way to count people or even identify their gestures through walls.

Which choice completes the text with the most logical and precise word or phrase?

- A. infrequent
- B. inexpensive
- C. unmistakable
- D. impractical

ID: 3654202f Answer

Correct Answer:
B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of ways to detect people through walls. In this context, "inexpensive" means less costly or low in price. The passage describes two kinds of methods that can be used to "detect objects or people through walls": radar and sonar, and changes to the Wi-Fi technology used in smartphones. The word "comparatively" before the blank indicates that the best answer would be one that helps to describe a comparison between the two. Radar and sonar are described as "costly," while the method that uses Wi-Fi technology is described as "cheap"; therefore, it would be comparatively affordable, or inexpensive.

Choice A is incorrect because the text indicates that a small modification to the smartphones that many consumers already own would presumably result in consumers using that technology to detect objects or people through walls more regularly, or frequently; therefore, it would not be true that such technology would be comparatively infrequent, or uncommon. Choice C is incorrect because there is nothing in the text to indicate that either radar and sonar or changes to smartphone Wi-Fi technology are capable of being misunderstood or mistaken for something else; therefore, it would not make sense to describe changes to Wi-Fi smartphone technology as comparatively unmistakable, or indisputable. Choice D is incorrect because the text indicates that a small modification to the smartphones that many consumers already own and carry with them would be more functional or practical than radar and sonar, not more impractical, or unrealistic.

Question Difficulty:

Question ID 4ed09415

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 4ed09415

Vadamalai Elangovan and Ganapathi Marimuthu showed that high moonlight intensity inhibits the activity of the greater short-nosed fruit bat (*Cynopterus sphinx*), a result explicable in terms of benefits and costs: greater lunar intensity may not enable the bats to increase foraging success enough to offset the higher chance of detection by predatory owls or hawks. Most other nocturnal mammals respond to lunar intensity variations similarly to greater short-nosed fruit bats, but mongoose lemurs (*Eulemur mongoz*) display the opposite pattern, as their heavy reliance on visual foraging results in a different balance of reward and risk.

Which choice best describes the overall structure of the text?

- A. It discusses two different responses to the same natural phenomenon, explains why one of those responses occurs, and then suggests that the other response still needs to be explained.
- B. It describes and accounts for a finding, characterizes the finding as representative of a general pattern, and then describes and accounts for an exception to that pattern.
- C. It presents and explains a study result, indicates that the result is similar to the results of many other studies, and then attributes a conflicting study result to a difference in that study’s methods.
- D. It introduces an observation of a behavioral pattern, presents an explanation for the pattern, and then describes an exception to the pattern that casts doubt on that explanation.

ID: 4ed09415 Answer

Correct Answer:

B

Rationale

Choice B is the best answer because it most accurately describes the overall structure of the text. The text begins by describing a study’s finding about greater short-nosed fruit bats—namely, that high moonlight intensity inhibits the bats’ activity—and also accounts for that finding, stating that this occurs because the potential increase in foraging success that greater lunar intensity enables doesn’t offset these bats’ increased vulnerability to predators (whose vision is also implied to become more acute under intense moonlight). The text goes on to characterize this finding as representative of a general pattern, stating that many nocturnal mammals behave similarly in response to changes in lunar intensity. The text concludes by describing an exception to this pattern, explaining that mongoose lemurs display an opposite tendency because they rely heavily on visual foraging. This strategy presumably would allow them to derive more benefit from greater lunar intensity than many other nocturnal mammals would, resulting in a "different balance of reward and risk" than exists for other nocturnal mammals. Therefore, the overall structure of the text is best described as a description and account of a finding, a characterization of that finding as representative of a pattern, and then a description and account of an exception to that pattern.

Choice A is incorrect. Although the text discusses two different responses to variations in moonlight intensity, explaining that as moonlight intensity increases, greater short-nosed fruit bats and many other nocturnal mammals decrease their foraging activity but mongoose lemurs increase their foraging activity, it doesn’t leave one of these responses unexplained. The text accounts for both the typical response to increased lunar intensity (reduced activity due to predation risk) and the exception (increased activity due to a reliance on visual foraging) by making reference to a cost-benefit framework. Choice C is incorrect. Although the text

presents a study's finding about the effect of increased lunar intensity on greater short-nosed fruit bats' activity before going on to contrast this behavior with the fact that mongoose lemurs display the opposite response to increased lunar intensity, the text doesn't explicitly invoke other studies and doesn't attribute this difference in observed behavior to the fact that the study of greater short-nosed fruit bats used different methods than studies of mongoose lemurs did. Rather, the text explains that the different observed behaviors can be attributed to differences in species' foraging strategies. Choice D is incorrect. Although the text characterizes the behavior of mongoose lemurs in response to increased lunar intensity as an exception to a pattern of behavior observed in other nocturnal mammal species, this exception doesn't cast any doubt on the explanation that is offered for the general pattern observed among other species. Instead, the text uses the same cost-benefit framework to explain why increased lunar intensity is associated with decreased activity by greater short-nosed fruit bats and other nocturnal mammals but with increased activity by mongoose lemurs.

ID: afd2a9eb

Manul cats are small, shy felines. They live mostly alone in out-of-the-way parts of Asia, such as on Mount Everest. These cats have been difficult to research because their habitats are so _____ large populations of humans.

Which choice completes the text with the most logical and precise word or phrase?

- A. full of
- B. drawn to
- C. responsible for
- D. distant from

ID: afd2a9eb Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of manul cats. The text states that manul cats live in "out-of-the-way parts of Asia" (citing the famously remote Mount Everest as an example) and indicates that it is difficult to research the cats because of the location of their habitats. By emphasizing that the habitats are remote in relation to humans, the text conveys that being "distant from," or far from, large groups of humans makes manul cats challenging to study.

Choice A is incorrect because saying that the habitats of manul cats are "full of large populations of humans" would indicate that the cats cohabitate with many humans, which would directly contradict the text’s claim that the cats live in "out-of-the-way" areas. Choice B is incorrect because the missing words describe an aspect of manul cats’ habitats, or the areas where they live, and it wouldn’t make sense to say that areas could be "drawn to," or attracted by, large groups of humans. Choice C is incorrect. In this context, "responsible for" would mean either having an obligation to care for something or being the cause of something, and it wouldn’t make sense to say that the habitats of manul cats (the areas where the cats live) would need to care for humans or that the habitats somehow created large human populations.

Easy

Question ID aaa3ee7c

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: aaa3ee7c

Critics have asserted that fine art and fashion rarely _____ in a world where artists create timeless works for exhibition and designers periodically produce new styles for the public to buy. Luiseño/Shoshone-Bannock beadwork artist and designer Jamie Okuma challenges this view: her work can be seen in the Metropolitan Museum of Art and purchased through her online boutique.

Which choice completes the text with the most logical and precise word or phrase?

- A. prevail
- B. succumb
- C. diverge
- D. intersect

ID: aaa3ee7c Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion about the relationship between fine art and fashion. As used in this context, “intersect” means to connect or overlap. The text indicates that Jamie Okuma challenges the position held by critics because her work can be seen at an art museum and can be bought by the public from her online boutique. The text also presents the critics’ view as being influenced by a perception that fine artists create works that are “timeless” and meant for exhibition, whereas fashion designers periodically produce new styles that are meant for purchase. This context suggests that the critics believe that fine art and fashion tend not to overlap—in other words, that they rarely intersect.

Choice A is incorrect because it wouldn’t make sense in context to say that critics contend that fine art and fashion rarely “prevail,” or prove to be triumphant or widespread. The text indicates that Okuma is an example of an artist who demonstrates that it’s possible to make fine art that is also available to the public as fashion. Choice B is incorrect because it wouldn’t make sense in context to say that fine art and fashion rarely “succumb,” or surrender. The text establishes that unlike what critics believe, Okuma creates works that are in art museums and available for the public to purchase, suggesting that critics believe fine art and fashion rarely overlap, not that they rarely succumb. Choice C is incorrect because saying that critics believe that fine art and fashion rarely “diverge,” or disagree or move in different directions, wouldn’t make sense in context. The text presents Okuma’s work as both fine art and fashion, thereby undermining what the critics assert. This suggests that the critics believe that fine art and fashion rarely intersect rather than that the two rarely diverge.

Hard

Question ID 44cc5f75

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 44cc5f75

Artificially delivering biomolecules to plant cells is an important component of protecting plants from pathogens, but it is difficult to transmit biomolecules through the layers of the plant cell wall. Markita del Carpio Landry and her colleagues have shown that it may be possible to _____ this problem by transmitting molecules through carbon nanotubes, which can cross cell walls.

Which choice completes the text with the most logical and precise word or phrase?

- A. conceptualize
- B. neglect
- C. illustrate
- D. overcome

ID: 44cc5f75 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of delivering biomolecules to plant cells. In this context, “overcome” means to succeed in dealing with an obstacle. The text suggests that although it’s difficult to move biomolecules through plant cell walls, Landry and her colleagues have shown that carbon nanotubes may be useful, since they can cross cell walls. This context conveys that Landry and her colleagues think it’s possible, using carbon nanotubes, to succeed in dealing with the obstacle of transmitting biomolecules to plant cells.

Choice A is incorrect because it wouldn’t make sense in context to say that Landry and her colleagues have shown that it may be possible to “conceptualize,” or form an idea of, the difficulty of transmitting biomolecules through the walls of plant cells. The text presents this difficulty as a known problem that Landry and her colleagues think they may have solved, not as a mysterious occurrence that they have yet to form ideas about. Choice B is incorrect because the text suggests that Landry and her colleagues think it may be possible to successfully deal with the problem of transmitting biomolecules through the walls of plant cells, not that Landry and her colleagues think it may be possible to “neglect,” or simply to disregard and ignore the problem. Choice C is incorrect because it wouldn’t make sense in context to say that Landry and her colleagues have shown that it may be possible to “illustrate,” or demonstrate, the difficulty of transmitting biomolecules through the walls of plant cells by using carbon nanotubes. According to the text, carbon nanotubes allow molecules to be transmitted to plant cells—something that is otherwise difficult to do. The text therefore presents carbon nanotubes as a way of possibly solving a problem, not as a means of demonstrating the problem.

Question Difficulty:

Question ID 8b46bb51

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 8b46bb51

A journalist and well-respected art critic of nineteenth-century Britain, Lady Elizabeth Rigby Eastlake did not hesitate to publish reviews that went against popular opinion. One of her most divisive works was an essay questioning the idea of photography as an emerging medium for fine art: in the essay, Eastlake _____ that the value of photographs was informational rather than creative.

Which choice completes the text with the most logical and precise word or phrase?

- A. exposed
- B. asserted
- C. discovered
- D. doubted

ID: 8b46bb51 Answer

Correct Answer:
B

Rationale

Choice B is the best answer. "Asserted" means "stated confidently." Eastlake "did not hesitate to publish reviews going against popular opinion," so we can assume that she was confident in sharing her opinions.

Choice A is incorrect. "Exposed" means "made visible by uncovering" and, when talking about ideas, tends to be used in relation to uncovering the truth. Eastlake was sharing an opinion, not uncovering a truth. Choice C is incorrect. "Discovered" means "found," but Eastlake was writing an opinion essay. She was writing her own opinion, not "discovering" a new universal truth. Choice D is incorrect. "Doubted" means "didn't believe in." We're told that Eastlake "questioned" the idea that photography could be fine art. Placing "doubted" in the blank would actually suggest that Eastlake argued that photos were valuable for creativity and not for information, which is the opposite of what we were told she believes.

Question Difficulty:
Medium

Question ID 6286dd96

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 6286dd96

The following text is adapted from Frances Hodgson Burnett’s 1905 novel *A Little Princess*. Sara is a young student at a school in London.

Sara not only could tell stories, but she adored telling them. When she sat or stood in the midst of a circle and began to invent wonderful things, her green eyes grew big and shining, her cheeks flushed, and, without knowing that she was doing it, she began to act and made what she told lovely or alarming by the raising or dropping of her voice.

As used in the text, what does the word “invent” most nearly mean?

- A. Mislead
- B. Disguise
- C. Create
- D. Discover

ID: 6286dd96 Answer

Correct Answer:
C

Rationale

Choice C is the best answer because as used in the text, "invent" most nearly means create or make up. The text begins by stating that Sara likes to tell stories and thoroughly enjoys telling them. The rest of the text describes how she looks and acts when she invents, or creates, "wonderful things" in her stories ("what she told").

Choice A is incorrect. Although the text suggests that Sara makes up "wonderful things," nothing suggests that she does so to mislead, or intentionally deceive, others; there is no reason to assume that Sara’s listeners don’t know that she’s creating the stories she shares. Choice B is incorrect because nothing in the text suggests that Sara is disguising, or trying to cover up or conceal, "wonderful things" when she tells stories; rather, she is creating them and presenting them in ways that make them "lovely or alarming" for her listeners. Choice D is incorrect because nothing in the text suggests that Sara is discovering, or unexpectedly finding, "wonderful things" in the stories she loves to tell; rather, that she is making things up as she tells the stories.

ID: f7d58b53

Like other tribal nations, the Muscogee (Creek) Nation is self-governing; its National Council generates laws regulating aspects of community life such as land use and healthcare, while the principal chief and cabinet officials _____ those laws by devising policies and administering services in accordance with them.

Which choice completes the text with the most logical and precise word or phrase?

- A. implement
- B. presume
- C. improvise
- D. mimic

ID: f7d58b53 Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it most logically completes the text’s discussion of self-government among the Muscogee (Creek) Nation. In this context, “implement” means to carry out or put into effect. The text states that the National Council generates laws, while the principal chief and cabinet officials are responsible for “devising policies and administering services in accordance with” those laws. This context suggests that the principal chief and cabinet officials implement the laws: they put the laws into effect by creating policies and administering services that accord with those laws.

Choice B is incorrect because “presume” in this context would mean to assume based on incomplete information, and the text does not suggest that the principal chief and cabinet officials either made assumptions about the content of the laws or had incomplete information about them. Choice C is incorrect because in this context “improvise” would mean to create something without preparation, and the text does not suggest that the principal chief and cabinet officials create policies and administer services without advance preparation. Choice D is incorrect because nothing in the text suggests that the principal chief and cabinet officials “mimic,” or imitate, the laws generated by the National Council. To mimic laws would mean to generate new laws that are imitations of existing laws, but the text indicates that the National Council, not the principal chief and cabinet officials, is responsible for generating laws. Instead of generating laws, the principal chief and cabinet officials put laws into effect by “devising policies and administering services in accordance with” the laws.

Question Difficulty:

SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 849bf8d7

In the mid-nineteenth century, some abolitionist newspapers _____ westward migration in the United States; by printing a letter that described the easy fortunes and high salaries miners could make in California during the Gold Rush, Frederick Douglass’s newspaper *North Star* was one such publication that inspired readers to relocate.

Which choice completes the text with the most logical and precise word or phrase?

- A. stimulated
- B. assigned
- C. opposed
- D. disregarded

ID: 849bf8d7 Answer

Correct Answer:
A

Rationale

Choice A is the best answer. "Stimulated" means "encouraged interest or increased activity in." Because the newspapers discussed the benefits of westward migration and "inspired readers to relocate," we can infer that they encouraged people to move west.

Choice B is incorrect. "Assigned" means "gave a job or duty." Newspapers do not have the power to assign people to move west, although they can encourage it. Choice C is incorrect. "Opposed" means "disapproved of." We can tell that this isn’t the case, because the newspapers discussed "the easy fortunes and high salaries miners could make in California" and "inspired readers to relocate." Choice D is incorrect. "Disregarded" means "ignored." If the newspapers are writing about the west and "inspir[ing] readers to relocate," they can’t be ignoring it at the same time.

Question Difficulty:
Easy

Question ID 82c05b34

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: 82c05b34

Text 1

The live music festival business is growing in event size and genre variety. With so many consumer options, organizers are finding ways to cement festival attendance as a special experience worth sharing. This phenomenon is linked to the growing “experiential economy,” where many find it gratifying to purchase lived experiences. To ensure a profitable event, venues need to consider the overall consumer experience, not just the band lineup.

Text 2

Music festival appearances are becoming a more important part of musicians’ careers. One factor in this shift is the rising use of streaming services that allow access to huge numbers of songs for a monthly fee, subsequently reducing sales of full-length albums. With this shift in consumer behavior, musicians are increasingly dependent on revenue from live performances.

Based on the texts, both authors would most likely agree with which statement?

- A. Consumers are more interested in paying subscription fees to stream music than in attending music festivals in person.
- B. Consumers’ growing interest in purchasing experiences is mostly confined to the music industry.
- C. Changing consumer behaviors are leading to changes in music-related businesses.
- D. The rising consumer demand for live music festivals also generates higher demand for music streaming platforms.

ID: 82c05b34 Answer

Correct Answer:

C

Rationale

Choice C is the best answer. Both authors mention how consumer behaviors have shifted, and how this affects different aspects of the music industry. Text 1 states that consumers enjoy purchasing “lived experiences,” and that this influences how organizers design music festivals. Text 2 states that consumers are using streaming services more, and that this reduces album sales and increases the importance of live performances for musicians.

Choice A is incorrect. Neither text claims that consumers prefer streaming to festivals, or that these are mutually exclusive options. Text 1 implies that festivals are popular and profitable, and Text 2 never suggests that streaming services diminish the demand for live music. Choice B is incorrect. This choice misreads Text 1, which identifies music festivals as just one example of a broader trend of purchasing “lived experiences.” Text 2 doesn’t mention growing interest in purchasing experiences, in the music industry or otherwise. Choice D is incorrect. Neither text establishes a cause/effect relationship between the demand for festivals and the demand for streaming platforms. Text 1 does not mention streaming platforms at all, and Text 2 does not imply that streaming platforms benefit from the popularity of festivals.

Question Difficulty:

Medium

Question ID 809adda

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 809adda

The following text is from Ameen Rihani’s 1921 poem “The Wanderer.”

I wander among the hills of alien lands
Where Nature her prerogative resigns
To Man; where Comfort in her shack reclines
And all the arts and sciences commands.
But in my soul
The eastern billows roll—
I hear the voices of my native strands.

Which choice best describes the function of the underlined lines in the text as a whole?

- A. It establishes that the speaker’s enthusiasm about current travels conflicts with the growing urge to return home.
- B. It illustrates the speaker’s uncertainty about maintaining strong links with relatives in distant places.
- C. It conveys the speaker’s sense of feeling a pull toward home while traveling in an unfamiliar place.
- D. It reveals that upon returning after an extended absence, the speaker longs for the way a location once felt.

ID: 809adda Answer

Correct Answer:
C

Rationale

Choice C is the best answer because it most accurately describes the function of the underlined lines in the text as a whole. In the opening line of the text, the speaker describes wandering in "alien lands," which establishes that the speaker is traveling in unfamiliar territory. In the underlined lines, the speaker describes "billows" (large waves) rolling in the soul, which suggests that the speaker feels inner turmoil. The underlined lines go on to associate these rolling billows with voices calling to the speaker from the speaker’s "native strands," or homeland, indicating that thoughts of home are prompting the emotional experience these lines describe. Taken together, the imagery in the underlined lines thus implies that the speaker feels a deep emotional connection to, or pull toward, home while traveling in an unfamiliar place.

Choice A is incorrect. While the text’s first line states that the speaker is traveling and the underlined lines indicate that the speaker experiences an emotional pull toward home, neither the underlined lines nor the text as a whole establishes an enthusiasm about the current travels that conflicts with a growing urge to return home. The text’s description of the lands the speaker is traveling in focuses on their artificial quality, stating, "Nature her prerogative resigns / To Man," which doesn’t suggest enthusiasm but rather a sense of detachment or even critique. Choice B is incorrect because the underlined lines don’t address uncertainty about maintaining links with relatives in distant places. In the underlined lines, the speaker expresses a sense of connection to the speaker’s homeland ("native strands") but doesn’t refer to any family members the speaker may have there or to concerns about maintaining any familial ties. Choice D is incorrect because the poem doesn’t indicate that the speaker has returned home after an absence. Rather, the speaker explicitly states, "I wander among the hills of alien lands," establishing that the current setting is a

foreign place. Moreover, the underlined lines express a sense of connection with, or pull toward, a distant homeland, not a sense of longing for how that homeland or any other location once felt.

Question Difficulty:

Easy

Question ID 74ee7737

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 74ee7737

Whether Carmen Lomas Garza is creating small paintings and illustrations or large public artworks—such as *Baile*, a copper cutout of traditional Mexican dance in the San Francisco International Airport—she is _____ direct experience, drawing from memories of her childhood in Texas or details of her current surroundings in California.

Which choice completes the text with the most logical and precise word or phrase?

- A. complimented by
- B. uncertain about
- C. unbothered by
- D. inspired by

ID: 74ee7737 Answer

Correct Answer:
D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of Carmen Lomas Garza’s artistic process. In this context, "inspired by" means influenced by or motivated by. The text refers to how, regardless of the scale of the work, Garza uses her memories of Texas and details from California to create her art. If Garza is basing her work on her direct experiences, then they play a part in her artistic process. This context thus suggests that Garza’s art is inspired by the experiences of her childhood in Texas and her current life in California.

Choice A is incorrect because it wouldn’t make logical sense to indicate that Garza is "complimented by"—or praised by—something inanimate such as direct experience. Choice B is incorrect because describing Garza as "uncertain about"—or unsure or doubtful of—direct experience would suggest that she had misgivings about it. If Garza were unsure of her experiences, that would suggest that she couldn’t recall them, and Garza wouldn’t be able to represent direct experience in her art if she were uncertain of the memories or details. Choice C is incorrect because describing Garza as "unbothered by"—or uninterested in—her experience would imply the opposite of what the text suggests about Garza’s artistic process. The text indicates that Garza’s art comes from memories of her childhood in Texas and details of her surroundings in California.

Question Difficulty:
Easy

Question ID b44066dc

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: b44066dc

Economist Jingting Fan argues that the effects of international trade may display spatial variation at sub-national levels. For instance, imported goods may reduce expenses for a country’s average consumer, but for consumers living far from ports, high intranational transport costs could _____ the price advantages associated with imports.

Which choice completes the text with the most logical and precise word or phrase?

- A. nullify
- B. denigrate
- C. underestimate
- D. misconstrue

ID: b44066dc Answer

Correct Answer:
A

Rationale

Choice A is the best answer because it logically completes the text’s discussion of imported goods and consumer prices. In this context, "nullify" most nearly means negate or undermine. The text indicates that importing goods to a country can reduce consumer prices in that country, then cautions that the costs of transporting goods within the country is also a factor. These transportation costs likely raise the prices that must be paid by people who live far from the ports of entry. Therefore, the intranational transportation costs could nullify the price advantages to consumers of importing goods.

Choice B is incorrect. In this context, "denigrate" would most nearly mean disparage or deny the importance of. Since transportation costs would not be capable of denying the importance of price advantages, it would not make sense to state that intranational transportation costs denigrate the price advantages of importing goods. Choice C is incorrect. In this context, "underestimate" would most nearly mean predict a lower value for, or to undervalue, someone or something. Though transportation costs might be undervalued, they cannot themselves undervalue something else, so it would not make sense to state that intranational transportation costs underestimate the price advantages of importing goods. Choice D is incorrect. In this context, "misconstrue" would most nearly mean misunderstand. Since transport costs are not capable of understanding, it would not make sense to claim that intranational transportation costs misconstrue the price advantages of importing goods.

Question Difficulty:
Medium

Question ID f7c02e89

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Cross-Text Connections	

ID: f7c02e89

Text 1

Films and television shows commonly include a long list of credits naming the people involved in a production. Credit sequences may not be exciting, but they generally ensure that everyone’s contributions are duly acknowledged. Because they are highly standardized, film and television credits are also valuable to anyone researching the careers of pioneering cast and crew members who have worked in the mediums.

Text 2

Video game scholars face a major challenge in the industry’s failure to consistently credit the artists, designers, and other contributors involved in making video games. Without a reliable record of which people worked on which games, questions about the medium’s development can be difficult to answer, and the accomplishments of all but its best-known innovators can be difficult to trace.

Based on the texts, how would the author of Text 1 most likely respond to the discussion in Text 2?

- A. By recommending that the scholars mentioned in Text 2 consider employing the methods regularly used by film and television researchers
- B. By pointing out that credits have a different intended purpose in film and television than in the medium addressed by the scholars mentioned in Text 2
- C. By suggesting that the scholars mentioned in Text 2 rely more heavily on credits as a source of information than film and television researchers do
- D. By observing that a widespread practice in film and television largely prevents the kind of problem faced by the scholars mentioned in Text 2

ID: f7c02e89 Answer

Correct Answer:

D

Rationale

Choice D is the best answer because it reflects how the author of Text 1 would most likely respond to Text 2 based on the information provided. Text 2 discusses how the inconsistent use of credits to identify the contributors to video games can pose an obstacle to scholars of the medium, who rely on such credits to answer questions about the medium’s development. Text 1 notes that in film and television, on the other hand, credits are used consistently and are valuable to researchers studying the cast and crew members in these mediums. Since Text 1 asserts how the consistent use of credits benefits scholars of film and television, it can be inferred that this text’s author would respond to the discussion in Text 2 by observing that the kind of problem faced by scholars of video games—the inability to know who contributed to a particular production and how—is, in film and television studies, largely prevented by the widespread practice of credits in these mediums.

Choice A is incorrect. Although Text 1 discusses a method used by film and television researchers—namely, relying on credits to research the careers of cast and crew members—the author doesn’t explicitly recommend that or any other method. Moreover, Text 1 states that films and television shows themselves, not their researchers, regularly use the method of listing credits. Choice B is incorrect. It can be inferred from Text 2 that when video games do feature credits, they have essentially the same function as credits in film and television—namely, to identify the individuals who worked on a particular production. Therefore, it is unlikely that the author of Text 1 would characterize video game credits as differing in purpose from film and television credits. Choice C is incorrect because, as Text 2 explains, credits are not consistently used in video games. Therefore, it is unlikely that the author of Text 1 would argue that scholars of the medium discussed in this text—video games—rely more heavily on credits than scholars of film and television, two mediums where credits consistently appear.

Question Difficulty:

Hard

Question ID b92c13fa

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: b92c13fa

According to statistician Nassim Nicholas Taleb, the best way to predict the amount of time a nonperishable entity (such as a building or a technology) will continue to exist is to examine how long it has survived so far. In this view, an item’s age is the strongest _____ how much longer it will last.

Which choice completes the text with the most logical and precise word or phrase?

- A. uncertainty about
- B. indicator of
- C. motivation for
- D. criticism of

ID: b92c13fa Answer

Correct Answer:
B

Rationale

Choice B is the best answer. “Indicator” means “something that shows or suggests,” which matches Taleb’s argument that an item’s age can suggest how much longer it will last.

Choice A is incorrect. The passage tells us that examining an item’s age is the best way to predict how much longer it will last. Therefore, according to Taleb’s theory, an item’s age should add more certainty about how much longer it will last. Choice C is incorrect. A “motivation” is “a reason for doing.” Items don’t have feelings and motivations, so it wouldn’t make sense to say that their age is a motivation for how much longer they will last. Choice D is incorrect. “Criticism” can mean “describing faults or problems” or “an analysis of an artistic work.” Neither of these definitions makes sense here. An item’s age can’t criticize how much longer it will last.

Question Difficulty:
Easy
